Chairman's Message

Deepak S Parekh
Chairman

“ The Company has been profitable in Indian GAAP terms for the last three years and has improved its new business margins during this period. Among private sector players, the company's new business market share in the individual segment, measured in Weighted Received Premium (WRP) terms stood at 13.8% for FY 2014. ”

Dear Shareholders,

As HDFC Life enters its teenage years, it is with pride that I look at the progress made by the Company in line with its vision to emerge as one of the most admired life insurance companies in India. The Company has come a long way since inception and has been able to grow its customer base and distribution reach significantly. The HDFC Life brand with its 'Sar Utha Ke Jiyo' tagline has been able to stand out in a very competitive space.

Over the last few years, the Company has had to navigate through a tough macro-economic environment and regulatory upheaval. In a way, this has helped the Company come of age and get its priorities right. Between FY 2011 and FY 2013, the Company firmly established its position amongst the top three players in terms of new business revenues. It was able to diversify its channel mix and bring down its operating expense ratio. It also established a lead among private industry players on several other financial parameters and was able to distinguish itself from its peers.

FY 2014 was different from earlier years as the Company focussed strongly on building profitability, improving customer trust and investing with a long-term perspective. During the year under review, the Company ensured a smooth product transition, enhanced its risk management capabilities, took steps to improve business quality and made substantial progress on the technology enabled business transformation programme. The Company also rolled out a new value system that would guide its future path with all stakeholders. The Company has prepared a robust platform in FY 2014 for the next leap in the ensuing years, when I expect the country's economic growth to rebound.

The Company has been profitable in Indian GAAP terms for the last three years and has improved its new business

margins during this period. Among private sector players, the Company's new business market share in the individual segment, measured in Weighted Received Premium (WRP) terms stood at 13.8% for FY 2014. The Company's AUM also achieved a new milestone of ₹ 50,258 Crs as of March 31, 2014. The growth in AUM has been driven by the fact that unlike many of its peers who have seen outflows, the Company has successfully ensured that net premium inflows stay positive. This reflects the quality of the business underwritten by the Company and its long-term orientation and commitment to Indian consumers.

I expect the competitive environment to remain intense and this may result in some irrationality by a few market participants. However, the long-term opportunity for life insurance products remains huge, especially given the fact that the industry is operating below its own peak. The Company will continue to chart its path, keeping its focus on building a long-term, sustainable business model. The Company will also be at the forefront of all efforts to ensure that Indian consumers get the best value from life insurance products.

Going forward, the Company will stay focussed on building diversified distribution channel, maintaining low cost and efficient operations, offering a unique product proposition, improving profitability and creating a talented workforce. The Company is also aware that trust is its most important asset and will continue to focus on enhancing it with all stakeholders.

As stated last year, we will continue to work hard to sustain a culture of excellence that harmonises quality with consistent growth, delivers on customers' expectations and creates long term value for all stakeholders.

“ The Company continued to reinvent itself by launching a series of new technology, quality, product, people and distributor enablement initiatives in FY 2014 ”

Dear Shareholders,

FY 2014 was a year that saw the introduction of a new product regime for the life insurance industry. The key changes were largely in the traditional products segment, which have always been a major contributor to the industry's new business premiums. The transition involved the entire ecosystem of the life insurance industry, including product development, regulatory filings, training of sales staff, system readiness and marketing. Hence, both private and public sector players saw another year of de-growth in weighted received premium (WRP) terms in the individual segment.

In addition to this major industry specific change, the macro-economic conditions and subsequently inflows into financial savings remained subdued.

The Company continued to reinvent itself by launching a series of new technology, quality, product, people and distributor enablement initiatives in FY 2014. This is in line with our objective of building a resilient organisation which can withstand the downside impact of external factors by building a strong internal core, for the long term.

Performance

After consistently achieving and sustaining a Top three player ranking among private life insurers in the last three years, the focus in FY 2014 was on improving the quality and profitability of the business.

Quality measures included independent verification of the product purchased by the customer prior to issuance of the policy, strengthening of AML/KYC norms, training of all personnel on deployment and verification of quality parameters and new audit and risk management mechanisms. Some of these measures slowed the Company's new business premium growth trajectory in the individual segment but were critical for organisation health. Early trends suggest that these measures have a positive impact on customers with a rapid decline in both servicing and mis-sale complaints. Though early days, the persistency also is moving in the right direction.

A strategic initiative was undertaken by a cross functional team to improve the Company's new business margins. The Company managed the product transition exceedingly well and was one of the few companies to launch compliant versions way before the transition deadline. Average policy term and sum assured levels have also continued to increase in FY 2014. Steps taken to customise the product mix, new product filings, an increased focus on non participating products (especially protection plans) and effective cost control meant that the new business margins continued to improve on a year on year basis. Pre-override NBM stood at 26.2% and post override NBM at 16.1%, for individual business.

Other metrics also showed a marked improvement over last 12 months:

- The overall surplus generated was ₹ 725 Crs
- The Company paid its maiden interim dividend of ₹ 99.7 Crs (net) @ 5% of face value
- A low expense ratio of 10.7% was maintained

The Company tied up with more distribution partners during the year. Renewal premiums and group business performance also remained strong during this period.

- The total premium collected by the Company grew by 7% over the previous year to ₹ 12,063 Crs
- The conservation ratio for the individual segment stood at a strong 79%
- The Company ranked 3rd in individual business in weighted received premium (WRP) terms among private players and achieved a market share of 13.8%
- Assets under management grew by 25.3% during the year, with 54% of the assets in debt and 46% in equity, at the end of the year

In addition to these, the Company continued to invest in creating a robust technology platform that will help us manage greater volumes at a low unit cost once growth returns. There was a Company wide roll-out of the new value system that all our employees are expected to adhere to.

In summary, the Company retained its focus on the five principles outlined four years ago:

1. Emerge as a leader in providing long term insurance solutions
2. Fortify and diversify distribution channel mix
3. Own select customer segments and product categories
4. Deliver unique customer experience
5. Attain cost leadership across the delivery chain

I am happy to mention that our performance was recognised through several awards and accolades from reputed organisations during the year.

Way forward

The year ahead would throw up both new opportunities and challenges.

The framework for open architecture in bancassurance has been under discussion for a few years now and I expect a finality to be achieved in terms of the recommended roadmap for the same. With the product regime largely stabilised, the focus on consumer would increase multi-fold. As you are aware, insurance penetration in sum assured per person terms is low in India. Hence, opportunities for protection plans in both life and health segment are immense. So is the market potential for retirement plans - in both accumulation and de-accumulation phase of a customer's lifecycle. The exponential growth of 'digital' will continue and efforts to leverage it for consumer outreach and sourcing will only be augmented.

The Company will make all efforts to ensure it remains 'fit for future' and takes advantage of the opportunities irrespective of the constraints imposed by the external environment. Several initiatives have been taken up to overcome operating challenges and to thrive in a tough business environment.

As I had stated in my previous year's note to you, the opportunity to serve millions of under-insured Indians, improve life and health insurance coverage and provide long term savings vehicles remains immense. HDFC Life is committed to embrace this opportunity on the strength of its industry experience and expertise to drive future growth.

Executive Committee

Mr. Suresh Badami
Chief Distribution Officer

I joined HDFC Life in 2013 as the Chief Distribution Officer. I am responsible for the Bancassurance, Agency, Direct, Alternate Channels and International business.

I have about 20 years of work experience with more than a decade in retail banking. My previous assignment was with a large private sector bank as Retail Banking Head for South. I have also held business responsibilities in branch banking, wealth management, credit cards and payment solutions. I have worked in diverse industries including consumer durables, speciality chemicals and knowledge management. I have cross functional experience in sales and distribution, supply chain management and operations. I hold a post graduate degree in management with majors in Marketing and Finance from XIM, Bhubaneswar.

In my current role, I am responsible for formulating and executing the distribution strategy for HDFC Life. In a dynamic and fast changing industry, the role requires creation of new sustainable channels and ensuring profitable growth from existing distribution.

Our sales team has achieved several milestones in the industry. With several strong partner relationships we have established the organisation as one of the leading players in the industry. The team has ensured a clear focus on quality of business by implementing strong sales management processes.

The key focus area for FY 2015, is to further strengthen our distribution network and identify new segments for growth. There will be a sharp focus on leveraging technology to deliver an enhanced sales experience for customers. We will work closely with our partners in ensuring a higher level of financial advisory for insurance products.

Considering our brand strength and the robustness of our sales processes, we are well poised to take advantage of any evolution in the regulatory framework that impacts distribution channels.

Mr. Rajendra Ghag
*Senior Executive Vice
President & Chief Human
Resource Officer*

I joined HDFC Life in 2009 and head the Human Resource (HR), Learning and Development (L&D) and Administration functions. I am also entrusted with additional responsibilities of Business Service Excellence (BSE) since 2012 looking at my earlier business experience in this area.

Since 2009, HDFC Life's HR, L&D and Administration teams have been involved in some key initiatives. These include building strategic sourcing capabilities, institutionalised practices to differentiate and groom talent. These teams are also engaged in rolling out our flagship leadership programmes, building competitive compensation practices to reward performance and ensuring high-end delivery on HR processes.

Prior to joining the Company, I had decades-rich experience of working in major Indian and multinational companies, such as Sandoz, Ceat, Cadbury, Reliance and DHL Express. In these companies, I shouldered responsibilities in diverse areas, such as operations, HR, quality and processes.

Key impact of some of the initiatives led by my team during FY 2014 has been seen in the form of continual implementation of talent development process, like Potential Review Process (PRP) for senior leadership levels and also initiating one for middle and junior leadership level, taking CSR to its next level in line with the requirements of new Company Bill, which has been enacted and being implemented from April 1, 2014. Besides, we have had rejuvenated focus on organisational values during the year under review, by taking a critical look at our existing set of values to ensure its relevance to current business situation in order to nurture right organisational culture. Excellence being one of the newer values, through my responsibility as head of BSE, we are ensuring process orientation and methodical functioning at every level to enhance the overall efficiency across the organisation.

In FY 2015, the team is expected to continue to sustain the execution of talent and excellence processes, ensure sustenance of values by adopting the same in day-to-day functioning, have critical focus on retention of talent and continue to engage in pan-organisational training and skill development programmes.

Mr. Prasun Gajri
Chief Investment Officer

I joined HDFC Life in 2009 as the Chief Investment Officer. Prior to that, I worked for 14 years with Citibank N.A. and Tata AIG. I have had exposure to various areas of investments both in fixed income and equity areas, corporate banking, credit analysis, customer service and investment operations.

In 2009, the main task was to set up the investment team with the required skill set and experience to manage a large investment portfolio. Since then, the team has worked in line with the philosophy to manage the portfolios with a long term view and to consistently deliver performance, which is superior to the underlying benchmarks. Special emphasis has been laid on managing the non linked part of the portfolio and a detailed asset liability management (ALM) policy has been set up for the same.

FY 2014, just like FY 2013, has been a year of a lot of volatility in the financial markets. The year saw a steep depreciation in INR and strong tightening measures from RBI in the first half. However, the conditions normalised and by the end of the year there was a positive surprise on the macro-economic front in terms of lower current account deficit and falling inflation. It was also a very challenging year for us as well with the equity part of the portfolio not performing as per our expectations especially during the INR depreciation phase. Our valuation driven approach did not yield the desired results during this period. However, as the macro-economic conditions normalised, the fund performance improved with the equity funds out-performing the benchmarks over the last six months of the year. We utilised this opportunity to review and further sharpen our investment processes. We continue to hold the belief that our valuation driven long term approach to investing will bear fruit in the medium term.

Key areas of focus include further improving our ability to research and generate new investment ideas and also improving on our credit assessment practices in order to align them to a fast growing credit portfolio. We are also increasing the focus on managing the key risks in the conventional portfolio as well as looking for ways and means to increase the conventional portfolio yield within the ALM requirements.

Mr. Srinivasan Parthasarathy
Chief Actuary and Appointed Actuary

I joined HDFC Life in 2011 as the Chief Actuary and Appointed Actuary.

Since 2008, the Actuarial Team has been involved in several key initiatives at a critical time when the Company faced a challenging external environment and risks to the revenue and profitability. Key accomplishments during this period included strengthening the product portfolio by launching various best-selling products to meet customer needs. Besides, we needed to develop product strategies for various channels, initiate best-in-class capital utilisation practices, set industry standards on disclosures, implement the Market Consistent Embedded Value (MCEV) reporting framework, continuously monitor performances of various channels and implement the actuarial aspects of IFRS reporting.

Prior to joining the Company, I have worked for over 18 years in the insurance industry in both India and the UK with organisations, such as Canara HSBC Life Insurance (India), Aviva (UK and India) and Watson Wyatt (UK). In Aviva (UK), I worked in diverse areas, such as pricing, reporting and stochastic modelling, and led the transition from TEV to MCEV reporting. During my tenure at Watson Wyatt (UK), I provided consultancy services to clients on various aspects of company pension schemes.

Some of the key achievements by my team during FY 2014 include being the first in the industry to successfully transition into the new product regime post the regulatory changes in FY 2013, launch of more profitable suite of products than before, ensuring growth in new business margin over last year for every single distribution channel and delivering strong growth in IGAAP profits over last year.

Key focus area for the team in the coming years is to build the momentum for higher profits through strategic choices on pricing, product and channel mix. Besides, the team will also be involved in implementing process enhancements in the actuarial reporting framework with the twin objectives of a) deriving greater business insights from the actuarial projections and b) setting new standards on risk management.

Executive Committee

Mr. Sanjay Tripathy

*Senior Executive Vice
President*

I joined HDFC Life in 2004. I lead Marketing, Product and Direct Sales Channels as Executive Vice President at HDFC Life. I also have experience of working with GCMMF, Frito-Lay (PepsiCo), Mattel and Reliance Infocomm. I am a Board Member at Media Research Users Council (MRUC), an Advisory Board member at Direct Marketing Association - India (DMAi) and a member of the Awareness Subcommittee of the Life Insurance Council.

I and my team are responsible for Direct Channels, E-commerce, Marketing and Product Strategy, Brand Planning, Advertising, Communication and Media, Customer Insights, Digital Marketing Strategy, Customer Analytics and Corporate Communication.

We have established HDFC Life as a contemporary and dynamic brand, known for its financial expertise and drive. Self Respect is the core proposition of our Brand, and its creative expression 'Sar Utha ke Jiyo' is a category benchmark, that is timeless and relevant across all consumer segments.

In FY 2014, our focus was to attain leadership in online space and targeted product segment. I'm happy to report that we have emerged as leaders in the entire BFSI space on multiple parameters like fan base, followers on various social media platforms like Facebook, LinkedIn and Twitter. We are industry leaders in engaging with consumers and capitalising on the growing ecommerce opportunity.

Our product strategy ensures that we offer bespoke life insurance solution to each of our key customer segments and establish HDFC life brand as a leader in each of the identified segments. Direct channels achieved growth in a tough market and will remain a strong contributor to our the Company's growth and profitability in the coming years.

For FY 2015, the focus will be on product innovations, attaining leadership in identified customer segments, extending leadership in digital marketing and gaining greater market share in ecommerce.

Mr. Subrat Mohanty

Executive Vice President

I joined HDFC life in 2010 and I currently manage a portfolio of functions - Strategy, Operations, Technology and Health Insurance. Prior to assuming my current role, I was the Strategic Business Unit (SBU) Head at Infosys BPO where I spent eight years building the business from scratch. I started my career in 2000 as a management consultant at Andersen Consulting (now Accenture), India, with a focus on business process re-engineering and supply chain management. I hold a Bachelor's degree in Mechanical Engineering. Besides, I am an MBA from Indian Institute of Management, Calcutta.

The diverse nature of my portfolio gives me an opportunity to work across multiple areas within the organisation - organise strategy, deliver on business targets to the shareholders, manage customer experience and lead technology innovations. Our strategy has been a key differentiator in the marketplace over the last three years with our focus on diversifying channels, improving sales productivity, creating a digital insurance ecosystem and creating a unique customer experience.

The key accomplishments of the team for FY 2014 have been to improve business quality across all channels through tighter checks on sourcing of business, a significant technology transformation programme that is changing our new business acquisition and service architecture and getting a jumpstart on the Health insurance business.

Mr. A S Jayasimha
Executive Vice President

It was winter of 2000 when I joined HDFC life as the first Branch Head (probably the first in the Indian Pvt. Life Insurance space). In the last 12 odd years in HDFC Life, I have driven Sales Teams across geographies within India and currently I am heading Agency Sales and Distribution, and Distributor Development, Service and Engagement for all channels.

I started my career with Punjab and Sind Bank and later entered the life insurance space and worked with LIC for 11 years. I spent considerable time as head of various profit and growth units as Branch Manager and Sr. Branch Manager across South and West where I was accountable for sales and distribution, policy servicing, HR and Admin, underwriting and claims. While at LIC, I also completed my management education from JBIMS, Mumbai,

In my current role, I and my team are responsible to deliver Agency topline numbers with optimal new business margins. Additionally, we are accountable for execution of business strategies and initiatives across all sales channels. We have achieved several milestones in the recent past that include leading successful business transformational projects, technology based initiatives, architecture of best-in-class class sales processes, training and learning tools. These initiatives help the organisation deliver a strong topline at one of the lowest operational costs in the industry.

The key focus area for FY 2014, was to strengthen our distribution network, retain, groom and nurture our pool of experienced front line sales force and to continue providing best-in-class value proposition to our distributors. We improved our product mix to provide better solutions to customers and also meet the objective of the Company. Our vision for FY 2015 is improve our topline, further strengthen our processes, quality and compliance as well as governance and therefore provide optimal solutions to our customers and distributors.

Mr. Sanjeev Kapur
Executive Vice President

I joined HDFC Life in 2001 and currently lead the Company's Institutional Sales business. Before joining the Company, I worked in various international banks in India and overseas and managed various functions like treasury, liability management, operations, corporate and investment banking.

During the last 13 years, several milestones have been achieved in the Group Insurance space. These have helped expand our corporate client portfolio to over 600, spanning across large public sector units, MNCs and Indian companies.

Our performance in FY 2014 has placed us among the top three private insurance companies on total premium basis. We have also achieved a market share of 14.9% amongst private life insurance companies. Post the new ULIP/product guidelines, this performance is even more significant and memorable because of its timing, especially following a complete product revamp.

In FY 2015, the primary focus areas for Institutional Sales would be to increase our market share across product categories, sustain this profitable business growth and leverage on internal synergies to deliver competitive value propositions to our clients.

We want to significantly improve the contribution of the institutional sales business to the topline and the profits of the Company.

Executive Committee

Mr. Sanjay Vij
Chief Values Officer

I joined HDFC Life in 2001, and am currently responsible for Bancassurance - HDFC Bank as the Executive Vice President.

I joined as a branch manager in Ahmedabad and later, was responsible for the entire region of Gujarat before heading Bancassurance and Corporate Agency relationships and moved to head Retail Strategy and Business Development function in 2010. As Head of Bancassurance since 2011, my team and I have been diligently working towards growing the insurance business through the bank channel and making it the largest contributor to the organisation's topline and bottomline. Our key focus has been on strategic initiative of improving efficiency through implementation of a robust sales management process, training and skill development of our sales force and using technology to improve productivity. In the current year, we have also embarked on the journey to leverage the digital space by offering online life insurance solutions.

Prior to joining HDFC Life, I have worked in the Telecom space, starting my career with HCL Ltd., followed by successful and enriching stints with Blue Star and Birla AT&T in the Sales and Distribution function before moving to HDFC Life.

In the coming year, we will further strengthen our business by leveraging the growing distribution of the bank in the form of new branches and also work to activate new channels to offer Individual, Group as well as Health Solutions. We are aligning ourselves to ensure that we have a focussed strategy and product offering for Rural Branches which offers tremendous growth potential.

We have a vision to create a Virtual Office which will enable our sales teams to work seamlessly from partner branches which will enhance service levels as well as productivity. With these initiatives, we are confident of enhancing our dominance in the Bancassurance space in FY 2015.

Mr. Manish Sangal
Senior Vice President

I joined HDFC Life in 2012. Presently, I lead the Broker, Corporate Agency, Public sector banks and International Business relationships. I am also responsible for new acquisitions in Microfinance, Banks, Co-operative and NBFC space.

I have completed my engineering in Computer Science from Delhi Institute of Technology and PGDM in Marketing and Finance from Management Development Institute, Gurgaon in 1998.

I have a work experience of more than 15 years, predominantly in renewable energy space and life insurance. Prior to joining HDFC Life, I have worked for nine years with ICICI Prudential Life Insurance company. In my last role as Senior Vice President - Sales and Distribution there, I was responsible for organisational sales strategy, building agency distribution, managing bank and broker relationships for the entire eastern region. I have been awarded the prestigious 'DNA' award multiple times at ICICI Prudential, which is conferred to people who exhibit outstanding excellence at the ICICI Group level.

My team and I are unflinchingly focussed towards diversification of the distribution mix as well as strengthening and expanding current relationships in Broker, PSU and CA.

Mr. R Chandrasekhar
Chief Values Officer

I joined HDFC Life in 2001 and lead the Learning and Development (L&D) function. My team and I have the responsibility of capability development through employee training, distributor training, leadership development and enabling large scale change management programmes.

The L&D team works towards creating world class training content that is delivered to more than 79000 unique learners in a year, across more than 400 branches at HDFC Life. Training is delivered using dedicated training infrastructure in every branch, in-house experienced training team and also through use of a state-of-the-art online technology platform.

L&D team is recipients of many national and global awards. The team has won American Society for Training and Development (ASTD) Citation in 2011 and 2012 for L&D transformation and Sales enablement.

I have been awarded the CLO of the year 2012, at the TISS-Leap vault CLO Summit India and the award for being among top 25 Most Talented Global Training and Development Leader by CHRO ASIA in FY 2014. I have also been invited to be a speaker in national and international conferences; the most recent one being at the ASTD International Conference 2013 at Dallas, US on "Capability development strategy for growing economies".

I joined HDFC Life to lead Operations and Customer Service and was instrumental in setting up the technology, process and a large team to enable quality servicing to our customers through our branches, call centres and centralised processing centres.

Prior to joining HDFC Life, I worked with a large investment bank with a global presence - Deutsche Bank with their Global Security Services Division. I started my career in the securities market at the National Stock Exchange in their debt, equity and derivatives areas. I was also deputed from NSE to set up NSDL - which is the first depository services in India.

I have been a part of setting up a start-up venture, growing rapidly to a large organisation spread across geographies and thereby, implementing organisation systems, structure, process and culture. I have built and retained large, high-performance teams and delivered extraordinary results through disciplined and measurable people, technology and process management solutions

Mr. Vikas Abhyankar
*Executive Vice President and
Finance Controller*

I joined HDFC Life in 2007 and I head Finance, Procurement, Business Planning and Taxation functions. Besides, I also oversee Investment Mid/Back Office function. Prior to joining the Company, I worked for a long tenure with Cadbury Schweppes plc in their Indian business at Cadbury India also in the international arena, where I headed their Finance function for the South East Asia region. Key aspect of this international assignment was to provide Finance leadership to the diverse businesses across different countries in the region to achieve profit and growth targets. My experience with Cadbury's involved managing multifaceted responsibilities across finance, accounting and reporting, profitability management, business planning, taxation, audit, treasury and project management. Earlier, I have also worked with the eminent audit and consultancy firm, M/s A F Ferguson & Co.

At HDFC Life, a capable Finance team led by me has put in place strong financial processes, including implementation of top class ERP systems. We have implemented proper financial controls across the operations of the Company. We have strongly contributed towards the Company achieving profitable growth. We played an important role to achieve a significant reduction in the 'cost to revenue' ratio over the past five years. We have accelerated the timeframe, within which financial information and analysis are provided to the business to enable sound commercial decisions. The Finance team prepared detailed business plans and helped track actual business performance vs. target. Finance team managed the treasury and fund flow efficiently and has also effectively managed the taxation responsibilities of the business.

In FY 2015, the key focus would be to provide sound financial management to the business to achieve growth and profitability targets. While we ensure that proper financial controls are in place, we will proactively collaborate with different functions to increase productivity. We would manage vendor negotiations efficiently to provide better service levels at lower costs. We would build robust business plans and provide timely financial information and analysis to support sound commercial decisions. To ensure that the taxation related responsibilities of the Company are met and that the Company is in compliance with respective statutory and regulatory guidelines, will also be a major focus area.

Rooted in Values. Delivering Value.

**Values drive growth.
Values create happiness.
Values enable contentment.**

Like the tree of life, that flourishes and grows to provide sustenance and sustainability, our value system shapes our business outlook, keeping us focussed on delivering sustained value to each of our stakeholders.

For us, at HDFC Life, values are the foundation of our strategic growth charter. In our values are ingrained the seeds of our success. Our values constitute our business ethos. In our values is rooted the philosophy of our business.

While excellence empowers the organisation to achieve bigger goals, integrity is the bedrock on which we have etched the trust and satisfaction quotient of our customers, who are at the centre of our strategic focus. Our belief in our people ensures that we remain engaged with them at every step on the way, even as we walk with our partners in a collaborative spirit of mutual growth.

Our values define our mantra of collective progress. Cherished and nurtured by each member of the HDFC Life family, just as the Tree of Life is reared to bloom through the year, our values characterise the inspiring culture which fosters growth and progress, for us and all our stakeholders, for today and tomorrow.

Excellence is an attitude we have imbibed in our systems

It is a valuable driver of our growth

Excellence is doing **ordinary things extraordinarily** well.

- John W. Gardner, Former American bureaucrat

Excellence is for us more than a motif. It's an integral constituent of our business culture. Excellence steers our journey of progress. Moving onwards on our growth odyssey, we do so with a strong focus on excelling in every action.

Aspiring to be the best in the industry, we believe in doing even ordinary things extraordinary well, building on our achievements to deliver success to our partners, satisfaction to our customers, value to our stakeholders and growth opportunities to our people. Evaluating our deliverables in line with industry standards, we are focused on constant improvement of our offerings based on our evaluations.

Responding to the needs of our stakeholders, gaining insights into their needs through feedbacks and addressing those needs, we follow a system-led approach as we imbibe excellence in our actions to beat industry benchmarks, and in fact to exceed them. With this mechanism, we are continuously improving our functional processes and the standards of business excellence.

We are always striving for improvement by monitoring and improving productivity and reducing turnaround time, cost and complexity of processes, while learning continuously from our successes and failures.

When we embarked on our proactive journey of excellence, we did so with the strategic intent of making it the underlying philosophy of our thought process and system methodology. This enabled us to become a pioneer, always looking to challenge the status quo - an approach that is now inherent in every member of the HDFC Life family. Doing things right and on time, and consistently following laid out efficient processes is a sine quo non of our excellence focus, and underlines our efforts to be always better, cheaper, faster and simpler than yesterday.

Carrying forward this intent, we initiated several measures during FY 2014 towards translating our excellence focus into growth, business quality and leadership ranking.

A glance at some of these initiatives:

- * Focus on key strategic initiatives in a project management framework. Functional initiatives also driven through customised project management framework of eUreka, WoW, impACT framework. Won the national award from QCI for the PM framework
- * Focus on distribution build-up
 - » 23,000 licences in agency channel
 - » DNA platform in agency stabilisation
 - » New alliances leading to partnerships with six MFIs and five NBFCs for our Credit protect business
- * Projects and initiatives across functions on efficiency improvement, reduced business leakage, revivals, improvement in customer connect and productivity
- * Mechanisms on Process Assurance, Predictability and controls put in place for critical processes
- * Customer analytics and predictive underwriting

These initiatives enabled us to ensure excellence across the organisation, with every member of the HDFC Life team showing a strong commitment to the values that now form the nucleus of our brand success.

Enabling excellence

- * High conservation ratio of 79%
- * AUM increased by 25% to cross the ₹ 50,000 Crs threshold
- * Average policy term increased by 16% over previous year to 14 years
- * Operating expense ratio reduced to 10.7%
- * Technology enabled business transformation underway

The journey of excellence shall continue, going forward. Motivated by the positive outcomes of our strategic endeavours of the year, we shall continue to invest in our excellence motto and align ourselves even better with the evolving needs of tomorrow. Our drive on Service Excellence will help us exceed customer's expectations, while our Early Warning Indicator predictive model shall alert us about the quality of sales and customer acquisition. Click2Buy has an easy to use interface comprising an electronic form and a robust business rule engine, while our focus on consistent and predictable processes shall help enhance excellence across the value chain.

With a large majority of our employees feeling committed to consistently practising the organisational values, as per our Value Findings Survey, we are confident of delivering greater value to all our stakeholders as we foray into the next phase of our odyssey, with excellence a vital engine of value-led growth.

Awards & Accolades

People empowerment to deliver value

They help us navigate the journey of our success

The way your **employees feel** is the way your customers will feel. And if your employees don't feel valued, neither will **your customers**.

- Sybil F. Stershic, Marketing & organisational advisor

Our people are at the centre of our strategic focus. They are **our strength, the foundation of our growth**, and the torchbearers of our values-led journey. **Our people are the bridge between our products** and our customers.

Talent and skill development of our people and their growth is a vital component of our values-driven business philosophy. We are cognisant of the importance of ensuring that our people grow with us and to this end, we continue to take focussed initiatives.

Tracking satisfaction levels and creation of a culture-driven and engaged work environment, where mutual respect is given prominence, are important facets of our people policy. The Company expects employees to contribute towards an engaged work environment, where actions and communication are not allowed to adversely impact human dignity, and where time and opinions of all stakeholders are respected.

Strong inter-personal relations are encouraged, with mutual respect and trust being the core components. The Company also has in place a system of rewards and

recognitions, merited by consistent performance based on various parameters. We have developed processes for mentorship and feedback by senior leadership to help employees improve their performance. These systems and processes are proving extremely useful in creating a positive work environment and ensuring strong internal growth.

Safety is another key area of our organisational focus and employees are trained to protect the Company's assets and facilities and ensure that the safety of its assets (Capital and Human) is not compromised.

At HDFC Life, employees along with other stakeholders, are encouraged to participate in our Corporate Social Responsibility (CSR) programme, which is aimed at accelerating all inclusive growth and strengthening environment protection. Through the CSR framework, several initiatives have been taken in the areas of education, health, livelihood, disaster relief and environmental sustainability.

The results of all these actions are measurable in terms of our Employee Engagement and Performance Enablement scores, as well as our awards and recognitions in Human Resource (HR) and best employer categories. Our efforts are aimed at promoting skill and talent development among the employees, and enabling growth opportunities for them at every stage.

A look at our people-focused initiatives:

- * Tie-ups with Institutes/Universities for customised Insurance courses for frontline sales
- * Train Hire and Deploy model being launched to provide cost-effective skilled/trained people
- * Management development programmes for middle and senior management
- * Focus on Internal Job Movements and Cross-functional assignments
- * Stringent policies on prevention of sexual harassment, whistle blower and code of conduct

These initiatives have led to significant improvement in people engagement and growth within the organisation, and have helped promote an affirmative and inspiring work ethos.

Encouraging people growth

- * Employee Engagement Index Rating above 75th % percentile of industry norms
- * Over 390 positions filled through internal job postings
- * 78 town-halls and Leadership Interaction sessions held during the financial year
- * Over 8,000 employees enlisted on 'MyLife', the employee social network at HDFC Life
- * Large number of individuals and households impacted by CSR activities
- * Golden Peacock HR excellence award

The Company has found endorsement of its people policy in the various awards it has received, including: Great Places to Work For in India 2012-13; Asia Best Employer Brand Awards 2013 - Award for Best Employer in Asia; and Golden Peacock HR Excellence award 2013.

Encouraged by these recognitions, we are stepping up our people initiatives and have put in place several programmes to encourage growth across all levels. Zenith, our leadership development programme, enables to deepen the leadership talent pool and thus help in robust succession planning. FLAG provides a well-structured career path and rewards frontline sales employees based on performance, while CEO Communication and Coffee with Leadership initiatives ensure leadership connect with the employees. Our LEAD programme is designed to develop the foundational and role-specific leadership competencies.

Our goal is clear. We want to be a people-led organisation, with our internal customers leading the way towards delivering exceptional value to our external customers.

Integrity is about doing things right, always!

It is an asset that we have built over the years

Integrity is the essence of **everything successful.**

- R. Buckminster Fuller, Theorist & author

Integrity is the core value driving the Company's business ethos and **strengthening our customer connect**. It is the key factor ensuring sustained **faith and trust** of the customers in HDFC Life. It is the value driver that has steered our journey towards becoming a sustained, long term and **valuable player** in the business of life insurance.

Aligning the value of integrity with our Code of Conduct, we have made it an uncompromisable ethic of our business, to be diligently followed by all individuals in every action. With clearly defined guidelines for working with employees, channel partners, vendors, customers/consumers, governments and local communities, the Code of Conduct has evolved into a keystone of our organisational philosophy.

The Code ordains on every individual the responsibility to build relationships based on integrity, thereby showing total accountability in all their actions at all times, irrespective of whether they are being watched or not. They are expected to ingrain the principles of fairness, honesty and truthfulness into their function, and immediate supervisors are required to promptly resolve any conflict of interest.

Freedom to take objective and unbiased decisions, encouraging one another to demonstrate integrity and strong systems to prevent/penalise deviations provide for a cascading effect of the integrity value.

Taking forward its integrity focus, the Company initiated several measures during the year to strengthen the value system and to ensure that the philosophy is imbibed in the organisational system.

A snapshot of our initiatives:

- * Revisited the Values framework and cascaded it across the organisation
- * Pre conversion verification, calling for most channels to ensure quality of sale and prevent mis-sale
- * De-risking the broking business by introducing B2B mapping
- * Comprehensive security for corporate data at all user end points, internal networks and mobile applications
- * Use of Predictive Fraud Analytics and Early Warning Indicators of potential miss-sell

- * Compliance council and Risk Management control units to identify and control risks and frauds
- * Strengthened the AML/KYC norms and stringent controls
- * Service delivery assessment and concurrent audit framework across service points and back-end processes

These initiatives led to a multi-fold growth in customer faith and trust, thereby resulting in delivery of tangible benefit.

Growing customer connect

- * Over 97% of employees trained on the values framework in FY 2014
- * 100% employees trained of AML/KYC norms for over 14,000 man-hours of training
- * Reduction in ratio of free look-ins and complaints received in 90 days to 3.15%
- * Improvement in customer connect and verification success rate from 80% to 93%

Our Value Findings Survey shows that a large number of employees consider integrity the most important value in the coming years and Trust a critical component of organisational growth. Thus, as we move forward, we shall strengthen our focus on trust and integrity in tandem with the changing industry dynamics. We shall continue to identify ways to increase engagement with integrity for our employees, partners and other stakeholders, encouraging them to take ownership for their actions and speak out against violations.

Ensuring total customer satisfaction, always!

In their happiness and satisfaction lies our success

The goal as a Company is to have **customer service** that is not just the **best but legendary**.

-Sam Walton, Founder of Wal-Mart

The customer lies at the centre of our business. To use a clichéd phrase, the customer is, for us, the king. From our **strategic focus** to our **initiatives**, all our actions are **centred around the customer**. We value our **customer relationships** and are always striving to deliver total **customer satisfaction**. Our decision-making process is driven by our **customers and policy** holders.

Microsoft chief Bill Gates once said 'your most unhappy customers are your greatest source of learning.' Cognisant of the truth of this statement, we are constantly endeavouring to enhance our customer value proposition and have a full-fledged service recovery cell for dissatisfied customers. From need-based selling and combo products to claims promise and technology enabled transactions, we are continuously working to develop customised solutions to ensure total customer satisfaction, at all times.

We are committed to keeping our customers informed and aware about the strengths of our products and services, and continue to train our employees and partners in this regard. We invest in customer interaction at various stages of our relationship to ensure that our employees not only set expectations in line with customer needs but also deliver on their promise throughout the consumer lifecycle.

Our customer-centricity extends to our partners/vendors/distributors as well, and they are encouraged to follow the necessary standards and ensure high benchmarks of quality in customer dealings. We help them to simplify all customer communication and guide them to live up to the promise of service defined by the organisation.

We are continuously seeking innovative ideas from our stakeholders to enhance customer experience in terms of products, offerings, processes and service. The thrust is on ensuring the most competitive and best-in-class service, which is not merely benchmarked to industry standards but goes beyond.

New products and solutions, employment opportunities for dependants of claimants, wellness tie-up, premium payment through IVR are some unique measures we have initiated to deliver value to our customers.

A peep into our customer-centric initiatives:

- * Customer value proposition through new product segments like Annuities, Credit Protect, Health, Online products, Non Participating products and QROPS
- * Service recovery cell for dissatisfied customers and their retention
- * MyMix, a tool to enable need-based selling and combo products; Win Win for customer and distributor
- * Amongst the first three companies to launch Demat
- * Claims promise, which is now available on our website; electronic intimation of claims
- * Technology enabled transactions. Missed call SMS, IVR interactions, mobile payments, SMS fund alerts, portal revamp
- * Customer education series for vintage customers
- * Customer analytics for retention and lapse revivals
- * Focus on need-based selling
- * Newer avenues for premium payment like tie-ups with newer partners for Premium collection, Credit Cards enablement, Channel partner website, Feet on Street service and IVR

- * Product Specialists at call centre for Conventional Plans
- * Swabhimaan Careers to provide employment opportunity to dependants of claimants

As an outcome, we are now top ranking in many areas - individual business, online sales, digital space, to name a few. Our balanced product mix ensures 50% is contributed by conventional products to individual premium and we have successfully transitioned with key products in the portfolio within defined timelines.

Building customer connect

- * Industry leadership in digital space
- * Customer connect established at proposal on-boarding stage
- * 95% customer payouts through NEFT
- * 51% of policies sourced from conventional plans

The way forward in the highly competitive business environment of tomorrow shall lie in taking the customer connect to even greater levels of service delivery. With our Customer Verification calling process, we shall be able to ensure right on-boarding of the policyholders. The one-page 'Most important document' document gives the customer a snapshot of important policy terms, while our 'Little Book of Legacy' facilitates the customers with documentation, as well as making nominations and wills. More such customer-oriented initiatives are on the anvil, with a strong focus on continuous training of employees and others in improving customer service.

Building on partnerships to deliver value

Partnerships are the core of our strong foundation

Unity is strength... when there is **teamwork and collaboration**, wonderful things can be achieved.

-Sam Walton, Founder of Wal-Mart

We believe that collaborative partnerships are one of the **biggest drivers of our growth**. Inspired by this belief, we are steadfastly focussed on developing **collaborative relationships with our employees**, channel partners, sales partners and distributors. Collaboration promotes bonding and enables **strengthening of internal relationships** across our business functions, which we are successfully able to leverage to mutual benefit.

Our collaborative approach enables us to create the necessary systems to realise our goals and meet customer needs. With the customer at the centre of our growth model, we use this collaboration focus to ensure that all actions are aimed at ensuring total customer satisfaction, and all commitments and promises to other stakeholders (colleagues and partners) are fully adhered to.

This strategic thrust on collaboration is sustained through well defined guidelines on timelines and quality expectations. Communication across departments and functions, with pro-active efforts to build inter-departmental interface, ensures timely and seamless resolution of problems. Cross-functional forums and projects thus serve to create a sharing resource, where employees can seek expertise and guidance, and also build on collaborative skills to deliver the highest order of customer service and organisational imperatives through a consensual and inclusive approach.

During the year, we strengthened this collaborative approach through the launch of enterprise social networking for our employees and integration of online process with our Bancassurance partners. A new lead tracking system was launched for enablement of sales partners and for new distribution partners, we started online training module, among other initiatives.

Focussed initiatives at a glance:

- * Launch of enterprise social networking "My Life" for employees to collaborate and connect
- * Collaboration with bank channel partners (HDFC Bank) by integration of online process
- * Enablement to the sales partners on field through Sales Diary - a new lead tracking system
- * Enablement of online training module "GOAL" for new distributor partners
- * Focus on distributor engagement and connect programmes
- * Facilitation of cross functional collaboration within the organisation by setting up self-directed zonal and regional councils and cross functional project framework

The impact of this partnership approach can be seen across our business functions, with notable increase in partner satisfaction levels, as measured by Internal Partner Satisfaction (IPSAT) scores. The Zonal and Regional Business councils, and 'Connect the Dots' platforms are helping intensively in problem resolution, while the Strategic Initiatives and Project Management frameworks sponsored by Executive Committee are providing the right opportunity to work in cross functional teams.

Partnering growth

- * Internal Partner Satisfaction survey conducted Forums to collaborate include Business Review Forums, Zonal and Regional Business Councils, Connect-the-Dots platform
- * 13 Strategic Initiatives, 317 eUreka, 91 WoW, and 25 iMPACT projects closed, fostering collaboration
- * Balanced scorecard to ensure individual performance rating is based on cross-functional linkages

As we move forward towards realisation of our organisational goals, we shall make our collaborative and inclusive approach even more robust. Workshops and one-on-one discussions will be extensively used to train employees into treating everyone as internal customers and being sensitive about how their actions impact others. Horizontal communication to build departmental interface shall be strengthened, along with focus on collaboration with the eco system. Employees will also be groomed into finding ways of contributing better to the organisational goals.

Management Discussion and Analysis

1. Macro Economic Overview

1.1. Indian Economy - Opportunities and Challenges

India is on track to be amongst the top three growth economies in the world by FY 2020 according to *EY Attractiveness Survey India 2014*, aided by its growing middle class population, increasing consumption levels and a large skilled workforce. The golden years of FY 2000-07 when India's growth rate averaged 7.2% are in stark contrast to the past few years which have witnessed a subdued growth of the Indian economy. With high inflation rates, a large fiscal deficit, structural bottlenecks and tepid demand for both investment and consumption, the growth is expected to moderate to an average of 6.3% (see table below) for FY 2014-18.

Though India is projected to grow at a modest pace, the growth is expected to be more sustainable and healthy, driven by improving economic fundamentals. India is also forecasted to become one of the largest consumption markets in the world by FY 2025 according to CII, with tier-II and tier-III cities experiencing a rise in purchasing power and awareness levels. India's labour force is also expected to rise to 55.7 Crs by FY 2020. These factors, coupled with competitive wage costs and superior engineering skills, have the potential to make India a preferred investment destination for specialised and customised production requirements.

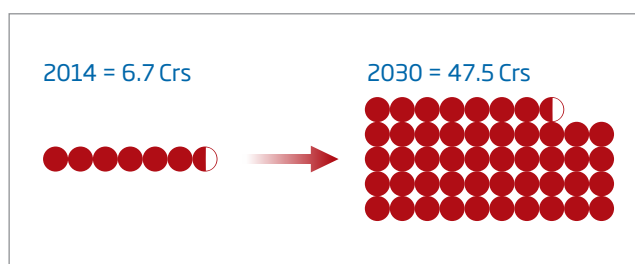

A snapshot of key economic factors affirm the belief that the long term fundamentals of the Indian growth story remain solid and would help stimulate growth and investment prospects for the country in the foreseeable future.

	FY 2014	FY 2015	FY 2016	FY 2017	FY 2018
GDP Growth (%)	5.1	6.3	6.5	6.7	6.7
Gross National Savings (% of GDP)	31	32	32	33	33
Current Account Deficit (% of GDP)	3.8	3.4	3.2	2.9	2.8
Consumer Price Inflation (%)	9	8	7	7	7
Potential Employment (Crs)	48	49	50	51	52

Leading India's growth story is its growing middle class, currently constituting approximately 5% of the total population. It is expected to increase to 47.5 Crs by FY 2030, thereby creating a sizeable savings-led and consumption-driven market. India's middle class population would act as the growth engine for the economy in the medium to long term.

As the country continues on the path of economic growth, it is also imperative to ensure financial well-being of the citizens. India ranked 15th out of 16 countries across Asia-Pacific region in financial literacy, leaving room for increasing the financial awareness of the people.

Traditionally, domestic savings have fulfilled most of India's investment capital requirements. However, savings have witnessed a decline due to the tough global and local macroeconomic environment as well as the volatility seen in the financial markets. Greater retail credit penetration and increasing financial liabilities have also impacted the proportion of savings in Indian households.

Management Discussion and Analysis

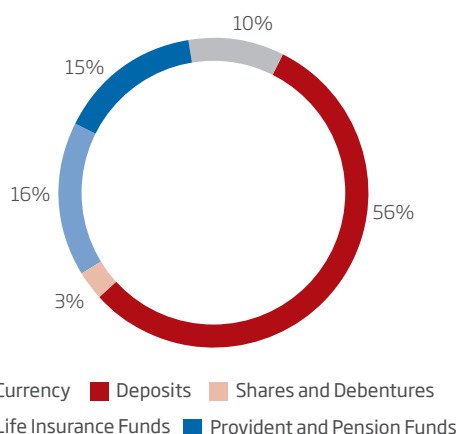

The Indian population has traditionally preferred physical instruments such as gold and real estate over financial instruments as a means of savings. However, increasing real estate prices and softening in gold prices have helped shift focus towards financial instruments and this trend is expected to continue in the near future.

Household Savings Composition

Source: Report of the Working Group, 12th Five Year Plan

Financial Savings of the Household Sector (Gross) FY 2013

Source: RBI Annual Report, FY 2013

Of their financial savings, Indian households continue to apportion more than half to deposits, given the high prevailing interest rates. The share of savings channelled

to life insurance funds reduced to 16% compared to 20% in the previous year.

This can partly be attributed to the attractive returns offered by alternate financial instruments such as equity markets, bank deposits, government bonds and PPF schemes. However, the change in trend towards greater financial savings combined with the insurance industry's long term savings and protection offerings have the much-needed potential to increase the level of financial protection of the Indian economy.

The trend towards greater level of financial savings is likely to get reinforced by the improving economic parameters for the country. The Current Account Deficit which had exposed the currency to high volatility has narrowed down significantly. The Government, on its part has also taken steps to reduce fiscal deficit, even at the cost of slower growth. The inflation levels which had shot up to double digit levels due to an increase in food prices, have cooled off in the last few months. The overall confidence in the economy has also improved.

The positive trends in the economy have helped the country withstand external developments better. The US Federal Reserve started tapering its bond purchase programme from December, 2013 in a measured manner. The impact on the Indian economy has been quite minimal. FII inflows into India have picked up strongly since the beginning of FY 2014.

While India is now relatively less vulnerable to external uncertainties as compared to some of the other developing economies, it is widely expected that the future prospects for the economy will be dependent on the measures taken by the new government.

1.2. Life Insurance Industry - Overview and Trends Overview

India ranked 1st in terms of life insurance density according to World Economic Forum's *Financial Development Report 2012*, though it ranked low in terms of overall financial development. The low penetration of life insurance at 3.2% of GDP in FY 2013 indicates promising growth prospects for the industry. Growth on the demand side is expected to be driven

Management Discussion and Analysis

by growing population, rising purchasing power and increasing financial literacy. Growth on the supply side is expected to be fuelled by rising competition and innovation.

The initial growth of the life insurance industry from FY 2000-08 has come at the cost of high expenses incurred on promoting product and brand awareness, establishing new and strengthening existing distribution channels and opening of new branches. Most of the insurance companies have failed to meet their original timelines of breaking-even within the first seven to nine years of operations. However, expense levels have seen a decline post the September, 2010 ULIP regulations issued by IRDA.

Though the long term outlook remains promising, the industry faces a multitude of challenges in the short term in order to meet regulatory demands, increase risk management capabilities, realign distribution models and build technological capabilities.

Life insurance companies would increasingly be required to focus on two aspects, a clearly defined value proposition for customer acquisition and operational efficiency to improve profitability.

Product Mix

The revised product guidelines issued by IRDA in FY 2013 prompted life insurance companies to re-file almost all of their existing products. Conventional products, which constituted 17% in FY 2010, formed 65% of new business premium for the private sector in FY 2013. Post

the product transition, the Company expects conventional products to dominate the product landscape. The Company also believes that post such changes, the industry will experience a more stable product regime.

Channel Mix

Insurance companies continue to struggle on the distribution front with a declining agency force and uncertainties in alternate channels. The contribution of Bancassurance has increased significantly in recent years. Realising the importance of Bancassurance, the Government has also proposed that banks can act as insurance brokers and thereby distribute products of more than one insurer.

Alternative distribution channels such as Online have also evolved in the last few years. These channels serve as a cost-efficient means of selling insurance products while giving insurers an opportunity for developing a direct relationship with the customer. The Company looks at Online channel as a significant opportunity in the future as India is projected to have the second largest internet user base in the world by FY 2015, according to McKinsey's 2012 report, *The Internet's Impact on India*.

Regulatory Scenario

FY 2014 saw IRDA issue many regulations and guidelines that will have long term implications for the industry structure. Some of the key regulations are:

Management Discussion and Analysis

E-Insurance Account

IRDA introduced dematerialisation of insurance through the introduction of "E-Insurance Account", where all the insurance policies of a policyholder can be held in an electronic form with an insurance repository (IR). IRDA has granted Certificate of Registration to five entities to act as Insurance Repositories that are authorised to open E-Insurance Accounts (EIA). All existing and new policyholders can open an EIA with any IR free of cost. The Company has tied up with most of the IRs and is encouraging the adoption of Demat across all its Sales channels.

Setting up of Foreign Subsidiary Company

IRDA has laid down norms for setting up of a foreign subsidiary company or branch, enabling domestic companies to expand overseas.

Common Service Centre (CSC)

The purpose of creating CSC as a channel was to facilitate life and non-life insurers in India to reach out to rural India by utilising the network of CSC - SPV (Special Purpose Vehicle) to market certain categories of retail insurance policies and services.

Health

A detailed guideline for health insurance has been issued governing key aspects of operations, finance, risk, products and actuarial.

Banks as Brokers

Insurance broking for banks is on the anvil and this regulation will lead to wide ranging alignment and change in Bancassurance channel. IRDA had issued enabling guidelines to this effect in July, 2013 allowing banks to become brokers and be more responsible for selling insurance. The IRDA guidelines state that "not more than 25% of the business for a bank can come from the insurance company of the promoter group".

While the final guidelines are awaited, consultation is underway with various stakeholders, viz, Ministry of Finance, Reserve Bank of India (RBI) and representatives from various industry groups to give a final shape to Bancassurance under open architecture.

Product Guidelines

IRDA had revised guidelines in February, 2013 for group and individual products to be implemented in July, 2013 and October, 2013 respectively. The implementation dates were further postponed during the year to August, 2013 and January, 2014 respectively. The Company proactively ensured readiness for this transition by launching compliant products ahead of the regulatory deadline.

Miscellaneous

Various other circulars have been issued by IRDA covering areas such as maintenance of AML records of policyholders, no objection process for corporate agency transfer, procedures and timelines to be adhered to in case of ECS mandate, TRAI regulation around compulsory use of 140 number series for telemarketing, redefinition of the existing broker regulation, reduction in pass percentage for pre-recruitment examination of insurance agents and incorporation of an additional disclaimer in every product advertisement warning the audience of spurious phone calls and fraudulent offers.

1.3. Industry Performance

Since the opening of India's insurance industry to private sector in FY 2001, the private players witnessed two major cycles. The first saw a rapid growth till FY 2009 where the New Business Premium grew by over five times. Life insurance penetration increased from 2.1% in FY 2001 to 4.0% in FY 2009 and competition intensified with the number of private players increasing from 5 in FY 2001 to 22 in FY 2009.

The second phase since FY 2009 witnessed a decline in market share of private players from 59% in FY 2009 to 37% for FY 2014 on Overall Weighted Received Premium (WRP) basis. The performance of the industry during this period was affected by a rapid and significant change in product regulations, global financial crisis and pressure on companies to start moving towards profitability.

FY 2014 was a tough year with private players losing 3.0% market share to LIC. The Company continued to be amongst the top three private players on Overall WRP basis with 11.6% market share for FY 2014.

Management Discussion and Analysis

The Company ranked third amongst private players for FY 2014 on an Individual WRP basis with 13.8% market share. The Company demonstrated a strong performance in the Group business with 30% growth over the previous year.

1.4. Strategic Focus

The Company's organisation agenda continues to be driven through five strategic themes:

Leader in providing Long Term Insurance Solutions

The average policy term increased to 14 years (FY 2013: 12 years). The Company has a balanced product mix, with conventional products contributing 51% to the total individual premium. Focus on term, annuity products and long term savings products continued through FY 2014. The focus on selling long term profitable product mix has been embedded across all distribution partners. More than three-fourths of the business in both Agency and Direct channels came from traditional plans. The Company continued to have a strong Conservation Ratio of 79% during the year under review.

Fortify and Diversify Distribution Channel Mix

Continuing from FY 2013, the Company maintained its strong focus on diversifying its channel mix. Non Bancassurance contribution grew from 28% to 30%. Direct and Group channels were the growth engines for FY 2014. The Company has widened its reach through tie-ups with several Micro-finance Institutions (MFIs), Non-Banking Financial Corporation (NBFCs) and other partnerships. The build-up of Agency channel distribution continued and the Company doubled the number of new licences to 22,500 in FY 2014 (FY 2013: 11,000). Additionally, an alternate agency platform Develop, Nurture and Achieve (DNA) comprising a highly skilled and productive sales force was successfully launched. Stringent quality measures like pre conversion calling, Know Your Customer (KYC)/ Anti-Money Laundering (AML) norms etc. were introduced across channels to ensure "right selling". Broker channel focussed on the share of wallet of quality brokers. The newly launched Sales Diary provided a standardised sales management process across distributors and channels.

Own select Customer Segments and Product Categories

The Company's product development continued its focus on owning select customer segments and product categories. The Company's focus in FY 2014 was on

ensuring availability of regulatory compliant products in order to mitigate the impact of product regulations issued by IRDA in the last few months of FY 2013. The Company launched 22 individual and 8 group products in FY 2014 and was the leader in launching products under the new regime. The Company was able to launch its first regular income plan "HDFC Life Super Income" on the participating platform and its first non participating savings plan "HDFC Life Sanchay". Both these plans have been well received by the Company's distributors and customers. In FY 2014, the Company enhanced its focus on protection for Young Aspirants and annuities for Wisdom Investors. This improved focus on respective customer segments resulted in increased business contribution from these product segments. Through its health plan, the Company managed to generate nearly 1% of the new business EPI in FY 2014. The Company is increasingly focussed on providing a better experience by developing products which could be sold to the "New India" customers through the online medium. Focussing on this goal, the Company filed special products under the "Click 2" Universe theme during the year under review.

Deliver unique Customer Experience

The Company launched its "MyMix" initiative aiming to enhance customer purchase experience by providing a personalised solution through need-based product combination offerings. This simple, fast and flexible tool enabled the sales force to deliver a standardised experience to the customer. The Company also revamped its official website creating a much simpler and user friendly interface for its existing and new customers. A customer service initiative - Pre-Conversion Verification Calling (PCVC) was launched which detailed out the key product features and charges to the customer before policy conversion, thereby preventing any potential mis-sale. Other service initiatives such as Missed call SMS, IVR interactions, mobile payments, check pick-up facilities and SMS fund alerts were launched to better the overall customer experience. For a better customer claim experience, the Company launched the claims promise through which claimants can intimate a claim electronically on the website. As a result of all the initiatives taken for better customer experience, the number of customer complaints started trending down. The Company was amongst the few companies in the industry to launch Demat of insurance policies. There is an ongoing drive to increase adoption of Demat for new business and existing policies.

Management Discussion and Analysis

Cost Leadership across the Delivery Chain

The Company delivered higher profitability with a post overrun New Business Margin (NBM) of 16.1% for FY 2014 in comparison to 13.2% during the previous year by using a judicious product mix and cost containment strategy for channels. The operating expenses to reported premium ratio was kept under control despite a challenging operating environment. The Company continued to optimise capital management, with no capital draw-down needed in the last three years. The Company continued to invest in key areas like Health, Technology Enabled Business Transformation, International Business and other tie-ups.

2. Financial Summary

The Company continued to record a strong performance over the years on financial parameters.

Total premium collected by the Company grew by 7% over the previous year to ₹ 12,063 Crs. The growth was mainly driven by strong group business and renewal premium. The Company maintained a tight control on operating expenses. The Company's operating expenses ratio (excluding service tax) at 10.7% continues to be one of the best in the private sector. Net profit for the Company stood at ₹ 725 Crs at the end of the year with a growth of 61% over the previous year.

The Company is pleased to report that it declared a maiden dividend of ₹ 99.7 Crs (@ 5% of face value) excluding Dividend Distribution Tax (DDT) during the year under review.

2.1. Revenue Performance

Some of the key highlights of the Company's distribution network during FY 2014 are:

- 429 own branches covering 985 cities
- Over 75,000+ financial consultants
- 4 key Bancassurance partners with presence in more than 5,000 branches
- 7 key pan-India brokers and corporate agency tie-ups
- An employee force of more than 13,900 as on March 31, 2014

The Company sold around 6.5 lac policies (excluding policies sold in rural areas), amounting to ₹ 2,356 Crs of new business regular premium during the financial year. Group business recorded ₹ 1,485 Crs of premium during the year under review.

The Company's Conservation Ratio (in individual business) stood at 79%, with a 17% growth in renewal premium over the previous year. 45% of collections were made via alternative payment modes such as auto debits (31%) and online (14%).

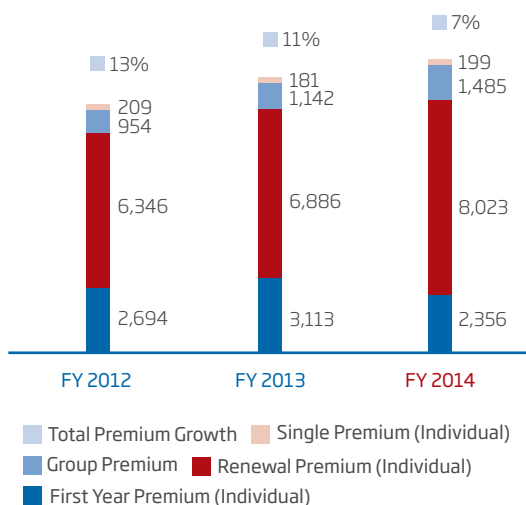

A number of customer education initiatives helped the Company register renewal and revival premium (Individual business) collection of ₹ 8,023 Crs.

The Company showed a strong performance in group business and ranked third amongst private players on a

Bancassurance channel continues to account for a major portion of its business and the Company has undertaken new initiatives to diversify its channel mix and grow distribution through other channels.

Agency contributed 16% of the APE during the year under review. The channel continued to face challenges across the industry due to reduced income levels and high turnover of individual agents. The Company's continued adherence to Agency Quality Index (AQI) is expected to

bring stability and scalability to this channel. The Company initiated investment in the DNA model to revitalise its Agency channel and increase productivity.

Bancassurance contributed 70% of the new business premium, maintaining its position as the largest channel for the Company. The Company's tie-up with leading industry bank players such as HDFC Bank, Indian Bank, Saraswat Bank and Ratnakar Bank positioned it as the largest player in the Bancassurance space. The model followed is based on three principles: a win-win partnership between the Company and its Bancassurance partner, integrated service model from product design to relationship management and recommending sound financial solutions based on a customer-centricity philosophy. The Company continued to enter into partnerships with new corporate agents to increase its reach. Existing corporate agents like HDFC Sales Pvt. Ltd., HDB Financial Services Ltd., HDFC Securities Ltd. and Suryoday Microfinance Pvt. Ltd. remained steady contributors to the overall premium income.

Broker channel accounted for approximately 7% of the new business premium. The Company has built strong relationships with several pan-India insurance brokers. The Company continues to work towards strengthening these partnerships in the year ahead and has introduced further measures to improve business quality.

Direct Sales channel continued to grow, accounting for 7% of the new business premium during the year under review. The channel grew at 8% over the previous year, led by the Branch sales and Online sub channels. It is the third biggest contributor to new business premium. The Company plans to continue to launch initiatives in this space, in order to reduce acquisition cost and sales productivity.

2.2. Market Share and WRP Growth

Market Share

FY 2014 saw a decline in market share for the private sector amid a challenging macroeconomic environment. The Company maintained its position amongst the top three players in the private sector in both individual and group business despite a decline in market share, attributable to voluntary adoption of stricter AML/KYC related processes introduced at the new business stage. The Company increased the average policy term from 12 years in FY 2013 to 14 years in FY 2014 and performed better than its peers in 25th, 49th and 61st month persistency.

Market Share

Note: The above numbers are with reference to Individual WRP

2.3. Product Mix

In line with its philosophy of need-based selling and adhering to the changing regulatory landscape, the Company continued to maintain a balanced product mix strategy. Sales of non participating products continued to increase, led primarily by online term products. The Company also launched a savings plan in this category in FY 2014.

The Company offers solutions catering to various customer needs such as Protection, Pension, Savings, Investment and Health. The Company offers a set of 30 products (22 Individual and 8 Group) with 9 optional riders across various platforms to its customers.

- Renewal premiums	1.3	1.3	1.6
- Single premiums	0.2	0.3	0.3
Total	4.3	5.7	5.7

2.6. Benefits Paid

Benefits paid increased over the previous year. Surrenders remained the highest contributor to benefits paid. A well performing market resulting in favourable returns for the customers led to an increase in surrenders. The Company believes that the revised IRDA guidelines effective FY 2013 which have stipulated a higher minimum guaranteed surrender value will contribute to higher surrender claims in future years.

2.7. Indian GAAP Profits

The Company declared a net profit of ₹ 725 Crs for FY 2014. The back book generated sufficient profits to offset new business strain incurred on writing of new policies while some of the newer products such as Online term and health are yet to attain the scale needed to generate profits. Accumulated losses for the Company reduced to ₹ 234 Crs as of March 31, 2014.

In line with its efforts of generating value to shareholders, the Company declared a maiden dividend of ₹ 99.7 Crs (@ 5% of face value) excluding Dividend Distribution Tax during the year under review.

Fund Performance (last 1 year)

FY 2014 was an extremely volatile year for the financial markets. The Company continued to follow its investment philosophy of investing for the long term through this volatile period. The non-ULIP funds continued to be managed as per the approved Asset Liability Management (ALM) policy. In the first half of the fiscal, the markets were led largely by the macro-economic factors with a sharp depreciation in the currency and the tight liquidity conditions maintained by RBI.

For the equity portfolios, the Company's valuation driven long term approach did not meet its expectations. However, as the economy stabilised, the performance of the funds in the second half of the year offset a sizeable part of the under-performance incurred during the first half. The Company believes that its portfolios are currently well positioned to take advantage of the cyclical upturn in the economy and is confident that its valuation-based approach will generate sustainable long term returns in the equity markets.

All investments are based on prudent guidelines, approved internally and as per the investment regulations. The Company has in place an ALM policy. This lays down the asset allocation and risk appetite guidelines for different funds. Some of the funds, having in-built guarantees, are tracked on a regular basis and have suitable assets to back them.

Assets under management for the Company stood at ₹ 50,258 Crs during the year under review, a 25% increase over the previous year.

The debt-equity mix has stabilised over the recent years with the Company selling a balanced product portfolio.

2.10. Claim Repudiation Ratio

The Company witnessed an increase in claim repudiation ratio due to an increase in early claims for risk products. The claim repudiation ratio stood at 4.7% in FY 2014.

* New business profits pertain to overall business

Notes to analysis of change

- Methodology and assumption changes:** The models, assumptions and methodology are continuously refined and improved. Besides, the impact of these refinements is reflected in the opening changes.
- Expected return on inforce policies:** This item reflects expected investment income on shareholder assets during the period. Besides, it reflects that future shareholder profits are now 1 year closer than at the start of the period. This positive item would occur in each MCEV period.
- Operating variances:** The operating variances capture the impact of the deviations of the actual claims, persistency and maintenance expense experienced during the period from that assumed in the opening MCEV calculation.
- Investment variances and economic assumption changes:** This reflects the impact due to the actual investment return being different from the expected returns and the impact from the change in the yield curve at the end of the period, compared to the yield curve at the start of the period.

3. Brand Performance

The Company has been one of the few brands in the life insurance industry, which has successfully increased its brand awareness year on year. Almost eight years ago, the Company embarked on the journey of building an emotional connect with its customers through its philosophy “Sar Utha Ke Jiyo”.

As a result of this sharply defined objective, the brand witnessed positive and encouraging success on multiple fronts. With respect to brand health, spontaneous awareness scores stood at an encouraging 68% while brand consideration increased to 45% for 11M FY 2014. With an aim to be a digital first organisation, the Company built the 3rd largest community on Facebook amongst Indian BFSI organisations and the brand’s Twitter presence was acknowledged as being amongst the top ten globally (in the Insurance Sector) by Visualbanking.com (London). PR-led brand metrics have also registered positive movement with the brand ranking 1st in TV and 3rd in print in FY 2014 as per Eikona’s PR Track, as a part of TAM Research.

These achievements are a result of 360 degree efforts undertaken by the brand throughout the year.

Establishing birthday as the right occasion to plan for the child’s future

With an aim to grow the child insurance segment, the Company revitalised the category with the YoungStar Plan’s “Birthday” campaign that primarily attempted to associate the child’s birthday as the best occasion for the parents to plan for his/her future. In continuation of its efforts to drive financial empowerment amongst women, the campaign encouraged mothers to proactively participate in the child’s financial planning process hence expanding the potential purchase base for the category. As a result of this 360 degree campaign, the brand reached the highest ever consideration score of 48% and crossed the 70% brand awareness mark for the first time in three years.

Delivering the “Sar Utha Ke Jiyo” promise through a host of brand design assets

The brand undertook an extensive exercise to revamp and standardise its visual personality and design during the year under review. It involved defining visual interpretation and tonality for “Sar Utha Ke Jiyo” across all consumer segments and touch points. This innovative and standardised expression is ensuring that the “Sar Utha Ke Jiyo” philosophy is reinforced at all customer communication opportunities. This new expression has been executed at over 1,500 retail locations and pre-sales touch points and is currently being implemented across multiple post purchase consumer interaction touch points. The Company has also defined a new aural/musical expression of its philosophy that resonates with the modern day interpretation of “Sar Utha Ke Jiyo” i.e. triumphing against all odds. The “Sar Utha Ke Jee” thematic song was developed in association with renowned filmmaker Amole Gupte and would be achieving an impactful wider audience reach for the brand’s message through its usage in the film, “Hawa Hawaii”.

Engaging one-on-one with customers

Social media has been one of the key contributors in enabling this goal for the brand. The Company’s Facebook brand page grew to surpass all competing Indian Life Insurance brands and reached a staggering 23 lac fans. @HDFCLife on Twitter achieved the milestone of having more than 1 lac follows. In addition to the above, the Company also launched a branded YouTube channel, with a prime focus on customer education and servicing. The channel received more than 3.5 lac views within three months of its launch in October, 2013 and is growing exponentially. The corporate blog “All About Life” was also launched in January, 2014, gaining quick popularity with an average of 2,000 visits per month.

Building on the one-on-one interactions further, the brand established an engagement marketing programme during the year under review with its existing customers through multiple initiatives across the year. These efforts to strengthen the customer relationship focussed on tools of dialogue like newsletters and communication on special days as well as a unique and first-in-the-industry “Emergency Preparedness” programme which has witnessed high levels of acceptance and deep involvement from customers. The first tool of this programme, “The Little Book of Legacy” has been very well appreciated by customers and has also won the AIMIA 7th Loyalty Award in “Financial - Non Banking” category in January, 2014.

Management Discussion and Analysis

Building a positive and credible perception for the brand and its torchbearers

In the corporate communication space, the brand moved from quantitative news-based approach to theme-based strategy with an attempt to position the Company as a preferred private life insurance player highlighting all the internal departmental initiatives under the key themes of customer centricity, innovation, technology and responsibility.

The Company strived for industry thought leadership positioning with consistent visibility of the brand's spokespersons in the press. As a result, the spokespersons for the Company have been ranked amongst the top five most visible spokespersons in both print media and TV across categories such as Corporate, HR, Markets, Product and Marketing coverage.

4. Customer Management

Customer centricity has assumed a greater significance in recent years within the Company. A conscious effort is being made to let the voice of its customers guide the Company's business and strategies.

In FY 2014, a new dimension was added to the Company's new business on-boarding process. The Company's primary initiative towards "business quality and customer awareness" was taken up through a 'pre-conversion verification' programme, to ensure customer understanding of products and features at point of sale and prior issuance of policy. These are further being monitored for an improvement in customer experience and overall reduction in business leakages. The initiative led to a steady reduction in policy lapsation, cheque bounce issues and customer complaints.

In its continuous effort to provide high quality information to the customer, the Company introduced analytics to identify the customers with a higher likelihood of surrendering or discontinuing their premium payments. The Company initiated customer education mailers on product features and market outlook. This led to a 5% reduction in the number of policies surrendered in Q4 over Q1 of FY 2014.

The Company further strengthened its previous year's initiative of "last mile connectivity" for customers whose policies had lapsed or paid-up by educating them on the importance of revivals and offering easy revivals through its online platform and branches. The Company relaxed the

requirement of a personal health statement for revivals from six months to one year for customers having Sum Assured up to ₹ 1.5 Crs. The annual Spot Revival Scheme received an encouraging response from the customers. The Company's revival collections from the Spot Revival Scheme more than doubled over the previous year. The Company continues to steadily increase its premium payment avenues for customer convenience. The Company's focus on premium collections through online and auto debits continues and stands at 45% of the total collections.

The Company also strengthened its previous year's initiative of "Service to Sales" by achieving a strong year on year growth of 33% in cross-selling opportunities, in line with its strategy of diversifying sales distribution channel mix.

In the Company's bid to drive adoption of self-service modes amongst customers, multiple policy servicing features were added to the customer portal. The portal interface was revamped to make it more user-friendly and secure. The self-service avenues were strengthened through implementation of IVR and Missed Call SMS in order to lay a strong foundation in the near future. This would enable the Company to work towards increased customer adoption of self-service avenues and undertake continuous improvement on the portal platform to ensure seamless adoption and better customer experience.

During the year under review, a range of customer and business focussed transformational steps were undertaken viz.

- Achieved 94% of policyholder requested payouts electronically through NEFT, thus cutting down waiting period, transaction costs and improving customer experience
- Implemented an indigenously developed CSAT framework for measurement of policyholder's experience across touch points
- Completed ownership of "Branch Health" to ensure improved hygiene, ambience and brand visibility to walk-in customers, implementation of quality concepts like 5S, Basics@workplace and Regulatory compliance

The Customer Relations team continued to conduct market research, mystery hindsighting and competition benchmarking to gain customer insights on service delivery, customer retention strategy and stay abreast of consumer trends.

Going beyond business towards customer care led to the launch of several initiatives such as "The Little Book

Management Discussion and Analysis

of Legacy” - an organiser that helps to record essential policy details for the policyholders’ dependants and secure them from life’s eventualities and “Swabhimaan Careers” - an effort to extend employment opportunity to the families of deceased policyholders.

5. Risk Management

Enterprise Risk Management (ERM) forms the core of all operations at the Company. This stems from the Company’s commitment of staying within its defined risk appetite and working towards ensuring that it delivers what is promised to various stakeholders. The practices are thus integrated into the governance and routine operations across all verticals of the organisation.

The ERM governance framework at the Company has been designed to ensure that the organisation’s Vision and Mission are integrated with the ERM practices at the very grassroots levels. The Company adopts both a bottom-up and a top-down approach for risk treatment. Risk thresholds are defined for risks and the actual thresholds are measured against the defined thresholds on a quarterly basis and plotted on the Heat Map. This enables the monitoring activity to act as an Early Warning Indicator wherein any significant movement is identified at the onset and mitigation measures are deployed to bring down the impact of risk to acceptable levels. Further, each of these risks is also measured against the Risk Factor of ‘Velocity’ enabling the Management to devise mitigation strategy as per the ‘Time-to-Impact’ methodology. The ERM framework at the Company encompasses a comprehensive set of practices, which has been integrated at a grassroots level within all functions serving the core business as well as shared services. These practices have been developed with a centralised approach to ensure uniform implementation.

An ALM framework has been deployed in the Company to ensure that the risk of inability of assets to generate sufficient cash flows to meet liability funding obligations is mitigated to acceptable levels. The main objective of the ALM framework is to ensure that interest rate risk, liquidity risk, capital management risk and management of discretionary investment portfolios is monitored efficiently.

The management and mitigation of the ALM risk is achieved in various ways, such as monitoring and rebalancing the mismatch in cash flows of assets and liabilities, tracking fund performance regularly and taking remedial actions if the fund underperforms the benchmark on a consistent basis.

During FY 2014, the main focus was to enhance the Company’s internal processes and practices to ensure that the Company meets its commitment to all stakeholders, especially to policyholders.

6. Human Resource and People Development

The Company constantly endeavours to maintain a healthy and conducive work environment for its employees. The Company continued to develop new initiatives focussed on talent management, talent acquisition, compliance and increasing the level of employee engagement within the organisation.

The Company initiated programmes aimed towards career succession and advancement opportunities at the managerial level. Additionally, the Company also tied up with one of the premier business schools in the world, The Indian School of Business (ISB), Hyderabad to provide management development programmes as well as design customised workshops based on intensive behavioural diagnostics conducted in the organisation.

The Company also redefined its Code of Conduct policy during the year under review and developed an online training module and assessment in line with the revised Code of Conduct for all its employees. The Company amended the Whistleblower Policy and the Anti-Sexual Harassment Policy in line with global best practices and newly introduced regulations.

To control turnover and manage retention, the Company had a focussed approach towards various talent categories. Various initiatives were undertaken for different talent categories to understand reasons for absenteeism, dissatisfaction and highlighting and escalating issues to the management to help improve employee retention. With Front Line Sales (FLS) being the larger part of the employee base and also a major contributor to the overall attrition, specific initiatives were undertaken such as mandatory induction and regional onboarding for all FLS on the date of joining, specific reviews regarding attrition with managers, monitoring FLS success and revised performance targets providing for more settling time to new joiners. There has been a significant reduction in early attrition amongst the FLS population across channels. A high potential identification and development programme was conducted for middle managers to enable them to ring fence and develop talent. While there has been a reduction in the overall attrition, there is still scope to further reduce the attrition levels.

Management Discussion and Analysis

The Company conducted an employee engagement survey during the year in order to assess and improve its human resource policies and maintain a healthy working environment for its employees. The Company also introduced the "National Pension Scheme" for its employees during the year under review.

7. Information Technology

Technology is one of the key levers to create competitive differentiation in the industry and the Company continues to leverage technology in its pursuance of becoming a bigger and a more agile player.

The Company's transformation initiative, "Technology-Enabled Business Transformation" (TEBT) was launched during the previous year and a number of key projects continued to be driven under this initiative during the year under review. Under this programme, Sales Diary was launched, which is a common platform for managing sales leads and providing the required flexibility to onboard new relationships. Data Leakage Prevention (DLP) is a crucial project under TEBT and during the year under review, the Company implemented tools for DLP which restrict and track data movement within the Company. The Company also implemented Information Rights Management (IRM) which ensures that adequate protection is assigned to documents at the time of creation and Oracle Identity Manager (OIM), a user access rights management system which enhances the controls regarding user access rights. The Company also launched an Enterprise Social Network for its employees with an increased focus on adoption driven by the Executive Committee.

The Company's existing e-learning portal was replaced by a new state-of-the-art e-learning platform. A new Group Policy administration system was implemented which brought new capabilities to manage the group business. The Company's corporate website was re-launched during the year under review and now has a responsive web design. The Company was one of the first companies in the BFSI sector in India to implement this design. The Company explored Cloud-based solutions during the year under review and implemented Video as a Service (VaaS) and Disaster Recovery as a Service (DRaaS) in order to shift its video conferencing and Disaster Recovery (DR) site facilities to Cloud.

The Company is pleased to report that fair progress has been made on the transformation agenda for new business. The project is currently under development and is expected to go live in FY 2015.

The Company continues to be certified on ISO 27001 for its data centre and operations. The technology team received ten awards, including two international ones, for effective and innovative use of technology during the year under review.

8. Awards and Accolades

The Company continued to be recognised for superior technology, business processes and customer communication and won several awards and accolades during the year under review in various fields such as:

- Business Quality
- Finance
- Human Resource
- Leadership and Business Excellence
- Marketing
- Products
- Technology
- Training

9. Company Outlook

In FY 2014, the Company continued its focus on growing revenue and creating a profitable book. The year saw the Company expand its distribution partnerships for individual business, grow its group business, improve renewal premiums and reduce expense ratios.

The Company remains committed to long term strategic investments around diversifying distribution, selling longer term and profitable products, need-based analysis, improving customer experience at touch points, investing in technology, skilling of people and maintaining low expense ratios. Collectively, these have improved the organisation health in a difficult operating environment and have positioned it well to take advantage of any improvement in the market scenarios.

In the coming year, the Company has identified the following key areas of focus:

Diversified and Enabled Distribution Network

In FY 2015, the Company would further strengthen its distribution network by increasing the number of agents in the Agency channel and by expanding the DNA platform. The Company would focus on leveraging CSC and rural distribution network, exploring newer channels

Management Discussion and Analysis

for specific customer segments and increasing tie-up with NBFCs, MFIs and banks. The Company is also preparing itself for a scenario where banks would be allowed to operate under an open architecture.

This distribution network would be enabled through the use of digital platforms like tablets and other mobility devices and the adoption of tools like MyMix and lead management systems. The Company would also focus on retaining leadership position in the digital and social media space.

Robust and Efficient Operations

Robust backend processes are a key to seamless service delivery. The Company would focus on managing end-to-end processes across the value chain by driving initiatives on a unified service organisation, efficiency improvement, predictive underwriting, business leakage reduction and improvement in customer connect.

Process assurance and control frameworks would be deployed to make operations processes risk free, predictable and mature.

Unique and Compelling Product Offerings

The Company would continue its efforts of being a life insurer of choice for Young Aspirants, Proud Parents, Urban Women and Wisdom Investors. There would be a greater focus on categories such as Non Participating Saving Plans, Health, Annuity and "Click2" Series (online plans) along with Group Term Insurance in FY 2015. The Company would also launch new products in the children's plan category.

Customer Advocacy

Top of mind customer advocacy through unique customer experience is another key area where the Company would continue to work in FY 2015. Plans on customer-centric marketing, introducing customer "promise" on select

transactions, analytics based cross-selling and up-selling, self service avenues and use of mobility devices and technology would be taken up further to provide a unique customer experience across all customer life cycle stages. Plans are under way to institutionalise service recovery for dissatisfied customers. The Company aims to leverage analytics and CRM for better customer service.

Sustainable Profitability

The Company would continue its focus on improving profitability and new business margins in the coming year. This would be achieved by sharpening the product mix by customer segment and distribution channels, selling the right product mix to consumers and ensuring effective cost control. Selling online and protection plans as well as increasing policy term would also help improve profitability. The Company also aims to take steps to improve persistency levels and improve productivity by leveraging technology.

Skilled and Adaptive Talent

The Company would continue investing in its talent. Suitable development programmes for frontline staff, middle management and senior management would be conducted by partnering with leading business schools. In addition, other interventions like game-based learning, talent management programmes like Zenith, Apex and Stride, cross functional assignments and certifications would further enable learning and growth for the Company's talent.

Trust

The Company revisited its values framework in FY 2014. There would be sustained rigour to instil the value system across the organisation. The extensive focus on business quality, customer centricity and compliance would further help the Company gain trust of customers, distributors and the stakeholders.

Enterprise Risk Management

Objective

Enterprise Risk Management (ERM) forms the core of all operations at HDFC Life. This stems from our commitment to various stakeholders of minimising risk and working towards ensuring that we deliver more than what we have promised. The practices are thus integrated into the governance and routine operations across all verticals of the organisation. All these practices are designed to address one or more of these risk management goals as given below:

1. To protect the interests of our policyholders, shareholders, employees, distributors and other stakeholders
2. Ensure all regulatory mandates as laid down by different regulatory authorities are met, thus ensuring that the Company operates within the required regulatory framework, which enables ethical practices and good corporate governance
3. Proactive identification and management/mitigation of risks with explicit objective of minimising exposure at various levels
4. To provide a clear and strong basis for informed decision making at all levels of the organisation;

develop and inculcate a pan-organisational risk-based decision-making culture

5. Assist the organisation in designing lean yet effective processes, which enables working with optimum efficiency and cost containment

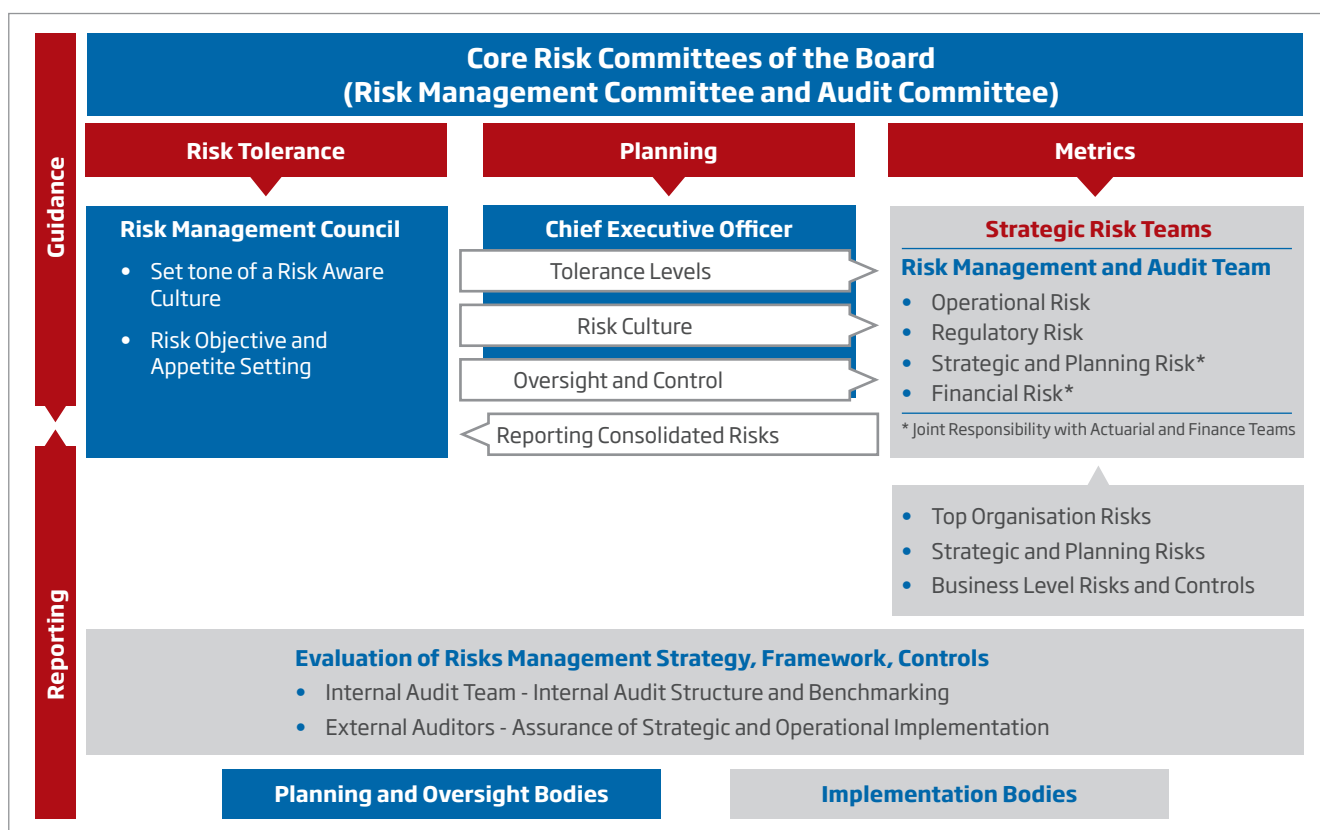

ERM Governance Framework at HDFC Life

The ERM governance framework at HDFC Life has been designed to ensure that the organisation's Vision and Mission are integrated with the ERM practices at the very grass root levels.

Each member of the body has its own distinct role and objective:

- The **Planning and Oversight** bodies advise on HDFC Life's overall risk appetite, tolerance and strategy
- The **Implementation** bodies are responsible for the interpretation and execution of the strategy
- Constant interaction of these two levels ensures a seamless functioning and also that the promises made to our internal and external customers are duly met

This two-way process is implemented through the structure, as given below:

Enterprise Risk Management

Collectively Managing Risks to keep our Promise

HDFC Life has put in place, risk management policies and guidelines to manage different types of risks that it faces on a daily basis. Broadly, stated below are the risk categories that form a part of the HDFC Life Risk Management Framework:

Market Risk: Market Risk is the risk of losses in investment positions arising from market movements in prices.

Credit Risk: Risk of losses if a borrower defaults/ delays on any type of payment which he/ she are obliged to make to HDFC Life.

Strategic Risk: Risk associated with an organisation's mission and future business plans. This risk includes plans for entering new business lines, expanding existing services through mergers and acquisitions, and enhancing infrastructure.

Compliance Risk: Risk arising from non adherence and/ or failure to meet regulatory/ legislative/ judiciary guidelines and procedures.

Liquidity Risk: Risk of loss due to inability to liquidate long investment positions or honour claims.

Operational Risk: Risk of direct/indirect loss due to inadequate or failed internal processes, people, systems or external events.

Insurance Risk: Risk of loss due to adverse movement of mortality, persistency, morbidity and expense rates.

Risk Treatment in HDFC Life

HDFC Life adopts both a bottom-up and top-down approach for risk treatment. Risk Management team perform activities to identify various risks and assess exposure of the risks and report the same on timely basis to the Board and Management as follows:

- **Risk Identification**

The first step is Risk identification, where risks are identified at two levels, namely, corporate and functional through brainstorming internally and analysing external events. The risk management team aids in assessing the risks. These risks are either quantified (where possible) or assigned a qualitative statement which forms the basis of the risk appetite.

- **Risk Analysis and Assessment**

The next step is to conduct an in-depth Risk analysis and assessment. Risk Management team conducts independent risk analysis and assessment exercise as and when required/ requested by the Board and Senior Management. Risk assessment helps in prioritisation of the risks which are ranked as High (Red), Medium (Amber), Low (Green). Multiple strategies can be used per risk event and strategies may change with time. Identified risks are treated depending on risk mitigation and risk acceptance.

- **Control Mechanism**

Risk identification, analysis and assessment must follow up with plan of action to reduce the impact of the risk. Robust control framework is formulated by the business units in co-ordination with the Risk Management team

- **Risk Monitoring and Reporting**

Risk monitoring is a continuous activity at HDFC Life. The risk owners monitor activities and processes to determine the accuracy of the risks and the effectiveness of the measures taken to treat the risk. Risk Management team ensures communication of appropriate information to the Board and respective stakeholders timely and effectively. Business functions ensure that appropriate risk/ incident information is availed to risk management team effectively and timely.

Various risks at HDFC Life are collectively addressed by verticals within the Audit and Risk Management departments. Below are the approaches taken by each to address organisation risks:

A. Risk Management

HDFC Life is exposed to different types of risks emanating from both internal and external sources. The Company has in place a Risk Management team, which helps identify, take measures and mitigate each risk. The team is guided by the Company's Core Risk Management Committee, Risk Management Council and Senior Management to develop and implement Risk Assurance practices on a pan-organisational basis. The Risk Management team at HDFC Life addresses various types of risks, ranging from those pertaining

Enterprise Risk Management

to strategy and operations to those associated with financial processes to regulatory processes. Some of the key activities of the team include:

- Developing and monitoring risk registers
- Finalising risk appetite metrics
- Carrying out risk assessments/ reviews
- Mitigating enterprise level process risks
- Driving risk awareness

B. Business Continuity Management (BCM)

The BCM vertical is responsible for development and implementation of the business continuity and disaster recovery strategy for the organisation. The team ensures that a pre-planned and well thought out process is in place, which enables us to respond to emergencies swiftly and effectively, without losing customer faith or reputation. The key steps in this framework are Business Continuity Plan (for the critical and important business activities of a department), Disaster Recovery Plan (for critical Information Technology (IT) systems and applications of the organisation) and emergency Response Plan (for mitigating risks to lives / injuries to people and damage / loss to physical assets of a premise). As a onetime activity, we have undertaken review of existing BCM practices to ensure BCM plan is in alignment with evolving business environment at HDFC Life.

HDFC Life's business continuity is overseen by a Disaster Management Team and its effectiveness is certified by Chief Financial Officer (CFO). The BCM policy and plan is approved by the Board of Directors and is reviewed by the internal audit team for effectiveness.

C. Internal Audit

The Company has documented a robust and comprehensive internal control system for all the major processes to ensure reliability of financial reporting, timely feedback on achievement of operational and strategic goals, compliance with policies, procedures, laws, and regulations.

The Company's Internal Audit department tests, objectively and independently, the design and operating effectiveness of the internal control systems to provide a credible assurance about their adequacy and

effectiveness to the Board and the Audit Committee. The scope and authority of the Internal Audit activities are well defined in the Internal Audit Charter, approved by the Audit Committee.

Internal Audit plays a key role by providing an assurance to the Board of Directors.

D. Risk Monitoring and Control Unit (RMCU)

The RMCU team is responsible for fraud risk management and control in the organisation. In line with one of our core values of Integrity and as a part of our ethical practices, HDFC Life has zero tolerance for fraud and malpractices. Therefore, the RMCU team plays a key role in implementing fraud control practices, identifying and investigating malpractice cases as well as creating an anti-fraud and anti-malpractice culture.

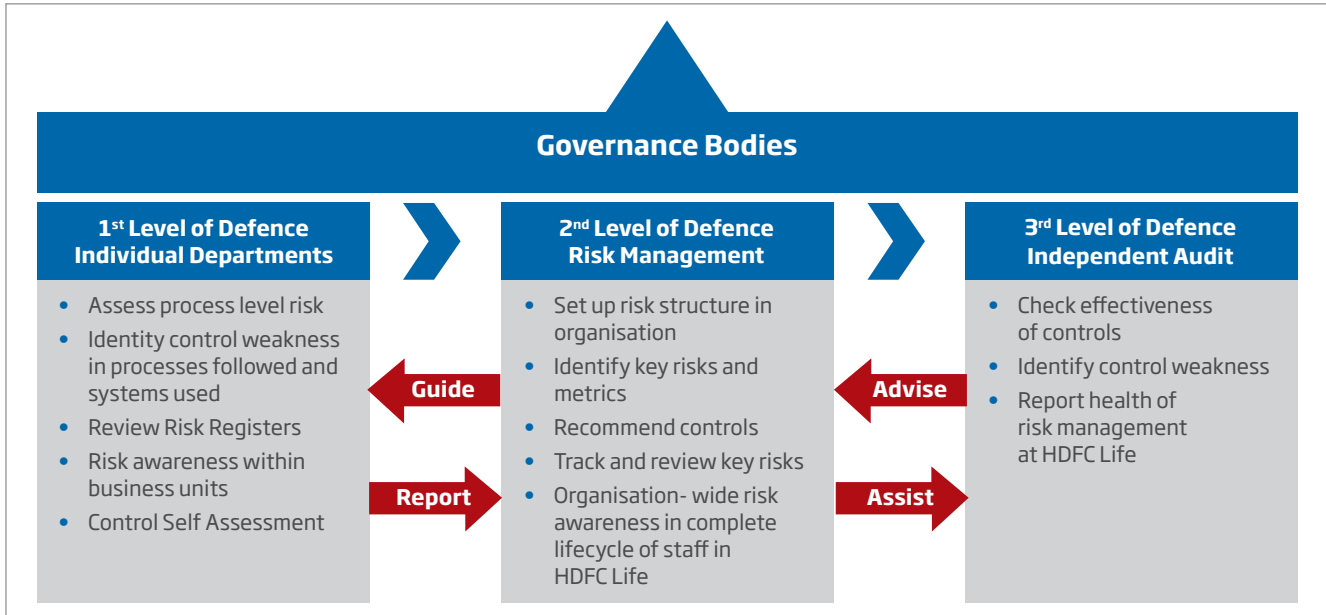

ERM Practices at HDFC Life

The ERM framework at HDFC Life encompasses a comprehensive set of practices, which has been integrated at a grass root level within all functions serving the core business as well as shared services. These practices have been developed with a centralised approach to ensure uniform implementation. The salient practices used have been highlighted in the following section.

A. Enterprise Risk Management

Risk Management at HDFC Life is practiced in three distinct steps. Using best practices from across the industry, we proactively identify and assess risks faced by various departments. The scope of the team ranges from strategic risks, insurance risks, operational risks, compliance risks to financial risks like Market, Credit and Liquidity Risk. The risks identified are recorded and tracked through Risk Registers which are prepared at a Corporate as well as Functional level and risk assessments/ reviews carried out. A further independent assessment is done by the Internal Audit team to ensure that the Risk Control practices have been duly implemented at various levels. This structure has been developed to give the management a complete assurance that no risk is left unidentified and unattended.

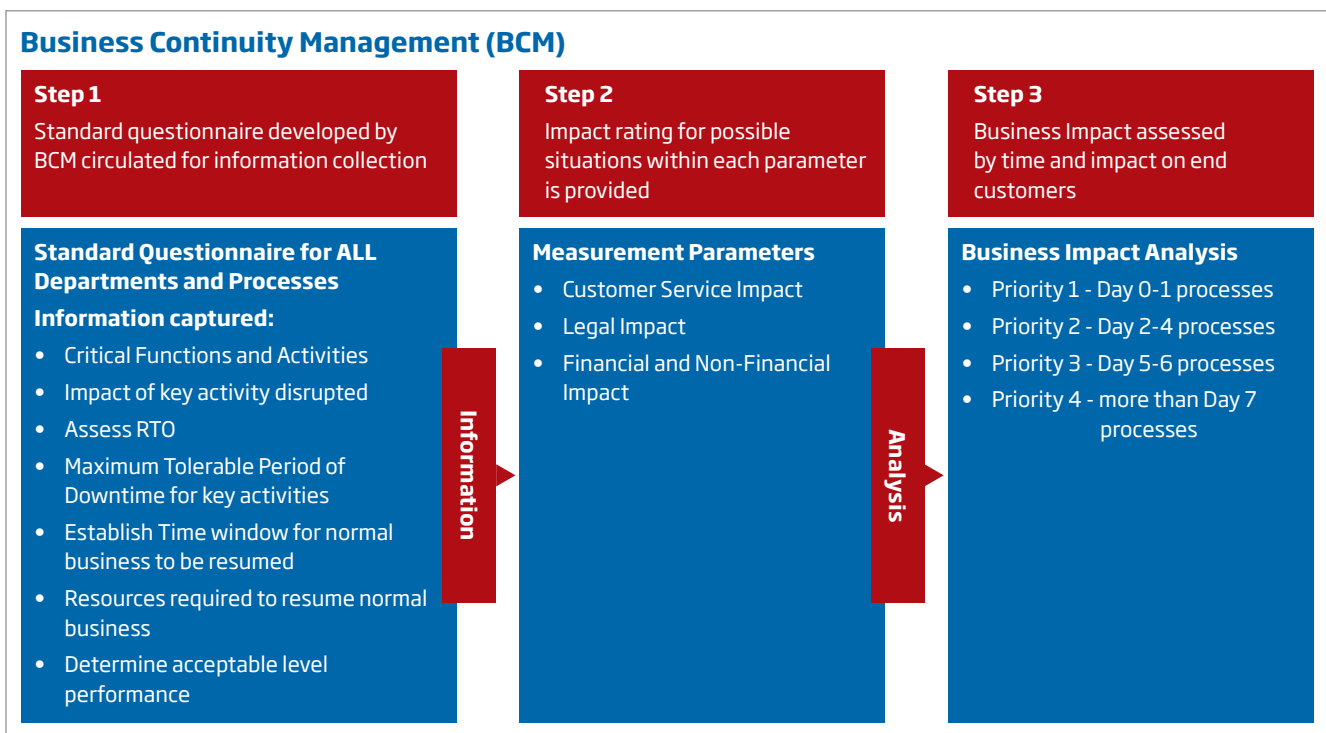

Enterprise Risk Management

B. Business Continuity Management (BCM)

The BCM structure at HDFC Life has a three-level approach. The first step is to create a Business Continuity Plan for the critical and important business activities of a department. This is achieved through a tool called the Business Impact Analysis (BIA). Here, the processes / services are assessed based on impact of disruption of services to customer,

financial loss, non financial impact and regulatory impact. Basis this analysis, recovery time objective (RTO) of critical services is identified which defines time within which services need to be made available. This analysis is important because of the possible recovery strategies that are required to be defined and implemented to minimise potential loss. The methodology is as described below:

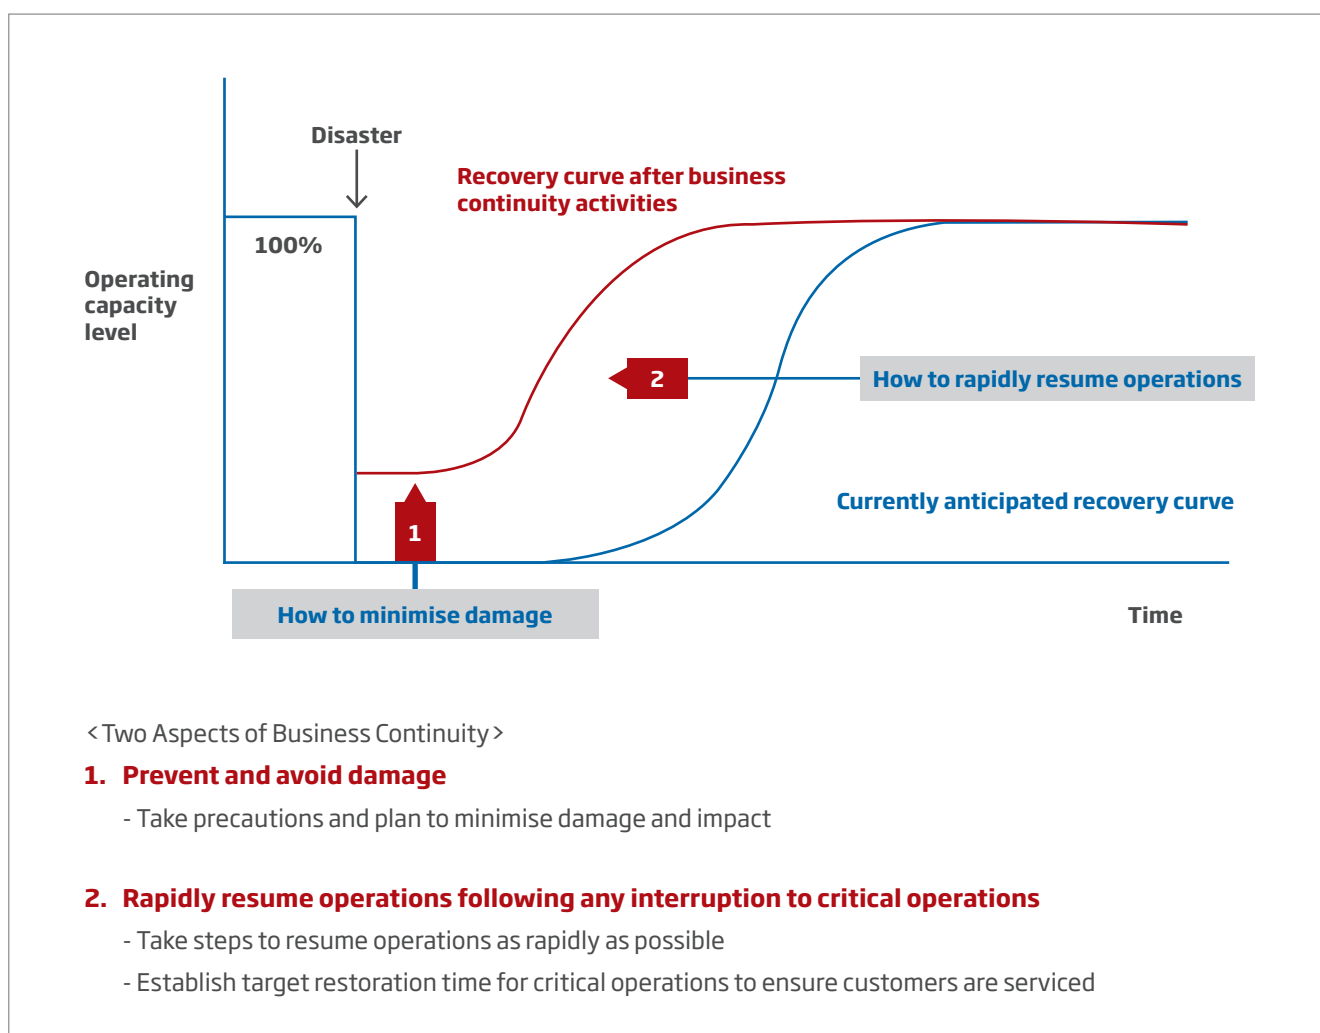

Enterprise Risk Management

Business continuity plan (BCP) addresses the recovery strategy for the disaster scenarios, which is a combination of availability and non-availability of manpower, building, key vendors and IT infrastructure. City-wide disaster is also considered for the preparation of business continuity plan. Our BCP execution plan is in a phased approach and integrated with the branch,

where branches will connect to IT Disaster Recovery Site at Chennai for resumption of services and day to day operations.

We have defined our recovery level, which would ensure the ongoing viability of the organisation, which is represented as below:

C. Internal Audit

Internal audit (IA) is an independent, objective assurance and consulting activity designed to add value and improve an organisation's operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes. The team works closely

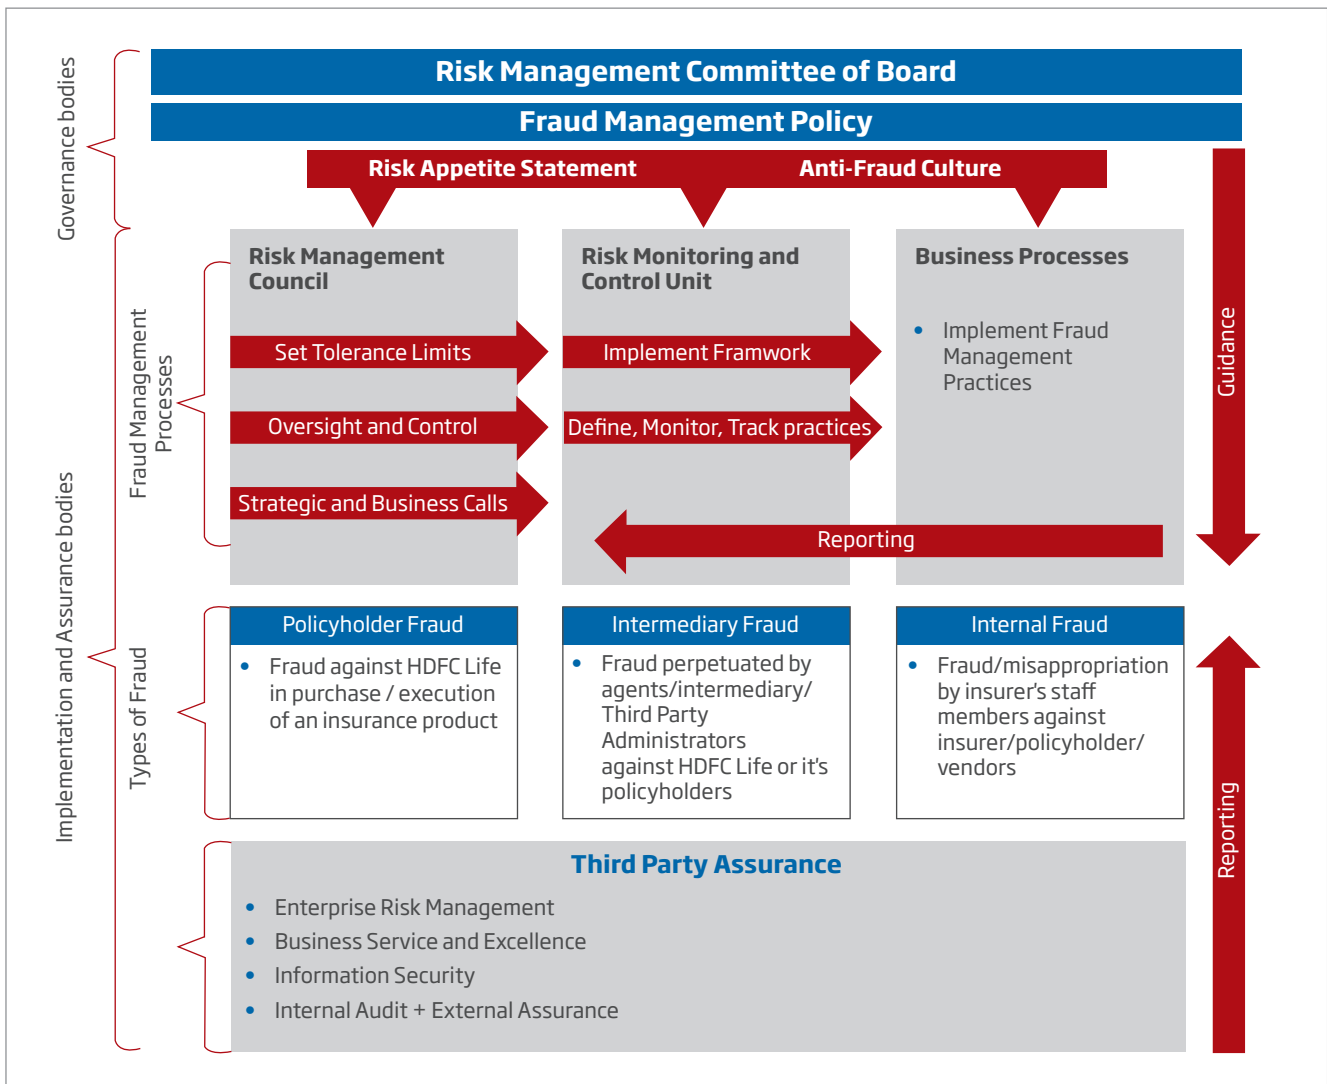

with other verticals in the ARM (Audit & Risk Management) team taking relevant inputs from risk registers, risk assessment documents, and regulatory circulars. Internal audits are conducted by in-house internal audit team and the co-sourced partner. The Governance and Internal Audit Plan is managed by the in-house audit team.

Fraud Management Framework @ HDFC Life

Enterprise Risk Management

The Risk Management Committee of Board and Risk Management Council hold the primary responsibility to set the Anti-Fraud culture within the organisation. The RMCU team along with other verticals within the Audit and Risk Management department is responsible to translate the management's Fraud management vision to set up robust organisation-wide fraud management practices across all levels of HDFC Life.

Malpractice Matrix

The Malpractice Matrix is an integral part of HDFC Life's Code of Conduct. As an ethics-driven organisation, we realise the importance to have a proactive deterrent in place to ensure that any kind of malpractice is dealt with, at the right time and with the right action, to ensure minimum adverse impact. The Matrix includes a comprehensive list of malpractices, which we might come across during the course of the Company's operations. Thus, it has been designed to achieve the following objectives:

- To provide a comprehensive framework for monitoring of operational activities
- To take action against the erring parties
- To ensure transparency in dealing with internal and external risks

Contents of Malpractice Matrix

The matrix covers areas relating to internal frauds, data integrity, assets misuse, misselling and so on. It also specifies the appropriate action to be taken against each malpractice identified in a particular scenario and on a case to case basis. The above Malpractice Matrix is linked to and is a part of the Company's Code of Conduct and will be monitored by respective authorities. The Malpractice Matrix has been classified into following sub-categories:

1. **Fraud and Forgery:** This covers malpractice scenarios pertaining to document tampering, signature forgeries and data misappropriation.
2. **HR-related malpractices:** These malpractices include issues involving behavioural aspects of employees, wherein actions will be initiated if found inappropriate in accordance with acceptable guidelines issued by HR.
3. **Business loss:** These malpractices include bogus business, asset misappropriation or any other scenario, wherein employee action hampers business.

4. **Violation of Information Security/Data Leakage:** These malpractices pertain to violations on confidentiality of data which includes issues like data leakage and misuse of technology.
5. **Anti Money Laundering/ Know Your Customer violations:** These malpractices pertain to non-adherence to guidelines on AML/KYC norms.
6. **Others:** Any other instance / scenario not covered above, but are critical to the Company's functioning.

E. Technology Audit and Risk Management

With the growth of HDFC Life, the complexity of our IT systems and the dependence on these have increased. It is therefore imperative that we have adequate controls in place to ensure smooth operations and protected systems which provides reliable information to users.

Organisation has governance framework to mitigate the technology risks based on COBIT and also internal audit framework to provide independent assurance on effectiveness of IT controls and security. Both combined together helps to reduce risks of data tampering, data loss or leakage, service disruption and poor management of IT systems.

Technology audits are conducted by the in-house internal audit team and the co-sourced partner. The Governance and Internal Audit Plan is managed by the in-house audit team.

Some of the key areas that are covered:

- Network Architecture
- Data Integrity
- Software and Applications
- Efficiency of Operations
- Information Security

FY 2014 - Protecting Interests of the Policyholders

During FY 2014, the main focus of HDFC Life's Audit and Risk Management team was to enhance internal processes and practices to ensure that we meet our commitment to all stakeholders, especially our policyholders. We focused on strengthening our internal practices to ensure that the promises made to our customers are not just duly met,

Enterprise Risk Management

but also exceeded. We achieved this objective through innovative and bold new initiatives, some of which have been discussed below.

Enterprise Risk Management

Risk Prevention Vertical

In FY 2014, the ERM team had an enhanced focus on Risk Prevention projects which resulted in risk-based reviews of potential vulnerable areas. Various such areas were identified with guidance from Senior Management, Business teams and other internal and external assessment reports. Risk reviews were carried out in areas, which were perceived to be with heightened risk exposure, ranging from sourcing business, financial and investment operations to areas with regulatory and reputational risk-related exposures. The activity was mainly project driven and entailed detail process/system analysis. The Risk Management team helped business process owners in identifying gaps in current process and day to day operations and also assisted in designing and testing preventive controls to avert any detrimental incidents from occurring.

Outsourcing Risk Management Framework

Due to the growing size of operations, HDFC Life depends on a number of outsourced partners for carrying out its day-to-day activities.

Key activities carried out in the project included:

- Review of existing framework and policies
- Formulation of a checklist encompassing must-to-do activities prior to a new vendor agreement and renewal agreement
- Implementation of Control Self Assessment (CSA) framework

Fraud Management Practices @ HDFC Life

Fraud Prevention	<p>Designed to help reduce the risk of fraud and misconduct from occurring in the first place. Key activities carried out at various levels are given below:</p> <ol style="list-style-type: none"> 1. Governance and Leadership: The Risk Management Committee of the Board and senior management plays an important role by setting the tone of non tolerance towards fraud 2. Risk based assessments: The implementation bodies within the Fraud Management framework lay down procedures to proactively manage various areas prone to Fraud risk 3. Due Diligence: Customised due diligence procedures developed for different entities of the organisation 4. Training and Awareness: To help all entities understand their obligations, roles and responsibilities concerning fraud and misconduct management practices within the organisation
-------------------------	---

On an ongoing basis, Risk Control Self Assessments are being carried out for identified outsourced partners, mitigation strategy proposed for control gaps identified during the assessment and key outsourced activities monitored on a periodic basis.

Risk Monitoring and Control Unit

Fraud Risk Management Policy

During FY 2014, a separate Fraud Risk Management Policy was formulated (earlier part of Risk Management Policy) to lay down the principles of the Fraud Management at HDFC Life. The salient features of the policy are given below:

1. Lay out tone of Fraud Management Strategy in the Organisation
2. Defines the roles and responsibilities of various entities within HDFC Life towards prevention and management of fraud and misconduct
3. This policy applies to all employees, vendors, distributors, and channel partners of HDFC Life
4. Any irregularity or suspected irregularity, involving, a shareholder, policy holders, contractors, consultants, or any other third party agencies doing business with HDFC Life is also included in the governance authority of this policy
5. This policy is to be implemented without bias and in conjunction with the Code of Conduct and the Malpractice Matrix as per applicability across the organisation

Enterprise Risk Management

Fraud Detection and Monitoring	<p>Designed to identify fraud and misconduct incidents when they occur. The key detection principles as laid down in the Fraud Risk Management Policy are:</p> <ol style="list-style-type: none"> 1. Proactive detection mechanisms to include Whistle Blower, referral approach, analysis based probabilities, system level validations, and process level controls 2. Framework for Information Exchange - Lays down the principles of best practice sharing, exchanging information of emerging fraud and misconduct trends and innovative controls implemented to counter fraud risk at an industry level
Incident Response and Corrective Action	<ol style="list-style-type: none"> 1. Principles of carrying out investigation when an incident of potential misconduct or fraud is uncovered. The core principles to be followed are comprehensiveness, devoid of any bias, and objective in nature 2. Enforcement and Accountability: Malpractice Matrix has been laid down as a defined framework as per which disciplinary corrective action is taken. Further, the internally constituted Disciplinary Panel for Malpractices, comprising of senior management, evaluates and takes decision on select and critical cases.

Data Protection

At HDFC Life, we, as an organisation, have continuously embraced the growing integration of network communication and business operations to communicate, collaborate and access data. While we have encouraged employees to take advantage of technology, such as wireless, smartphone, pen drive, data card and tablet, to increase productivity, network-based collaboration has made data more accessible than ever, thus exposing us to risks of corporate data leakage.

Technology use for competitive advantage and the need to have information available to stakeholders (including outsourced partners), as and when they need it, cutting across functions, businesses and geographies, has resulted in building a data protection strategy.

To manage the data leakage risk arising due to various initiatives, we have put in place data governance framework to define data management and access to data. Further, we have implemented data loss prevention software to curb unauthorised movement of data outside the organisation and Information rights management software to provide access to data to only authorised sources.

For FY 2014, we embarked on data leakage assessment to identify potential sources of data leakage, analyse how data can be leaked and means to plug the gap in processes to ensure the data is available for business purpose while keeping data safe.

Way Forward - FY 2015

Enterprise Risk Management: Risk Control Self-Assessment (RCSA)

Risk and Control Self-Assessment (RCSA) is a framework that is used by organisations to analyse its operational risk profile. RCSA is a natural extension of existing Risk Registers with more detailed risk profiling. Since operational risks are inherently embedded into each function or process, RCSA is critical in providing an enterprise view of the organisation's operational risk profile with complete participation by each business unit throughout. The objective of RCSA is to provide reasonable assurance that all business objectives will be met and determine the ways to deal with various risks arising across organisation. As RCSA requires coordinated efforts of senior management, business and/or support functions, it will further encourage risk reporting and awareness paving way for inculcating Risk culture across organisation.

Internal Audit:

Introduction of Concurrent Audit on Operations

Concept

The concept of concurrent audit has been introduced to reduce the time gap between occurrence of transaction and its overview or checking. Concurrent audit is an examination, which is contemporaneous with the occurrence of transactions or is carried out as near to transaction occurrence as possible. It attempts to shorten the interval between a transaction and its examination by an independent person.

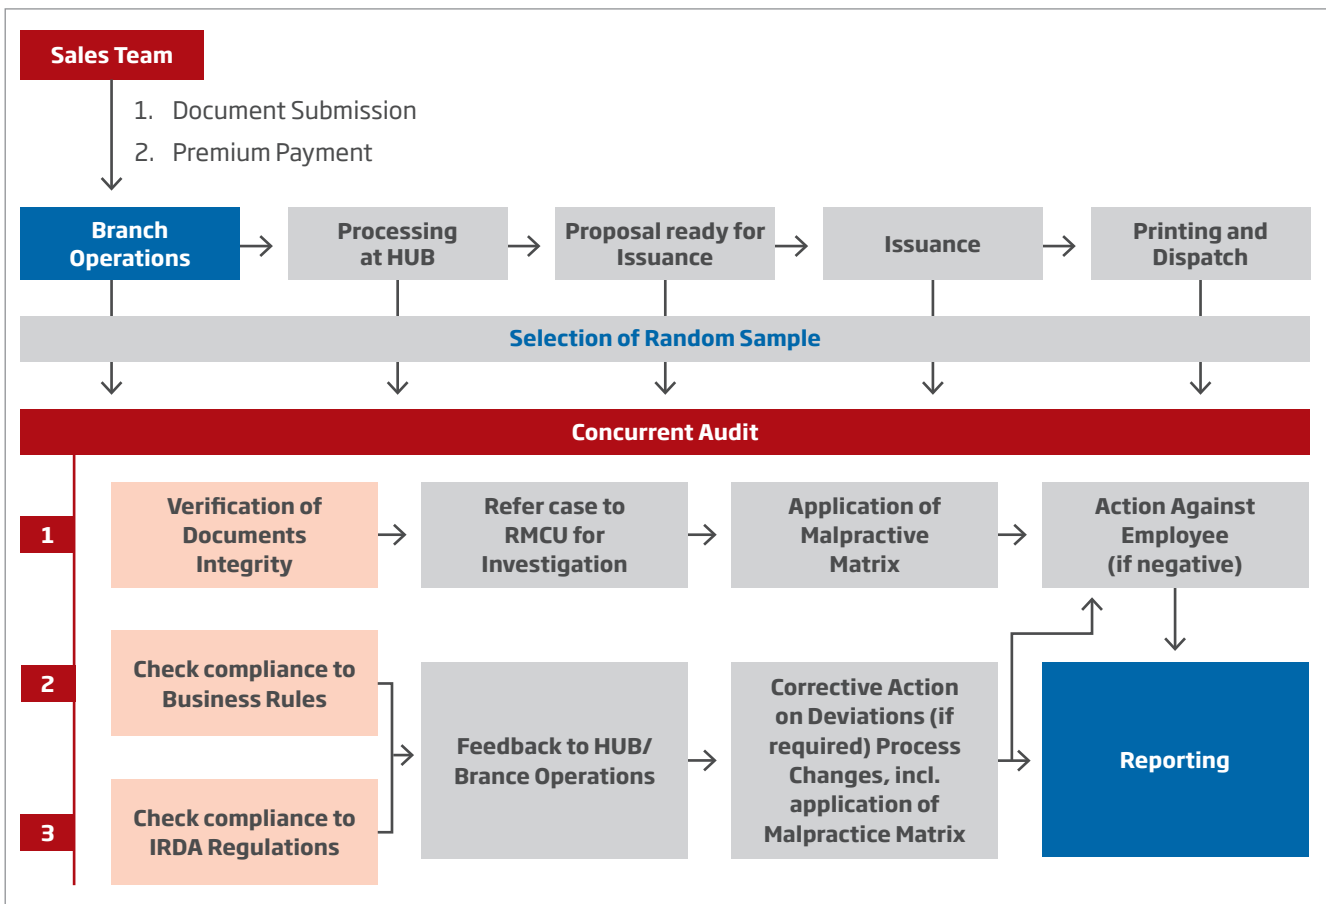

This concurrent audit is essentially a management process integral to the establishment of internal and effective controls and setting the tone for a vigilant audit to identify the incidence of serious errors and fraudulent manipulations.

Enterprise Risk Management

Key Objectives

- To check transactions to ensure that they are in due order and in agreement with laid down procedures. (E.g. AML guidelines, Business rules, F&U Documents)
- Detection and arresting of frauds and forgery, if any
- Scrutinising the integrity and completeness of documents submitted
- Evaluating the quality of customer services provided (E.g. RTO Management)
- Reporting to appropriate levels of management for appropriate actions for remedial measures
- Following up with stakeholders to ensure timely rectification of irregularities reported

Framework of Concurrent Audit

Business Review and Outlook

The overall business environment for the life insurance industry continued to remain challenging in FY 2014. This was primarily on account of sluggish GDP growth, persistent inflation, uncertainty on macro-economic and regulatory parameters and the new product regime impacting distributor and consumer sentiments.

Challenges pertaining to talent acquisition and retention, high operating expenses and customer confidence in insurance products also persisted. In short, the industry continued to operate under difficult market conditions.

The industry witnessed 3.4% decline on individual new business Weighted Received Premium (WRP) during FY 2014. On an overall basis (Individual and Group WRP), the industry grew by 2.8% growth in FY 2014. The Company registered a growth of 6.5 % over FY 2013 in the total written premium segment, which was primarily driven by strong renewal premium and Group business. However, the Company registered a de-growth of 24.3%

in Individual First Year Premium over FY 2013 which was in line with the industry trend.

The Company's market share stood at 13.8% in FY 2014 versus 17.5% in the previous year for individual business. Group business outperformed competition recording a robust growth of 30.0% over FY 2013. The Company continued to perform well on other financial and operational parameters. The Company maintained its Conservation Ratio at 79% in FY 2014. The sum assured in force for the overall business at the end of FY 2014 stood at ₹ 272,697 Crs, which represents a growth of 35.1%. While significant investments in technology, new products and new channels were made during the year, the operating expenses ratio, excluding service tax, decreased by 10 basis points over the previous year through stringent cost control measures. A balanced product mix of linked, participating and non participating products was maintained during the year. As a result, the Company recorded Indian GAAP profits of ₹ 725 Crs in FY 2014. In view of the profitability during the year, the Board declared an interim dividend @ ₹ 0.50 per equity share of the face value of ₹ 10/- each.

The back book is generating sufficient profits to offset the new business strain incurred in writing of new policies. The Company's Assets Under Management (AUM) stood at ₹ 50,258 Crs and registered a growth of 25.3% for FY 2014. The Company expanded its distribution network further by adding key channel partners in FY 2014. The Online Sales channel attained a market leadership position.

The Company continued its focus on the five strategic themes it had identified in FY 2014. A number of strategic and functional initiatives were taken up to improve business quality, sustainability, efficiency and agility. Some of the key initiatives undertaken during the year were pre-conversion verification calling, signature verification at login, concurrent audits, predictive analytics for business quality and a strong focus on further improving Anti Money Laundering (AML) / Know Your Customer (KYC) guidelines compliances. Initiatives on improving New Business Margins (NBM), Technology Enabled Business Transformation (TEBT), and proactive readiness for the new product regime also helped drive the Company's robust performance.

Directors' Report

The Company received several awards and recognitions during the year for its strong people practices, brand promise, organisational excellence, process maturity and enabling technology.

Key Regulatory Changes

FY 2014 saw the Insurance Regulatory and Development Authority (IRDA) issuing certain critical regulations and guidelines with implications in the long term for the industry.

One of the key guidelines issued by the regulator was around the dematerialization of insurance policies through the introduction of 'E-Insurance Account' (EIA). The EIA is a portfolio of insurance policies of a policyholder held in an electronic form with an Insurance Repository (IR). IRDA has granted Certificate of Registration to five entities to act as Insurance Repositories. All existing and new policyholders can open an EIA with any IR free of cost. The Company has already tied up with most IRs and is also encouraging the adoption of Demat across all the Sales channels.

In May 2013, the IRDA issued norms for setting up of foreign subsidiary company / foreign branches.

IRDA also notified new distribution channel called "Common Service Centre" (CSC), with primary focus on reaching out to rural / hinterland areas by utilizing the network of CSC- SPV (Special Purpose Vehicle) to market certain categories of retail insurance policies and services. The Company is evaluating opportunities thereunder.

Other changes included:

- a. Detailed guideline for Health Insurance business governing key aspects of operations, finance, risk, products and actuarial
- b. Additional disclaimer in every product advertisement warning the audience on spurious phone calls and fraudulent offers, with a view to curb fraudulent action by various dubious operators

With reference to the Product Regulations issued in February 2013, there were additional changes inter alia around Product structures, Minimum Death Benefit,

Policy Term, disclosures to policyholder, etc.

The new Companies Act, 2013 has been brought into force with most of its provisions effective from April 1, 2014. The law aims at inter alia further improving governance and disclosures. On the flip side, cost of compliance will also increase.

Guidelines under Telecom Regulatory and Development Authority (TRAI) regulations became tighter, requiring companies to make marketing related calls through designated kind of telecom lines only, or else risk penalties.

Rural and Social Sector Obligations

The Company has focused on rural and social market and has developed products and processes specifically designed to suit the needs of the customers in this segment and this forms an important part of the overall strategy of the Organisation.

The IRDA has prescribed certain percentage/number of rural and social sector business to be mandatorily concluded by Life Insurance Companies as a proportion of their total business. Accordingly, the Company has achieved 24% rural business (as a percentage of total policies written), against the 20% prescribed by the IRDA.

Also, against the regulatory target of 55,000 lives to be insured during the year under the social sector category, the Company covered more than 9 lac lives.

Products

In FY 2014, the IRDA introduced new set of Linked and Non-Linked Product regulations applicable across Individual and Group Products. Complete implementation of these regulations led to reduction in overall cost of product for the customer, capping of maximum commission payable to distributors based on premium paying term and improvement in the surrender value for the customers. Consequently, the Company withdrew 37 products belonging to the previous products regime, and launched 30 new products in the FY 2014.

The Company was the first to be ready with entire new product portfolio within the respective deadlines.

Directors' Report

The Company's product portfolio as of March 31, 2014 comprises 30 products as follows:

Type	Category	Total
Group	Traditional	6
	UL	2
GROUP TOTAL		8
Individual	Annuity	2
	Health	1
	Rural	1
	Traditional	8
	UL	10
INDIVIDUAL TOTAL		22
GRAND TOTAL		30

Policyholder and Customer Service

Customer centricity has assumed a greater significance in recent years within HDFC Life. A conscious effort is being made to let the voice of our customers guide our business and strategies.

In FY 2014, a new dimension was added to our new business on-boarding process. Our primary initiative towards 'business quality and customer awareness' was taken up through a "pre-conversion verification" process, to ensure customer understanding of products and features at point of sale and prior to issuance of policy. These are further being monitored for an improvement in customer experience and overall reduction in business leakages. The initiative has led to a steady reduction in policy lapsation, cheque bounce and customer complaints.

In our continuous effort to provide high quality information and inputs to the customer, the Company introduced analytics to identify the customers more likely to surrender or discontinue their premium payments. We initiated customer education mailers on product features and market outlook. This has led to overall reduction in number of policies surrendered by 5% in Q4 over Q1 of FY 2014.

The Company further strengthened its previous year initiative of last mile connectivity with the lapsed and paid-up customers by educating them on importance of revivals and offering easy revivals through our online platform and branches. We relaxed the requirement of Personal health statement for revivals from six months to one year for customers having Sum Assured up to ₹ 1.50 Crs. The revival collections from the annual 'Spot Revival Scheme' was more than doubled in comparison to the previous year. The Company continues

to steadily increase its premium payment avenues for customer convenience. The focus on premium collections through online and auto debits continue and stands at 45% of the total collections.

The Company also strengthened its "Service to Sales" initiative for branch walk-in customers and achieved a strong year-on-year growth of 33% cross sell, thus contributing to our strategy of diversifying sales distribution channel mix. In our bid to drive adoption of self-service modes, multiple policy servicing features were added to the Customer Portal. The portal interface was revamped to make it more user-friendly and secure. The self-service avenues were strengthened through implementation of IVR and Missed Call SMS. In the next year, all the customer touch points will work towards increased customer adoption of self-service avenues. Continuous improvement on the portal platform will be pursued to ensure seamless adoption and better customer experience.

A range of customer and business focused transformational steps were undertaken viz.:

- achieved 89.1% of "policyholder requested payouts" electronically through NEFT, and thus cut down waiting period, transaction costs and improved customer experience
- implemented an indigenously developed CSAT framework for measurement of policyholders experience across touch points
- completed ownership of "Branch Health" to ensure improved hygiene, ambience and brand visibility to walk-in customers, implementation of quality concepts like 5S, Basics@workplace and Regulatory compliance

The Customer Relations team continued to conduct market research, mystery hind sighting and competition benchmarking to gain customer insights on service delivery, customer retention strategy and to stay abreast of consumer trends.

To ensure compliance with the IRDA guidelines and local laws applicable at branch locations, a multilayered internal audit approach was implemented. This comprised remote monitoring of transactions through revamped MIS control, surprise onsite branch audits at multiple locations and Service Delivery Assessments (SDA) to monitor "Branch Health". This journey will continue further with the recent launch of concurrent audits.

Directors' Report

Going beyond business towards customer care, led to the launch of several non-business initiatives viz: 'The Little Book of Legacy' - an organiser that helps to record essential details for the policyholders' dependants and secure them from life's eventualities, 'Swabhimaan Careers' - an effort to extend employment opportunity to the families of deceased policyholders.

Significant effort and investment was made towards upgrading specific manpower skills and knowledge, through training initiatives that covered: Signature Identification and Forgery Detection, Understanding Financial Markets, Commitment to Service Excellence and Communication.

Investments

The investment funds of the Company are managed as per the stated objectives laid down in the Investment Policy and Asset-Liability Management Policy. These policies lay down the asset allocation and risk appetite guidelines for the different funds, some of which have in-built guarantees. These are tracked on a regular basis and are backed with suitable assets.

In Conventional Life and Conventional Pension and Annuity funds, the key process is the asset-liability cash flow matching, in order to minimise any residual interest rate risks. Furthermore, exposures in equity and equity-related investments are maintained within the limits defined through the asset-liability matching framework.

In Linked funds, each fund has a specified Mandate and a benchmark (except in case of guaranteed funds). The fund management process has undergone minor changes with tighter limits on the level of active risks in each fund. Moreover, over the previous year, we have further strengthened our fund investment processes.

During the year gone by, the linked funds' performances were affected due to the sharp pick-up in volatility during the first half of the year. Our funds' positions saw a higher impact from the currency weakness as well as the sharp hikes in interest rates. However, during the latter half of the year, the funds managed to recover some of the losses of the earlier period. We expect that with the tightened risk limits in the funds, the performance in the coming year should see lower volatility.

The total AUM as on March 31, 2014, was ₹ 50,258 Crs. This

comprised assets of ₹ 33,914 Crs held under the unit-linked funds and ₹ 16,344 Crs held under the conventional funds and shareholders' funds. The corresponding numbers for the previous year were ₹ 27,998 Crs and ₹ 12,110 Crs respectively.

The total equity AUM being managed by the Company, as on March 31, 2014, is ₹ 23,138 Crs. Under the unit-linked funds, the Company offers a series of funds ranging from pure equity to money market funds, thus providing policyholders the flexibility to choose the asset allocation as per their requirements.

Human Resource and People Development

The Company has a strong team of more than 13,900 employees at the end of the year under review. The focus of Human Resource (HR) initiatives during the past financial year was to strengthen the communication framework, continue the Company's efforts towards leadership development, build a strong governance mechanism and institutionalising a Value System that is practiced across the organisation. These have helped the Company build a culture of extraordinary customer care through happy, motivated, and productive people. All the future actions will be reviewed against our Values framework to ensure growth with quality. Newer mechanisms will be created that bring our stated Values to life and translate them into action.

In accordance with the provisions of Section 217(2A) of the erstwhile Companies Act, 1956, and the rules framed thereunder, the names and other particulars of relevant employees are set out in the Annexure to the Directors' Report.

Swabhimaan

The Company has always believed that establishing a strong and ethical foundation is an essential prerequisite for long term sustainable growth. Since inception, we believed that to ensure sustainable growth it is very important to earn the trust not just of our customers but of the society at large.

The Company adopted a structured approach to implement the Corporate Social Responsibility (CSR) initiatives by adopting a CSR Framework and formal Policy in March, 2011. Besides, the Company's employees have also been actively embracing and participating in the Company's community initiatives.

Directors' Report

In the FY 2014, the Company took its commitment for child education one step further by partnering with SOS Children's Villages by supporting education of 300 vulnerable children in 4 locations-Kolkata, Gauhati, Bhubaneshwar and Rourkela. The Company sponsored four employees for the years 2012-14 and 2013-15 under the Teach for India Fellowship, a two-year paid assignment. After completion of the Fellowship, these employees would be re-integrated into the Company. This Fellowship provides the employees with an opportunity to have a secure career, while following their dream of giving back to society. The Company has educated more than 12,500 children through its financial literacy project since the year 2011. The Company has been successfully running a payroll giving programme with an exponential increase in the number of enrolments since the year 2008 with Give India.

Under its environmental initiatives since the year 2010, the Company in all its offices, has been undertaking to save water, power and paper wastages and encouraging employees to organise environment friendly celebrations and festivities. To offset the use of paper for printing the Policy Documents for the FY 2014, HDFC Life partnered with a non-profit organisation - 'Plant a Tree Today Foundation' - to plant 3,000 saplings in Delhi, Chennai and Bangalore.

The Company undertook the project 'Rebuilding Uttarakhand- Flood Response' to provide shelters to families who were rendered homeless by the floods in the year 2013. Under the project, 75 transitional shelters and 50 permanent shelters are being constructed in collaboration with Habitat for Humanity India and FICCI.

The Company initiated the Swabhimaan Careers project which reaches out to the dependants who have lost their family member (policyholder) and extends an opportunity to them to send their applications to the Company. Basis the suitability of the profile, it is assessed and considered for employment in the Company.

In line with the new Companies Act, 2013, the Company has constituted a CSR Committee at the Board Level, and also approved a new CSR Policy in line with the new provisions.

Awards and Accolades

The Company continued its winning streak of getting

awards and recognition in various coveted industry forums across several domains like Business Excellence and Quality, Marketing, IT, Finance, Learning and Development and CSR. Some of the distinguished awards from the total 26 awards that the Company won, include Golden Peacock HR excellence award in BFSI and the most admired Life Insurance Company in Private Sector.

Solvency

The IRDA requires the life insurers to maintain a minimum Solvency Ratio of 150%. The Solvency Ratio is calculated as prescribed under Section 64VA of the Insurance Act, 1938 and the IRDA (Assets, Liabilities, and Solvency Margin of Insurers) Regulations, 2000. As compared to the minimum requirement of 150%, the Company's Solvency Ratio, as on March 31, 2014, was 194%.

Dividend

During the year, a maiden dividend @ ₹ 0.50 per equity share of the face value of ₹ 10/- each, aggregating to ₹ 116.70 Crs (including dividend distribution tax) was approved by the Board of Directors as interim dividend, and paid to shareholders. The Board has recommended the same to be confirmed as the final dividend. Necessary resolution has been proposed for the purpose at the ensuing AGM.

Capital

The Company did not require infusion of fresh capital. Thus, there has been no change in the Company's paid up capital, which stands at ₹ 1,995 Crs.

Housing Development Finance Corporation Limited and the Standard Life Group hold 72.4% and 26.0%, respectively, of the Company's equity capital.

Shifting of Registered Office

For the purpose of administrative convenience, and in order to align the existing registered office with the Corporate headquarters of the Company, the Company shifted its Registered Office to Lodha Excelus, 13th Floor, Apollo Mills Compound, N.M. Joshi Marg, Mahalaxmi, Mumbai 400 011, effective October 23, 2013.

Further, the Members are requested to note that the statutory registers are being kept at the aforesaid address. The Members may note that a resolution

Directors' Report

was passed at the 12th Annual General Meeting of the Company for keeping the statutory registers at the Corporate Office address and accordingly relevant filings were also done with the Registrar of Companies. In view of the above mentioned change in the Registered Office, all statutory registers will now be available at the Registered Office of the Company.

Admission of equity shares with Central Depository Services (India) Limited and Transferability of shares

The Company's equity shares were admitted on the records of the Central Depository Services (India) Limited ("CDSL") in February, 2014, to facilitate transfer of shares, where the transferee is holding shares in demat form with a CDSL registered Depository Participant. As the Members may be aware, the equity shares of the Company are already admitted on records of the National Securities Depository Limited ("NSDL").

Members may note that the Company, being an unlisted Company and considering the Foreign Direct Investment Policy read with the Insurance Act, 1938, has kept its ISIN with CDSL and NSDL under frozen/ suspended status. This is to ensure that the non resident / foreign shareholding does not breach the applicable limits. Thus, the shareholders, who wish to transfer their shares, are advised to approach their Depository Participant or the Company, for completing the said transfer of shares.

Corporate Governance

The IRDA regulations require the Company to provide a report on the Corporate Governance framework, with required certification. Accordingly, the required report is enclosed hereto as Annexure and forms part of this Report.

Internal Audit Framework

The Company has a robust and independent Internal Audit ("IA") function, which carries out risk focused audits across all departments, functions and branches, to identify areas where controls are required to be improved and strengthened. The IA function of the Company is commensurate with the size, scale and complexity of its operations. It is being constantly assessed and strengthened with new / revised standard operating procedures and robust internal and Information Technology ("IT") controls.

The Company's Internal Audit function, objectively and independently, tests the design, adequacy and operating effectiveness of the internal control system to provide an assurance to the Board and the Audit Committee.

The Audit Committee of the Board periodically reviews IA's findings and provides guidance as well. The Management of the Company closely monitors the internal control environment to ensure that IA's recommendations are effectively implemented.

The scope and authority of the Internal Audit function are well defined in the Internal Audit Charter, which is approved by the Audit Committee.

Directors

The Board at its meeting held on April 24, 2014, inducted two new Independent Directors viz. Mr. VK Viswanathan and Mr. Prasad Chandran, effective April 25, 2014, who

Pursuant to the provisions of the new Companies Act, 2013 (New Act), read with the Articles of Association of the Company, Mr. Viswanathan and Mr. Chandran, as Additional Directors, will hold office up to the date of the forthcoming

Directors' Report

Annual General Meeting of the Company, and are eligible for appointment. Resolutions seeking their appointment as Directors, and terms and conditions thereof, are being proposed in the Notice convening the ensuing Annual General Meeting.

Mr. Gautam Divan, Mr. Ranjan Pant and Mr. AKT Chari, Independent Directors, resigned from the Board of the Company effective close of business hours of April 24, 2014. The Board places on record its deep appreciation for the services rendered by the said Independent Directors during their association with the Company.

Thus, the Company's Board post these changes comprises 12 Directors, with one Director also having his Alternate Director on the Board.

It may be noted that pursuant to the provisions of the New Act, the Independent Directors shall hold office for a term of five consecutive years, and shall be eligible for re-appointment for a further period of five years, subject to passing of special resolution by the Shareholders in General Meeting. Further, the Independent Directors shall not be liable to retire by rotation at the ensuing AGM.

Thus in line with the provisions of Sections 149 and 152 of the New Act, the existing Independent Directors, i.e Dr. SA Dave and Mr. Ravi Narain, shall hold office of Independent Director for a period of 5 years with effect from April 24, 2014 and the new Directors with effect from April 25, 2014. The resolutions proposing the same are included in the Notice convening the Annual General Meeting.

Further, under the provisions of the New Act, only the Non-Independent Directors are counted for the purpose of determining directors liable to retirement by rotation. Accordingly, Mr. Keki Mistry, Mr. Norman Keith Skeoch, and Ms. Renu Sud Karnad retire by rotation at the ensuing Annual General Meeting of the Company. The said retiring Directors are eligible for re-appointment, and resolutions for the purpose are being proposed in the Notice convening the ensuing Annual General Meeting.

Mr. Amitabh Chaudhry was appointed as the Managing Director and Chief Executive Officer of the Company with effect from January 18, 2010 for a period of 5 years. The Board, basis recommendation of the Nomination Committee, has approved his re-appointment for a further period of 5 years wef January 18, 2015, subject to IRDA and Shareholders' approval.

Profiles of the Directors seeking appointment / re-appointment at the forthcoming Annual General Meeting are included in the Notice of the 14th Annual General Meeting.

None of the Company's Directors are disqualified from being appointed / re-appointed as Directors in accordance with Section 274(1) (g) of the erstwhile Companies Act, 1956.

Reconstitution of Committees

In view of the provisions of the New Act, as well consequent to the change in the composition of the Board of Directors of the Company, certain committees have been re-constituted/ re-organised.

Further, the Board also constituted a With Profits Committee during the year in line with the IRDA regulations, and a CSR Committee in line with the New Act.

Details of the above are mentioned in the Corporate Governance Report.

Key Managerial Personnel

Pursuant to the provisions of the New Act, the Company has designated and appointed the following personnel as its "Key Managerial Personnel":

1. Mr. Amitabh Chaudhry, Managing Director and Chief Executive Officer;
2. Ms. Vibha Padalkar, Executive Director and Chief Financial Officer; and
3. Mr. Manish Ghiya, Company Secretary and Head - Compliance & Legal.

Secretarial Audit Report

As a part of good governance practice, the Company conducted Secretarial Audit by a Practicing Company Secretary. For the purpose, the Company appointed M/s. N L Bhatia & Associates, Practicing Company Secretary, to conduct the audit for FY 2014. The Auditor has not made any adverse remarks or comments in his Report for FY 2014.

Subsidiary Company

HDFC Pension Management Company Ltd. ("Subsidiary Company"), a wholly owned Subsidiary of the Company, was granted Certificate of Commencement of Business by Pension Fund Regulatory and Development Authority ("PFRDA") on April 23, 2013. An Equity Capital of ₹ 28 Crs was infused in the Subsidiary Company to achieve a minimum networth of ₹ 25 Crs, in line with the PFRDA regulations and for set up and launch expenses. The Subsidiary Company formally commenced its business on August 1, 2013.

Directors' Report

The Management team of the Subsidiary Company was constituted with Mr. Sumit Shukla, being appointed the Chief Executive Officer, effective April 1, 2013.

The Subsidiary Company has made satisfactory progress in business, despite the delay in start of operations. To enable distribution and create awareness in the market, the Subsidiary Company worked with a few select distributors. Towards this, the marketing activities were conducted, and joint collaterals launched. Leveraging this, the Subsidiary Company got significant business from corporates. AUM as on March 31, 2014 was ₹ 5.87 Crs. Various market and regulatory changes made the Management take the decision to cut costs, and the first year operations resulted in the Subsidiary Company declaring a profit of ₹ 3.25 lacs. This resulted in no new capital being required to be infused in the business.

As governance norms, the minutes of the Board, Audit and Risk Management Committee Meetings are placed before the Board, Audit and Risk Management Committee Meetings respectively of HDFC Life.

During the year under review, an onsite inspection was also conducted by the PFRDA in November, 2013 with respect to the Subsidiary Company's operations. There were no material observations.

New Request for Proposal ("RFP") / licensing Process by PFRDA

In the month of January 2014, the PFRDA floated a tender to select pension fund managers afresh for managing the Corporate National Pension System (NPS) funds. The immediate business was impacted due to this sudden development. The Company, as Sponsor of the pension business of the Subsidiary has taken necessary steps under the RFP and made necessary bid application.

Meanwhile, since the Subsidiary Company's licence was expiring on April 22, 2014, the Subsidiary Company has also filed necessary application to renew the licence.

However, the PFRDA intimated the rejection of the bid of the Company for lack of profitability track record. We strongly believe that having been granted a licence just a year back, it is unfair for the licence now to be superseded or not renewed. It will be a huge loss and set back for the significant investments made by the Company, were it not to be licensed. We have approached the

Courts for suitable remedy and are very hopeful that our view will prevail.

Auditors

M/s SB Billimoria & Co., Chartered Accountants, and M/s Haribhakti & Co., Chartered Accountants, Joint Statutory Auditors of the Company, retire at the forthcoming Annual General Meeting.

As per the IRDA Regulations, a Statutory Auditor can conduct the audit of an insurance company for a maximum period of 5 years at a time. M/s SB Billimoria & Co., Chartered Accountants, are completing their 5 continuous years of tenure and hence would not be eligible for re-appointment at the ensuing 14th AGM of the Company. Accordingly, it is proposed to appoint M/s Price Waterhouse, Chartered Accountants, as new Joint Statutory Auditors, along with M/s Haribhakti & Co., Chartered Accountants.

The Joint Statutory Auditors, being M/s Haribhakti & Co., and M/s Price Waterhouse, have confirmed their eligibility for proposed re-appointment/appointment respectively. The Resolution seeking approval to their re-appointment/ appointment is included in the Notice of the ensuing Annual General Meeting. Further, in view of the provisions of the New Act, M/s Price Waterhouse will be appointed for a period of 5 years with annual ratification by the Shareholders of the Company. M/s Haribhakti & Co., having already completed 3 years, will be re-appointed for a period of 2 years. Your Directors recommend their appointment/ re-appointment.

Deposits

The Company has not accepted any fixed deposits during the year under review.

Directors' Responsibility Statement

In accordance with the requirements of Section 217(2AA) of the Companies Act, 1956 ('Act'), the Board of Directors state that:

- (i) In the preparation of the annual accounts, the applicable accounting standards have been followed, along with proper explanation relating to material departures (if any);
- (ii) Such accounting policies have been selected and

Directors' Report

applied consistently, and judgments and estimates made that are reasonable and prudent, so as to give a true and fair view of the Company's state of affairs, as on March 31, 2014, and of the Company's profit for the year ended on that date;

- (iii) Proper and sufficient care has been taken for the maintenance of adequate accounting records, in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities; and
- (iv) The annual accounts have been prepared on a going concern basis.

Appreciation and Acknowledgement

The Directors thank the policyholders, customers, distributors, and business associates for reposing their

trust in the Company. The Directors also thank the Company's employees for their continued hard work, dedication and commitment; and the Management for continuing success of the business.

The Directors further take this opportunity to thank Housing Development Finance Corporation Limited and Standard Life Group for their invaluable and continued support and guidance. The Directors also thank the Insurance Regulatory and Development Authority, Reserve Bank of India, Pension Fund Regulatory and Development Authority, and other governmental and other bodies and authorities for their support, advice and direction provided from time to time.

Independent Auditors' Report

TO THE MEMBERS OF HDFC STANDARD LIFE INSURANCE COMPANY LIMITED

Report on the Financial Statements

1. We have audited the accompanying financial statements of HDFC STANDARD LIFE INSURANCE COMPANY LIMITED (the "Company") which comprises of the Balance Sheet as at March 31, 2014, the Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Receipts and Payments Account for the year then ended and a summary of significant accounting policies and other explanatory information, annexed thereto.

Management's Responsibility for the Financial Statements

2. The Company's Management is responsible for the preparation of these financial statements that give a true and fair view of the Balance Sheet, the Revenue Account, the Profit and Loss Account and the Receipts and Payments Account of the Company in accordance with the accounting principles generally accepted in India, the provisions of Section 11 of the Insurance Act 1938 (the "Insurance Act") read with the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the 'Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), orders/directions issued by the Insurance Regulatory and Development Authority (the "IRDA") in this regard and in accordance with the Accounting Standards notified under the Companies Act, 1956 (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 in terms of the General Circular 15/2013 dated September 13, 2013 of the Ministry of Corporate Affairs), to the extent applicable and in the manner so required. This responsibility includes the design, implementation and maintenance of internal controls relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with the ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider the internal controls relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

4. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements have been prepared in accordance with the requirements of the Insurance Act, the IRDA Act, the IRDA Financial Statements Regulations and the Companies Act 1956, to the extent applicable and in the manner so required, and give a true and fair view in conformity with the accounting principles generally accepted in India, as applicable to insurance companies:
 - i. in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;

- ii. in the case of the Revenue Account, of the net surplus (before contribution from the shareholders' account) for the year ended on that date;
- iii. in the case of the Profit and Loss Account, of the profit for the year ended on that date; and
- iv. in the case of the Receipts and Payments Account, of the Receipts and Payments for the year ended on that date.

Other Matter

- 5. The actuarial valuation of liabilities for life policies in force is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists on financial statements of the Company as at March 31, 2014 has been duly certified by the Appointed Actuary and in his opinion the assumptions for such valuation are in accordance with the guidelines and norms issued by the Insurance Regulatory and Development Authority ("IRDA") and the Institute of Actuaries of India in concurrence with IRDA. We have relied on the Appointed Actuary's certificate in this regard for forming our opinion on the financial statements of the Company.

Report on Other Legal and Regulatory Requirements

- 6. As required under the IRDA Financial Statements Regulations, read with section 227 (3) of the Companies Act 1956, we report that :
 - a. we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and have found them to be satisfactory;

1. We have reviewed the Management Report attached to the financial statements for the year ended

March 31, 2014 and have found no apparent mistake or material inconsistency with the financial statements;

2. Based on management representations and the compliance certificate submitted to the Board of Directors by the officers of the Company charged with compliance and the same being noted by the Board, nothing has come to our attention that causes us to believe that the Company has not complied with the terms and conditions of registration as per sub section 4 of section 3 of the Insurance Act, 1938;
3. We have verified the cash balances, to the extent considered necessary and securities relating to Company's loans and investments as at March 31, 2014, by actual inspection or on the basis of certificates/ confirmations received from the Custodians and/ Depository Participants appointed by the Company, as the case may be. As at March 31, 2014, the Company does not have reversions and life interests;
4. The Company is not a trustee of any trust; and
5. No part of the assets of the Policyholders' Funds has been directly or indirectly applied in contravention of the provisions of the Insurance Act, 1938 relating to the application and investments of the Policyholders' Funds.

Independent Auditors' Certificate

1. At the request of HDFC STANDARD LIFE INSURANCE COMPANY LIMITED (the "Company"), we have performed the procedures stated in paragraph 2 below, for the purpose of issuing a certificate in connection with Regulation 13 (D) (7) of the Insurance Regulatory and Development Authority (Investment) (Fifth Amendment) Regulations, 2013 (the "Regulations"), regarding the declaration and application of Net Asset Value ("NAV") for unit link business application received on the last business day.
 2. In this connection, we have performed the following procedures:
 - a) Obtained representation from the management;
 - b) We made inquiries with the concurrent auditor about the processes followed in relation to the aforesaid regulation and review the report on the same, shared by the management;
 - c) Obtained the list of applications received in respect of Unit Linked Business on March 31, 2014 and April 01, 2014 (together referred to as "application forms"), from the management;
 - d) Selected samples of application forms from listing mentioned in paragraph 2(c) above and verified whether:
 - i) the applications received on Monday, March 31, 2014, upto 3.00 pm have been processed with NAV of March 31, 2014; and
 - ii) the applications received on Monday, March 31, 2014, after 3.00 pm hours have been processed with NAV of appropriate dates in subsequent year.
 3. The compliance with conditions stated in the regulations is the responsibility of the Company's management. Our responsibility is to perform the above-mentioned procedures on the particulars and state our findings. We performed the above-mentioned procedures, in accordance with the Guidance Note on Audit Reports and Certificates for Special Purposes issued by the Institute of Chartered Accountants of India ("ICAI"). The above-mentioned procedures include examining evidence supporting the particulars on a test basis. Further, our scope of work did not involve us performing audit tests for the purposes of expressing an opinion on the fairness or accuracy of any of the financial information or the financial statements of the Company taken as a whole. We have not performed an audit, the objective of which would be the expression of an opinion on the financial statements, specified elements, accounts or items thereof, for the purpose of this certificate. Accordingly, we do not express such opinion.
 4. Based on the procedures performed by us, as mentioned in paragraph 2 above, according to the information and explanations provided to us and representation by the Company's management, we confirm that:
 - (a) The Company has declared NAV for March 31, 2014 as a business day for accepting proposal forms;
 - (b) The applications received on Monday, March 31, 2014 upto 3.00 pm have been processed with the NAV of March 31, 2014; and
 - (c) The applications received on Monday, March 31, 2014 after 3.00 pm hours have been processed with the appropriate NAV of appropriate dates in subsequent year.
 5. This certificate is issued at the request of the Company solely for use of the Company for inclusion in the annual accounts as per requirements as per Regulation 13 (D) (7) of the Regulations and is not intended to be used or distributed for any other purpose. We have no responsibility to update this certificate for events and circumstances occurring after the date of this certificate.

SCHEDULE 16 - SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO THE ACCOUNTS

Corporate Information

HDFC Standard Life Insurance Company Limited ('HDFC Life' or 'The Company'), is a joint venture between Housing Development Finance Corporation Limited ('HDFC Limited'), India's leading housing finance institution and Standard Life plc, the leading provider of financial services in the United Kingdom. HDFC Limited holds 72.37% and Standard Life (Mauritius Holdings), 2006 Limited holds 26.00% of equity in the joint venture, while the rest is held by other domestic investors. The Company obtained a Certificate of Registration from the Insurance Regulatory and Development Authority ('IRDA') for carrying on the business of life insurance on October 23, 2000. HDFC Life offers a range of individual and group insurance solutions. The portfolio comprises of various insurance and investment products such as Protection, Pension, Savings, Investment and Health.

A. SIGNIFICANT ACCOUNTING POLICIES

1. Basis of preparation

The financial statements are prepared under the historical cost convention on accrual basis of accounting in accordance with the accounting principles prescribed by the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, ('the IRDA Financial Statements Regulations'), provisions of the Insurance Regulatory and Development Authority Act, 1999, the Insurance Act, 1938, the Companies Act, 1956 and the accounting standards notified under Companies Act, 1956 (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 in terms of the General Circular 15/2013 dated September 13, 2013 of the Ministry of Corporate Affairs), to the extent applicable and in the manner so required.

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles in India ('Indian GAAP') requires that the Company's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported balances of assets and liabilities and disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts

and circumstances upto and as of the date of the financial statements. Actual results could differ from the estimates. Any revision to the accounting estimates is accounted for prospectively.

2. Revenue recognition

Premium income

Premium income is accounted for when due from the policyholders, if there is no uncertainty of collectability. In case of linked business, premium income is accounted for when the associated units are created. Premium on lapsed policies is accounted for as income when such policies are reinstated. Top up premium is considered as single premium.

Income from linked policies

Income from linked policies, which include fund management charges, policy administration charges, mortality charges and other charges, wherever applicable, is recovered from the linked funds in accordance with the terms and conditions of the insurance contracts and is accounted for as income when due.

Income from investments

Interest income on investments is accounted for on accrual basis. Dividend income is accounted for on "ex-dividend" date in case of listed equity shares and in case of unlisted equity shares, when the right to receive dividend is established.

Amortisation of premium or accretion of discount at the time of purchase of debt securities is amortised over the remaining period of maturity/holding on a straight line basis.

In case of linked business, profit or loss on sale/redemption of equity shares and units of mutual fund is calculated as the difference between net sales proceeds/redemption proceeds and weighted average book cost. In respect of other than linked business, the profit or loss on sale/redemption of equity shares and units of mutual fund includes the accumulated changes in the fair value previously recognised under "Fair Value Change Account" in the Balance Sheet.

Profit or loss on sale/redemption of debt securities in respect of linked business is calculated as the difference between net sales proceeds/redemption proceeds and the weighted average book cost. Profit or loss on sale/redemption of debt securities in respect of other than

Schedules

linked business is calculated as the difference between net sales proceeds/redemption proceeds and the weighted average amortised cost.

Income from loans

Interest income on loans is accounted for on accrual basis.

3. Reinsurance premium ceded

Reinsurance premium ceded is accounted for on due basis, at the time when related premium income is accounted for in accordance with the terms and conditions of the reinsurance treaties.

4. Policy acquisition costs

Policy acquisition costs mainly consist of commission to insurance intermediaries, sales staff costs, office rent, medical examination costs, policy printing expenses, stamp duty and other related expenses incurred to source and issue the policy. These costs are expensed in the period in which they are incurred.

5. Commission on reinsurance ceded

Profit commission on reinsurance, wherever applicable, is accounted for in the year of final determination of profit.

6. Benefits paid

Benefits paid consist of policy benefit amounts and claim settlement costs, where applicable.

Non-linked business

Death and rider claims are accounted for on receipt of intimation. Annuity benefits, money back payment and maturity claims are accounted for when due. Surrenders are accounted for on the receipt of consent from the insured to the quote provided by the Company.

Linked business

Death and rider claims are accounted for on receipt of intimation. Maturity claims are accounted for on due basis when the associated units are de-allocated. Surrenders and withdrawals are accounted for on receipt on intimation when associated units are de-allocated. Amounts payable on lapsed policies are accounted for on expiry of lock in period, which is the period after which policies cannot be revived. Surrenders and lapsation are disclosed at net of charges recoverable.

Reinsurance claims receivable are accounted for in the period in which the concerned claims are intimated. Repudiated claims and other claims disputed before

judicial authorities are provided for on prudent basis as considered appropriate by management.

7. Investments

Investments are made in accordance with the provisions of the Insurance Act, 1938, the Insurance Regulatory and Development Authority (Investment) Regulations, 2000, the Insurance Regulatory and Development Authority (Investment) (Amendment) Regulations, 2001, the Insurance Regulatory and Development Authority (Investment) (Fourth Amendment) Regulations, 2008, the Insurance Regulatory and Development Authority (Investment) (Fifth Amendment) Regulations, 2013, wherever applicable and various other circulars/notifications/clarifications issued by the IRDA in this context from time to time.

Investments are recognised at cost on the date of purchase, which includes brokerage and taxes if any, and excluding accrued interest (i.e. since the previous coupon date) as on the date of purchase.

a) Classification of investments

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose off within twelve months from the Balance Sheet date are classified as "short term" investments. Investments other than short term investments are classified as "long term" investments.

b) Valuation of investments

I. Real estate - investment property

Real estate investment property represents land or building held for investment purposes and is valued at historical cost, subject to revaluation, if any. Revaluation of the real estate investment property is done at least once in three years. Any change in the carrying amount of the investment property is recognised in Revaluation Reserve in the Balance Sheet. Impairment loss, if any, exceeding the amount in Revaluation Reserve is recognised as an expense in the Revenue Account or the Profit and Loss Account.

II. Debt securities

a) Non-linked business, non-unit reserve investments and shareholders' investments

Debt securities, including Government Securities are considered as "held to maturity" and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount, if any, over the period of maturity/holding, on a straight line basis.

Schedules

Investments in Venture Funds, Security Receipts, Fixed Deposits and Reverse Repo are valued at cost.

b) Linked business

Debt securities, including Government Securities are valued at market value, using Credit Rating Information Services of India Limited ('CRISIL') Bond Valuer/CRISIL Gilt Prices, as applicable. Money market instruments like Commercial Papers, Certificate of Deposits, Treasury Bills (T- Bills) and Collateral Borrowing and Lending Obligations (CBLO) are valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.

Investments in Venture Funds, Security Receipts, Fixed Deposits and Reverse Repo are valued at cost. Unrealised gains or losses arising on valuation of debt securities including Government Securities are accounted for in the Revenue Account.

Securities with call options are valued at the lower of the values as obtained by valuing the security to final maturity date or to the call option date. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security to various call dates or to the final maturity date. Securities with put options are valued at the higher of the value as obtained by valuing the security to final maturity date or to the put option date. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security to various put option dates or to the final maturity date.

Securities with both put and call options on the same day are deemed to mature on the put and call option day and would be valued on a yield to maturity basis, by using the benchmark rate based on the matrix released by CRISIL on daily basis.

III. Equity shares

a) Non-linked business, non-unit reserve investments and shareholders' investments

Listed equity shares are valued at fair value for respective equity shares being the last quoted closing prices on the Primary Exchange i.e. National Stock Exchange (NSE) at the Balance Sheet date. In case, the equity shares are not traded on the Primary Exchange on the Balance Sheet date, the closing prices on the Secondary Exchange i.e. Bombay Stock Exchange (BSE) are considered.

If equity shares are not traded on Primary or Secondary Exchange on the Balance Sheet date, then prices at

which the equity shares are traded on the Primary or Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation.

Unrealised gains or losses arising due to change in fair value are recognised as part of equity under the head 'Fair Value Change Account' in the Balance Sheet.

Unlisted equity shares, and listed equity shares that are not regularly traded in active markets and which are classified as "thinly traded" as per Guidelines governing Mutual Funds for valuation of thinly traded equity shares laid down by Securities Exchange Board of India (SEBI) are valued at historical cost, subject to provision for diminution, if any, in the value of such investments determined separately for each individual investment.

Bonus entitlements are recognised as investments on the 'ex-bonus date'. Right entitlements are recognised on the date of the original shares on which the right entitlement accrues are traded on the stock exchange on an ex-rights basis.

b) Linked business

Listed equity shares are valued and stated at fair value, being the last quoted closing prices on the Primary Exchange i.e. the NSE on the Balance Sheet date. In case, the security is not traded on Primary Exchange on the Balance Sheet date, the closing price at Secondary Exchange i.e. the BSE is considered.

If equity shares are not traded on Primary or Secondary Exchange on the Balance Sheet date, then prices at which the respective equity shares are traded on Primary or Secondary Exchange, as the case may be, on the earliest previous day is considered for valuation.

Unrealised gains or losses arising on such valuation are accounted for in the Revenue Account.

Listed equity shares that are not regularly traded in active markets and which are classified as "thinly traded" as per Guidelines governing Mutual Funds for valuation of thinly traded equity shares laid down by SEBI, are valued at historical cost, subject to provision for diminution, if any, in the value of such investment determined separately for each individual investment.

Bonus entitlements are recognised as investment on the 'ex-bonus date'. Right entitlements are recognised on the date of the original shares on which the right entitlement accrues are traded on the stock exchange on an ex-rights basis.

Schedules

IV. Mutual funds

- a) Non-linked business, non-unit reserve investments and shareholders' investments

Mutual fund units held at the Balance Sheet date are valued at previous business day's Net Asset Value (NAV) per unit. Unrealised gains or losses arising due to changes in the fair value of mutual fund units are recognised as part of equity under the head 'Fair Value Change Account' in the Balance Sheet.

- b) Linked business

Mutual fund units held at the Balance Sheet date are valued at previous business day's NAV per unit. Unrealised gains or losses arising due to changes in the fair value of mutual fund units are recognised in the Revenue Account.

c) Impairment of investments

The Company's management periodically assesses, using internal and external sources, whether there is any indication of impairment of investments or reversal of impairment loss. An impairment loss is accounted for as an expense in the Revenue Account or the Profit and Loss Account to the extent of the difference between the remeasured fair value of the investments and its acquisition cost as reduced by any earlier impairment loss accounted for as an expense in the Revenue Account or Profit and Loss Account.

Any reversal of impairment loss, earlier accounted for in Revenue Account or Profit and Loss Account, is accounted for in the Revenue Account or Profit and Loss Account respectively.

d) Provision for Non Performing Assets (NPA)

In accordance with the IRDA regulations on "Prudential norms for income recognition, asset classification, provisioning and other related matters in respect of debt portfolio" vide Circular No 32/2/F&A/Circulars/169/Jan 2006-07 dated January 24, 2007, adequate provisions have been made to cover amounts outstanding in respect of all NPA and standard assets. All assets where the interest and/or instalment of principal repayment remain overdue for more than 90 days (i.e., one quarter) are classified as NPA at the Balance Sheet date.

Transfer from the Shareholders' Profit and Loss Account to the Policyholders' Revenue Account

Transfers of investments other than debt securities, as and

when made in the Policyholders' Account, are recognised at the cost price or market price, whichever is lower.

Transfers of debt securities, as and when made, are recognised at net amortised cost or market value, whichever is lower.

Transfer between policyholders' funds

No transfers of investments are made between different Policyholders' funds.

Purchase or sale transactions between units linked funds

The purchase or sale of investments between unit linked funds is accounted for at the prevailing closing market price on the day of purchase or sale of investments.

In case of corporate bonds and Government Securities, if prevailing market price of any security is not available on the day of purchase or sale of investment, then previous day closing price is considered.

8. Policyholder liabilities

Actuarial liabilities, for all inforce policies and policies where premiums are discontinued, but a liability exists as at the valuation date, are calculated in accordance with the generally accepted actuarial principles and practices, requirements of Insurance Act, 1938, regulations notified by the IRDA and Actuarial Practice Standard (APS) issued by the Institute of Actuaries of India with the concurrence of the IRDA.

The specific principles adopted for the valuation of policy liabilities are set out as per the IRDA (Assets, Liabilities and Solvency Margin) Regulations, 2000 and the APS2 & APS7 issued by the Institute of Actuaries of India.

A brief of the methodology used for various lines of business is as given below:

1. The policy liabilities are valued on policy by policy basis, i.e. each policy is valued separately.
2. The reserves for linked business (individual & group) comprises of unit reserves and non-unit reserves. The unit reserves are determined on the basis of NAV of the units outstanding as at the valuation date and non-unit reserves are calculated using gross premium method.
3. The liabilities for individual non-linked non

Schedules

participating business are calculated using gross premium method.

4. The liabilities for Individual non-linked participating business are calculated at the valuation date using gross premium method and also with reference to asset share of the policies such that the reserves are higher than the surrender values that would be payable if the policy was to be surrendered on the valuation date.
5. The liabilities for the one year renewable group protection business are calculated on the unexpired risk premium basis. For other than one year renewable group protection business, liabilities are calculated using gross premium valuation method.
6. The liabilities for the group non-linked savings products are determined as the higher of policy account balances (including accrued interest/bonuses) and reserves calculated by gross premium valuation method.
7. The liabilities in respect of rider benefits are determined as the higher of unexpired premium reserves and reserves calculated by gross premium valuation method.
8. Additional reserves are determined to:
 - a. allow for the claims that may have occurred already but not yet reported (Incurred But Not Reported).
 - b. allow for the servicing of existing policies if the Company were to close the new business one year from the valuation date (Closure to New Business).
 - c. meet the expected liabilities that would arise on the revival of lapsed policies on the basis of the proportion of the policies expected to be revived based on the revival experience (Revival Reserve).
 - d. allow for the additional amount required if any eligible policy were to be cancelled on account of look in, the proportion expected to exercise this option based on the experience of the Company (Look in Reserve).
 - e. allow for the cost of guarantees, wherever applicable.

9. Fixed assets and Depreciation/Amortisation

The fixed assets are stated at cost less accumulated depreciation and impairment, if any. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use. Fixed assets individually costing less than ₹ 5,000, are

fully depreciated in the month of purchase. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets. Any additions to the original fixed assets are depreciated over the remaining useful life of the original asset. Depreciation/Amortisation is charged on pro-rata basis from the month in which the asset is put to use and in case of assets sold up to the previous month of sale. In respect of expenditure incurred on acquisition of fixed assets in foreign exchange, the net gain or loss arising on conversion/settlement is charged to Revenue Account.

Advances paid towards the acquisition of fixed assets as at the Balance Sheet date and cost of fixed assets not ready for its intended use as at such date are disclosed as capital work in progress.

Tangible fixed assets

The Company has adopted the straight line method of depreciation so as to depreciate 100% of the cost of the following type of assets over the useful life of the assets at rates equal to or higher than those prescribed under Schedule XIV of the Companies Act, 1956, based on the management's estimate of useful life of such assets:

Assets	Depreciation rates
Building	1.63%
Information Technology Equipment	25%
Furniture and Fixtures	20%
Motor Vehicles	31%
Office Equipment	20%

Leasehold improvements are amortised over the lock in period of the leased premises subject to a maximum of five years.

Intangible assets

Intangible assets comprising of computer software are stated at cost of acquisition, including any cost attributable for bringing the same to its working condition, less accumulated amortisation and impairment. These are amortised over the useful life of the software subject to maximum of four years. Any expenditure for support and maintenance of the computer software is charged to Revenue Account.

10. Loans

Loans are valued at historical cost (less repayments), subject to adjustment for impairment and provision for NPA, if any.

Schedules

11. Foreign currency transactions

Transactions in foreign currency are recorded in Indian Rupees at the rate of exchange prevailing on the date of the transaction at the time of initial recognition. Monetary items denominated in foreign currency are converted in Indian Rupees at the closing rate of exchange prevailing on the Balance Sheet date. Non-monetary items like fixed assets, which are recorded at historical cost, denominated in foreign currency, are reported using the closing exchange rate at the date of transaction. Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation, are reported using exchange rates that existed when the values were determined.

Exchange gains or losses arising on such conversions are recognised either in the Revenue Account or Profit and Loss Account, as the case may be.

12. Segmental reporting

Identification of segments

As per Accounting Standard (AS) 17 on "Segment Reporting", notified under the Companies Act, 1956, read with the IRDA Financial Statements Regulations the Company has prepared the Revenue Account and the Balance Sheet for the thirteen primary business segments namely Participating Life (Individual & Group), Participating Pension (Individual & Group), Participating Pension Group Variable, Non Participating Life (Individual & Group), Non Participating Pension (Individual & Group), Non Participating Life Group Variable, Non Participating Pension Group Variable, Non Participating - Annuity, Non Participating - Health, Unit Linked - Individual Life, Unit Linked - Individual Pension, Unit Linked - Group Life, Unit Linked - Group Pension. Since the business operations of the Company are given effect to in India and all the policies are written in India only, this is considered as one geographical segment.

Allocation methodology

The allocation of revenue, expenses, assets and liabilities to the business segments is done on the following basis:

a) Revenues and expenses, assets and liabilities, which are directly attributable and identifiable to the respective business segments, are directly allocated for in that respective segment; and

b) Revenue, expenses, assets and liabilities which are not directly identifiable to a business segment though

attributable and other indirect expenses which are not attributable to a business segment are allocated based on one of or combination of some of the following parameters, as considered appropriate by the management:

- i) effective premium income
- ii) number of policies
- iii) number of employees
- iv) man hours utilised
- v) premium income
- vi) sum assured
- vii) mean fund size

The accounting policies used in segmental reporting are the same as those used in the preparation of the financial statements.

13. Employee benefits

a) Short term employee benefits

All employee benefits payable within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries and bonuses, short term compensated absences, premium for staff medical insurance (hospitalisation), premium for Employee Group Term Insurance scheme, Employee State Insurance Corporation Scheme, Employee Deposit Linked Insurance Scheme and Employee Labour Welfare Fund Scheme etc. are accounted for in the period in which the employee renders the related service.

b) Post-employment benefits

The Company has both defined contribution and defined benefit plans. These plans are financed by the Company.

i) Defined contribution plans:

The Company's Employee Superannuation Scheme and Employee Provident Fund Scheme (Company contribution), are the defined contribution plans. The contribution paid/payable under the plan is charged to the Revenue Account during the period in which the employee renders the related service.

ii) Defined benefit plans:

The Employees' Gratuity plan is the defined benefit plan, which is a funded plan. The present value of the obligations under such defined benefit plan is determined based on the actuarial valuation. Provision for Gratuity is accounted for taking into consideration actuarial valuation of plan obligations and fair value of plan assets as at the Balance Sheet date.

Schedules

c) Other Long term employee benefits

Other Long term employee benefits include Long term compensated absences and Long term incentive plans that are entitled to be carried forward for future encashment or availment and are accounted for based on actuarial valuation determined using the projected unit credit method and/or accrual basis over the expected period of employment.

Actuarial gains or losses, if any, due to change in actuarial valuation of all such employee benefit plans are accounted for in the year of occurrence in respect of all employee benefits.

14. Provisions, contingent liabilities and contingent assets

Provisions are accounted for in respect of present legal obligations arising out of past event and it is probable that an outflow of resources will be required to settle the obligation, and the amount of which can be reliably estimated.

Contingent liabilities are disclosed in respect of;

- a) possible obligations arising out of past events, but their existence or otherwise would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or
- b) present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither accounted for nor disclosed.

15. Impairment of assets

The Company's management periodically assesses, using internal and external sources, whether there is any indication of impairment of investment or reversal of impairment loss. If any such indication of impairment exists, the recoverable amount of such assets is estimated. An impairment loss is recognised where the carrying value of these assets exceeds its recoverable amount. The recoverable amount is the higher of the assets net selling price and their value in use, which is the present value of the future cash flows expected to arise from the continuing use of asset and its ultimate disposal. When there is an indication that an impairment loss recognised for an asset in earlier

accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised, except in case of revalued assets.

16. Employee Stock Option Scheme (ESOS)

The Company has formulated Employee Stock Option Scheme - 2005 (ESOS 2005), Employee Stock Option Scheme - 2010 (ESOS 2010), Employee Stock Option Scheme - 2011 (ESOS 2011) and Employee Stock Option Scheme - 2012 (ESOS 2012), which are administered through the HDFC Standard Life Employees Stock Option Trust ("the Trust"). The schemes provide that eligible employees are granted options that vest in a graded manner, to acquire equity shares of the Company. The options are accounted for on an intrinsic value basis and accordingly the intrinsic value of options (if any) at the grant date is amortised over the vesting period.

17. Leases

a) Finance leases

Leases under which the Company assumes substantially all the risk and rewards of ownership are classified as finance leases. Such leased asset acquired are capitalised at fair value of the asset or present value of the minimum lease rental payments at the inception of the lease, whichever is lower.

b) Operating leases

Leases where the lessor effectively retains substantially all the risk and the benefits of ownership over the leased term are classified as operating leases. Leased rental payments under operating leases including committed increase in rentals are accounted for as an expense, on a straight line basis, over the non-cancellable lease period.

18. Taxation

a) Direct tax

i) Provision for current tax

Provision for income tax is made in accordance with the provisions of Section 44 of the Income Tax Act, 1961 read with Rules contained in the First Schedule and other relevant provisions of the Income Tax Act, 1961 as applicable to a company carrying on life insurance business.

ii) Deferred tax

In accordance with the provisions of the Accounting Standard (AS) 22, "Accounting for Taxes on Income", notified under the Companies Act, 1956, with respect to the carry forward of losses under the Income Tax regulations,

Schedules

the deferred tax asset is recognised only to the extent that there is a virtual certainty supported by convincing evidence that future taxable income will be available against which the deferred tax asset can be realised.

iii) Wealth tax

Provision for wealth tax is made at the appropriate rates, as per the applicable provisions of the Wealth Tax Act, 1957.

b) Indirect tax

The Company claims credit of service tax on input services, which is set off against service tax on output services. As a matter of prudence, unutilised credits towards service tax on input services are carried forward under 'Advances and Other Assets' in the Balance Sheet, wherever there is reasonable certainty of utilisation.

19. Funds for Future Appropriations

The Funds for Future Appropriations (FFA), in the participating segment, represents the surplus, which is not allocated to policyholders or shareholders as at the Balance Sheet date. Transfers to and from the fund reflect the excess/deficit of income over expenses/ expenses over income respectively and appropriations in each accounting period arising in the Company's policyholders' fund. Any allocation to the par policyholders would also give rise to a transfer to Shareholders' Profit and Loss Account in the required proportion.

The FFA in the linked segment represents surplus on the lapsed policies unlikely to be revived. This surplus is required to be held within the policyholders' fund till the time policyholders are eligible for revival of their policies.

20. Earnings per share

In accordance with the requirement of Accounting Standard (AS) 20, "Earnings Per Share", notified under the Companies Act, 1956, with respect to basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

3. Actuarial assumptions

The Policyholders' liabilities are determined based on assumptions as to the future experience of the policies. The principal assumptions are related to interest, expenses, mortality, persistency, and additionally in the case of participating policies, bonuses and tax. The assumptions are based on prudent estimates of the future experience, and hence include margins for adverse deviations over and above the best estimate assumptions. A brief of the assumptions used in actuarial valuation is as below:

a) Interest rate assumptions:

The valuation rate of interest is determined based on the expected return on existing assets, current asset mix, expected investment return on the future investment taking into consideration the asset classes mix and expected future asset mix. The interest rates used for the valuation vary according to the type and term of the product and are in the range of 5.20 % to 7.00% (Previous year: 5.20% to 7.00%).

5. Employee Stock Option Scheme

HDFC Standard Life Employees Stock Option Trust administers the ESOS declared by the Company. During the year ended March 31, 2014, the Company has announced the stock options under the Employee Stock Option Scheme 2012. All grants of Employee Stock Option Plan ("ESOP") are made under the ESOS 2005, ESOS 2010, ESOS 2011 and ESOS 2012 schemes. The Trust had subscribed to the capital of the Company and the options are granted to the employees from these shares. The exercise price of ESOS 2005 is based on the holding cost of the shares in the books of the Trust and that of ESOS 2010, ESOS 2011 and ESOS 2012 is based on the fair value which is the market value as determined by a Category I Merchant Banker registered with SEBI.

Had the Company followed the fair value method for valuing its options, the charge to the Revenue Account and Profit and Loss Account would have been higher by ₹ 99,724 thousands (Previous year ₹ 80,789 thousands) and profit after tax would have been ₹ 7,153,095 thousands (Previous year ₹ 4,434,002 thousands). Consequently Company's basic earnings per share would have been ₹ 3.59 (Previous year ₹ 2.22) and diluted earnings per share would have been ₹ 3.59 (Previous year ₹ 2.22).

Salient features of all the existing grants under the four schemes are as stated below:

a) ESOS 2005

There are seven grants upto March 31, 2014 which

are those issued on September 1, 2005 (two grants), November 8, 2006, August 3, 2007, July 15, 2008, August 16, 2009 and December 3, 2009. For all the grants the mode of settlement is through equity shares. The vested options are required to be exercised by the employees within three years from the date of vesting subject to the norms prescribed by the Compensation Committee. Total number of options granted upto March 31, 2014 are 9,964,650 (Previous year 9,964,650).

The exercise price of ESOS 2005 is determined based on the holding cost of the shares in the books of the Trust. This exercise price is then applicable to all options vested and available for exercise by employees for a particular quarter. Since the exercise price is not a static number, it is not possible to provide weighted average exercise price of stock options for options that might be exercised in the future. Weighted average exercise price is available only for options already exercised and this price for the current year for all grants combined is ₹ 27.47 per share (Previous year ₹ 28.06 per share).

The exercise price of stock options outstanding at the end of the year depends upon the quarterly exercise price. The exercise price as at March 31, 2014 was ₹ 27.37 per share (Previous year ₹ 27.93 per share). The weighted average remaining contractual life of options outstanding as at March 31, 2014 is 1.1 years (Previous year 1.5 years).

A summary of status of ESOS 2005 in terms of options granted, forfeited and exercised is as given below:

Particulars	For the year ended March 31, 2014	For the year ended March 31, 2013
Outstanding at the beginning of the year	426,130	558,950
Granted during the year	-	-

32. Change in accounting policies during the year

a) Investment valuation of listed equity shares

Non-Linked business, non-unit reserve investments and shareholders' investment

Listed equity shares from non-linked business, non-unit reserve investments and shareholders' investments were earlier valued at lower of last quoted closing prices on the NSE or BSE. To comply with the clarifications received from IRDA on IRDA (Investment Regulations 2000, Circulars & Guidelines) vide Circular IRDA/F&I/INV/CIR/213/10/2013 dated October 30, 2013, listed equity shares are now valued at last quoted closing prices on the NSE (primary exchange). In case equity shares are not listed/traded on NSE, then last quoted closing price on the BSE (secondary exchange) is considered for valuation at the Balance Sheet date.

Consequent to the change, valuation of investments under Schedule 8 (Investments-Shareholders) and under Schedule 8A (Investments-Policyholders) as at March 31, 2014 has increased by ₹ 1,912 thousands and ₹ 16,049 thousands respectively. Correspondingly, the

balance in the Fair Value Change Account under Shareholders' Funds and under Policyholders' Funds in the Balance Sheet as at March 31, 2014 has increased by ₹ 1,912 thousands and ₹ 16,049 thousands respectively.

This change has no impact on the net surplus in Revenue Account and net profit after tax for the year ended March 31, 2014.

b) Investment valuation of money market instruments

Money market instruments such as Commercial Papers, Certificate of Deposits, Treasury Bills ("T- Bills") and Collateral Borrowing and Lending Obligations ("CBLO") were earlier valued at cost. To comply with IRDA Investment (5th Amendment) Regulations, 2013 and the Guidance Note for the Preparation of IRDA Investment Returns, money market instruments are now valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.

Consequent to the change, income accrued on investment in Schedule 12 (Advances and Other Assets) as at March

Schedules

31, 2014 has decreased by ₹ 90,863 thousands (Previous year ₹ 106,084 thousands) and correspondingly Schedule 8 (Investments-Shareholders') and 8A (Investment-Policyholders') as at March 31, 2014 has increased by ₹ 43,600 thousands (Previous year ₹ 23,941 thousands) and ₹ 47,263 thousands (Previous year ₹ 82,143 thousands) respectively. This change has no impact on net surplus in Revenue Account and net profit after tax for the year ended March 31, 2014.

c) Treatment of amount payable to policyholders on lapse/discontinuance of policies

i. Lapsed policies

Amount payable in respect of lapsed policies, sold prior to issuance of unit linked guidelines in September, 2010, was earlier accounted for as "Benefits paid" at the time of lapsation of policy in the Policyholders' Revenue Account and corresponding liability disclosed under "Current Liabilities" in the Balance Sheet. Consequent to the directions issued by IRDA during the year to the Company, this amount is now accounted for as "Change in valuation of liabilities" in the Policyholders' Revenue Account and corresponding liability disclosed under "Policy Liabilities" in the Balance Sheet till the expiry of lock in period. Amount payable on completion of lock in period is accounted for as "Benefits paid" and corresponding liability is accounted for in "Current Liabilities" (released from Actuarial reserves) in the Balance Sheet.

Accordingly, benefits paid are higher by ₹ 1,202,826 thousands (Previous year ₹ 787,698 thousands) and "Change in valuation of liabilities" is lower by the same amount for year ended March 31, 2014. Further, "Policy

Liabilities" have increased by ₹ 579,367 thousands (Previous year ₹ 1,782,194 thousands) and "Current Liabilities" have decreased by the same amount as at March 31, 2014.

ii. Discontinued policies

Amount payable in respect of discontinued policies, post issuance of unit linked guidelines in September, 2010, was earlier accounted for under "Benefits paid" at the time of discontinuance of the policy in the Policyholders' Revenue Account and corresponding liability disclosed under "Funds for discontinued policies" in the Balance Sheet. Consequent to the directions issued by IRDA during the year to the Company, this amount is now recognised under "Change in valuation of liabilities" in the Policyholders' Revenue Account and corresponding liability continues to be disclosed under "Funds for Discontinued Policies" in the Balance Sheet till the expiry of lock in period.

Accordingly, benefits paid are lower by ₹ 9,332,197 thousands (Previous year ₹ 4,331,169 thousands) and "Change in valuation of liabilities" is higher by the same amount for the year ended March 31, 2014. Funds for discontinued policies in the Balance Sheet continue to be disclosed at ₹ 14,716,615 thousands as at March 31, 2014 (Previous year ₹ 5,384,417 thousands).

33. Disclosure on other work given to auditors

Management Report

for the year ended March 31, 2014

In accordance with the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002, the following report is submitted by the Management for and on behalf of the Board of Directors (BOD) of the Company:

1. Certificate of Registration

The certificate of registration, number 101, granted by the Insurance Regulatory and Development Authority (IRDA) to enable the Company to transact life insurance business, under section 3 of the Insurance Act, 1938, remains valid. The Company has obtained renewal of registration certificate from IRDA for the financial year ending March 31, 2015 as required under Section 3A of the Insurance Act, 1938.

2. Statutory Dues

We hereby certify that all the dues payable, to the statutory authorities have been duly paid, except those which are being contested or disclosed under contingent liabilities in the notes to accounts forming part of the financial statements.

3. Shareholding Pattern

The Company confirms that the shareholding pattern and any transfer of shares during the year are in accordance with the statutory and regulatory requirements. There was no capital infusion during the year under review. The detail breakup is available in Schedule 5A forming part of financial statements.

4. Investments Outside India

The management has not, directly or indirectly, invested outside India, the funds of the holders of policies issued in India.

5. Solvency Margin

The solvency margins as required by the Insurance Act, 1938 have been maintained throughout the period as stipulated under Section 64VA of the Insurance Act, 1938.

6. Valuation of Assets

We certify that all assets of the Company have been reviewed on the date of the Balance Sheet and to the best of our knowledge and belief the assets set forth in the

Balance Sheet are shown in the aggregate at amounts not exceeding their realisable or market value under the several headings - "Loans", "Investments", "Agents balances", "Outstanding premiums", "Interest, Dividend and rents outstanding", "Interest, Dividends and rents accruing but not due", "Amounts due from other persons or bodies carrying on insurance business", "Sundry debtors", "Cash" and items specified under "Other accounts" except debt securities which are valued at amortised cost as per IRDA regulations in case of non linked policyholders' funds and shareholders' investments.

7. Application and Investments of Life Insurance Funds

We hereby certify that no part of the life insurance fund have been directly or indirectly applied in contravention of the provisions of the Insurance Act, 1938 (4 of 1938), relating to the application and investment of the life insurance funds without seeking the approval of the Authority.

8. Risk Exposure and Mitigation Strategies

Enterprise Risk Management framework enables risks to be identified, assessed, controlled and monitored consistently, objectively and holistically. The mitigation strategy with respect to various risks as covered under the current Risk Management framework is:

a) Insurance Risk

Due to its inherent nature of business, the Company exposes itself to a large number of risks. The risks may relate to expenses it incurs in carrying on its business, mortality and morbidity rates and persistency of its policyholders'.

Expense Risk - The Company seeks to minimise its expense risk by the use of stringent expense control mechanism.

Mortality and Morbidity Risk - The Company seeks to minimise mortality and morbidity risks by diversifying its business portfolio, adhering to appropriate underwriting norms, intensive monitoring of the retention limits and diversification of the risk through reinsurance.

Persistency Risk - The Company analyses all the assumptions used in product pricing and calculation of embedded value and ensure that the same is in line with the actual experience. Also, strategic measures and initiatives are undertaken to ensure that the persistency ratios remain healthy.

Management Report for the year ended March 31, 2014

The Company seeks to minimise potential impact of all insurance risks by an ongoing monitoring of insurance risk experience, implementation of appropriate controls, and adjusting its products, processes and plans accordingly.

b) Investment Risks - Market Risk, Credit Risk and Liquidity Risk

The Company seeks to manage its investment risk by ensuring investments are made in high quality assets, which matches its liabilities both by nature and term to the extent that is necessary and possible. The Company has constituted an Investment Committee, which acts as the policy making body for the investment operations. The Investment Committee lays down various internal policies and norms governing the functioning of the investment department. The Investment Committee periodically discusses the investment strategy, portfolio structures, performance of the portfolio and related issues. The investment policy is reviewed regularly in order to align the same with the Company's business plans.

Market risk, credit risk and liquidity risk forms a part of the investment risk framework. The Company seeks to minimise these risks through set policies in place. The Company also has constituted internal Asset-Liability Management Committee (ALCO) which monitors assets and liabilities position risk, comments on business strategy and monitors products experience of the Company on regular basis. ALCO provides assurance on the management of insurance and investment risk to the risk Management Committee of the Board.

c) Operational Risk

By nature of its business, the Company is exposed to various types of operational risk, which arise from various sources including inadequate record keeping, failures of systems, employee error, and internal/external frauds. The Company seeks to minimise the impact of these risks by regular monitoring of processes, systems and procedures, implementation of controls, adherence to malpractice matrix for controlling frauds and ensuring back-ups for both systems and data are maintained.

The Internal audit department performs regular risk based audits and reports the findings to the Audit Committee on regular basis. The Company's internal auditors review the processes, systems and procedures regularly. Reports of the auditors and the updates by risk management team as well as the actions taken are reported to the

Audit Committee and Risk Management Committee of the Board respectively.

Business interruption risk also forms an integral part of operations risk. Since the Company can face a host of disasters that range from minor to catastrophic like fire/data centre failure/earthquake etc. which can impact day-to-day operations, the Company seeks to minimise the risk by having a robust Business Continuity Plan (BCP) in place to manage such business interruption risks. Disaster recovery site has been set up to carry critical processes in adverse scenario. Business continuity drills are carried on yearly basis for critical processes and outsource partners to manage business interruption risks.

d) Compliance Risk

Sound compliance management process and information systems with a strong control culture have proven effective in managing compliance risk. Accountability & authority for compliance are clearly defined and enforced. Compliance tracker is maintained by the compliance department to manage timelines that are of regulatory nature. All regulatory reporting are published on periodic basis to the relevant stakeholders and timely submission of the reports due is ensured. Appropriate controls and systems are implemented to identify compliance problems and assess performance.

e) Strategic Risk

Strategic risk is associated with an organisation's mission and future business plans. Detailed analysis is conducted every year to gauge changes in macro economic factors, government policies and regulatory environment. In addition, movement on these parameters are discussed with the Board every quarter along with the management's point of view and recommended action plan. In addition to this, the Life Council and IRDA share the organisation's view point on steps to increase life insurance penetration, reduce impact of regulatory changes.

9. Operations in other Countries

The Company has a liaison office in Dubai; however, all policies are underwritten and issued in India. Hence, the Company is not exposed to country risk.

10. Ageing of Claims

The average claims settlement time has been 10 days from the day all necessary documents are submitted to the

Management Report for the year ended March 31, 2014

Company till cheque has been dispatched. For linked and traditional business details of claims registered and settled are attached as Annexure A and the details of claims registered and not settled are attached as Annexure B.

11. Valuation of Investments

Given below is the basis as to how the values, as shown in the Balance Sheet, of the investments and stocks and shares have been arrived at, and how the market value thereof has been ascertained;

Real Estate-Investment Property

Real estate investment property represents land or building held for investment purposes and is valued at historical cost, subject to revaluation, if any. Revaluation of the investment property is done at least once in three years. Any change in the carrying amount of the investment property is recognised in revaluation reserve in the Balance Sheet. Impairment loss, if any, exceeding the amount in revaluation reserve is recognised as an expense in the Revenue Account or Profit and Loss Account.

Debt securities

a) Non-linked business, non-unit reserve investments and shareholders' investments

Debt securities, including Government Securities are considered as "held to maturity" and accordingly valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding, on a straight line basis.

Investments in Venture Funds, Security Receipts, Fixed Deposits and Reverse Repo are valued at cost.

b) Linked business

Debt securities, including Government Securities are valued at market value, using Credit Rating Information Services of India Limited ('CRISIL') Bond Valuer/CRISIL Gilt Prices, as applicable. Money market instruments like Commercial Papers, Certificate of Deposits, Treasury Bills (T- Bills) and Collateral Borrowing and Lending Obligations (CBLO) are valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight line basis.

Investments in Venture Funds, Security Receipts, Fixed Deposits and Reverse Repo are valued at cost. Unrealised gains or losses arising on valuation of debt securities

including Government Securities are recognised in the Revenue Account.

Securities with call options are valued at the lower of the values as obtained by valuing the securities to final maturity dates or to the call option dates. In case there are multiple call options, the securities are valued at the lowest value obtained by valuing the securities to various call dates or to the final maturity dates. Securities with put options are valued at the higher of the value as obtained by valuing the securities to final maturity dates or to the put option dates. In case there are multiple put options, the securities are valued at the highest value obtained by valuing the securities to various put option dates or to the final maturity dates.

Securities with both put and call options on the same day are deemed to mature on the put and call option day and would be valued on a yield to maturity basis, by using the benchmark rate based on the matrix released by CRISIL on daily basis.

Equity Shares

a) Non-linked business, non-unit reserve investments and shareholders' investments

Listed equity shares are valued at fair value being the lower of the last quoted closing prices on the Primary Exchange i.e. NSE at the Balance Sheet date. In case, the equity shares are not traded on the Primary Exchange on the Balance Sheet date, the closing prices on the Secondary Exchange i.e. BSE is used.

If equity shares are not traded on Primary or Secondary Exchange on the Balance Sheet date, then prices at which the equity shares are traded on the Primary or Secondary Exchange, as the case may be, on the earliest previous day is used for valuation.

Unrealised gains or losses arising due to change in fair value are recognised as part of equity under the head 'Fair Value Change Account' in the Balance Sheet.

Unlisted equity shares, and listed equity shares that are not regularly traded in active markets and which are classified as "thinly traded" as per Guidelines governing Mutual Funds laid down by SEBI are valued at historical cost subject to provision for diminution, if any, in the value of such investments determined separately for each individual investment.

Management Report for the year ended March 31, 2014

Bonus entitlements are recognised as investment on the 'ex-bonus date'. Right entitlements are recognised only when the original shares on which the right entitlement accrues are traded on the stock exchange on an ex-rights basis.

b) Linked business

Directors' Report

To
THE MEMBERS OF,
HDFC PENSION MANAGEMENT COMPANY LIMITED,

The Directors have pleasure in presenting the 3rd Annual Report of HDFC Pension Management Company Limited ("Company"), together with the audited Financial Statements of the Company, for the Financial Year ended March 31, 2014 (FY 2014).

Financial Performance

The financial performance for the FY 2014 was as follows:

Particulars	₹ lacs)	
	FY 2014	FY 2013
Gross income	203.29	-
Depreciation and amortisation	(22.87)	-
Profit/ (Loss) before exceptional and extraordinary items and tax	4.02	(50.32)
Profit/ (Loss) before Tax	4.02	(50.32)
Profit/ (Loss) for the year from continuing operations	3.25	(50.32)
Loss carried forward to the Balance Sheet	(56.00)	(59.25)

Dividend

The financial operations of the Company have resulted in a modest net profit (after tax) of ₹ 3.25 lacs. Considering the need to plough back profits for future plans, your Directors do not recommend any dividend on equity shares for this financial year.

Share Capital

The eligibility criteria prescribed by Pension Fund Regulatory and Development Authority ("PFRDA") for registration as a Pension Fund Manager ("PFM") *inter alia* required that the Company should have a minimum net worth of ₹ 25 Crs at all times. In light of the said requirement, the Authorised Share Capital of the Company was increased to ₹ 30 Crs from ₹ 10 Crs, divided into 30,000,000 Equity Shares of ₹ 10/- each. Further, the Company had during the year increased its paid-up share capital from ₹ 58 lacs to ₹ 28 Crs.

The entire share capital of the Company is held by HDFC Standard Life Insurance Company Limited, including shares held by it through nominee shareholders.

Business Review & Outlook

The Company commenced its operations in August, 2013 after procuring the license from PFRDA on April 23, 2013 by quickly setting up the necessary infrastructure required for the purpose. This was the first year of operations for the Company and the Company made good progress. The industry Assets Under Management ("AUM") grew 61% over last year from ₹ 29,851 Crs to ₹ 48,104.49 Crs. Out of this total AUM, AUM of ₹ 2,891.04 Crs was under the Corporate NPS. There were about 249002 subscribers last year in the Corporate NPS scheme. As on March 31, 2014, the Company had around 1195 subscribers. This was

HDFC Pension Management Company Limited

mainly due to the Company's efforts of reaching out to various corporates and creating awareness for NPS resulting in them signing up for NPS. Your Company's AUM stands at ₹ 5.87 Crs during the FY 2014. The Net Asset Value ("NAV") of the various schemes managed by the Company as at close of March 28, 2014 and returns (since inception, absolute returns as on March 28, 2014) for the period of operations during the FY 2014 were as follows:

Name of the Scheme	NAV as on March 28, 2014	Fund Performance HDFC Pension	Benchmark* Returns
Scheme C -Tier I	10.7002	7.00%	4.59%
Scheme E -Tier I	11.9990	19.99%	17.47%
Scheme G -Tier I	10.3277	3.28%	1.79%
Scheme C -Tier II [§]	10.6116	6.12%	4.59%
Scheme E -Tier II [#]	10.7929	7.93%	17.47%
Scheme G -Tier II	10.5917	5.92%	1.79%

* Same period benchmarks; Nifty-50 for Scheme E, Composite Bond Fund Index for Scheme C and I-Sec Libex for Scheme G.

[§] Due to small fund size of Scheme C Tier II, investment has been made temporarily in Liquid Mutual Fund. Hence, Fund performance of the scheme for the period is not comparable with the benchmark.

[#] Due to small fund size of Tier II Scheme E investment has been made temporarily in Liquid Mutual Fund. The fund has started investment in equity securities in the month of March, 2014. Hence, Fund performance of the scheme for the period is not comparable with the benchmark.

The business environment was promising for pension fund managers towards the start of FY 2014. However, regulatory changes during the year have created a sense of uncertainty in the business plans of the Company.

This led your company to focus on keeping costs under control and operating in a lean structure. The various cost reduction initiatives coupled with the long-term returns on investments have resulted in the Company generating a net profit after tax of ₹ 3.25 lacs during the first year of its operations. Your Company strives to emerge as a strong player in the pension management business and will be channelizing its efforts going forward, to achieve the same.

Key Regulatory Changes

During the year under review, PFRDA has brought out several guidelines including the investment guidelines, KYC norms, registration of NPS-Lite subscribers etc. The investment guideline for pension assets was revised in

January, 2014 and has been made more conservative to enhance safety of investments. Your Company has implemented these guidelines earnestly and has sent regular reports to PFRDA confirming compliance to the aforementioned guidelines.

The new Companies Act, 2013 have been brought into force with most of its provisions effective from April 1, 2014. The law aims at *inter alia* further improving governance and disclosures.

A Request for Proposal ("RFP") was floated by PFRDA in January, 2014 for selection of pension fund managers afresh to manage the NPS funds. As per the said RFP, the existing pension fund managers as well as new corporates were eligible to apply for an appointment with a validity period of 5 years. Your Company had participated in the RFP Process through the Sponsor i.e HDFC Standard Life Insurance Company Limited. However, the Company and the Sponsor apprehends that PFRDA is likely to disqualify your Company, and thus, the Sponsor has approached the Courts for suitable remedy. Meanwhile, since the Company's licence was expiring on April 22, 2014, an application has also been filed with PFRDA to renew the license.

We strongly believe that having been granted a licence just a year back, it is highly unfair for the licence to be superseded or not renewed, and thus are very hopeful that our view will prevail.

Directors

As on the date of this report, the Company's Board comprises of four Directors with half of the Board being Independent Directors.

It may be noted that pursuant to the provisions of the new Companies Act, 2013, the Independent Directors shall hold office for a term of five consecutive years, and shall be eligible for re-appointment for a further period of five years, subject to passing of special resolution by the Shareholders in General Meeting. Further, the Independent Director shall not be liable to retire by rotation at the ensuing AGM.

Thus, in line with the provisions of Sections 149 and 152 of the new Act, the existing Independent Directors i.e Dr. SA Dave and Mr. AKT Chari, shall hold office of Independent Director for a period of 5 years with effect from April 17, 2014. The resolutions proposing the

HDFC Pension Management Company Limited

same are included in the Notice convening the Annual General Meeting.

Further, under the provisions of the New Act, only the Non-Independent Directors are counted for the purpose of determining directors liable to retirement by rotation. Accordingly, Ms. Vibha Padalkar, will retire by rotation at the ensuing Annual General Meeting. Ms. Vibha Padalkar is eligible for re-appointment and resolution for the purpose is being proposed in the Notice convening the ensuing Annual General Meeting.

Profile of the Directors seeking re-appointment is given in the notice of the 3rd Annual General Meeting.

None of the directors of the Company are disqualified from being re-appointed as Directors in accordance with Section 274(1) (g) of the erstwhile Companies Act, 1956.

Independent Auditors' Report

TO THE MEMBERS OF HDFC PENSION MANAGEMENT COMPANY LIMITED

Report on the financial statements

We have audited the accompanying financial statements of HDFC Pension Management Company Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2014, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

The Company's Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards notified under the Companies Act, 1956 ("the Act") read with the General Circular 15/2013 dated September 13, 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- (b) in the case of Statement of Profit and Loss, of the profit for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Report on other legal and regulatory requirements

1. As required by the Companies (Auditor's Report) Order, 2003, as amended by the Companies (Auditor's Report) (Amendment) Order, 2004, issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that:
 - a. We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - c. The Balance Sheet, Statements of Profit and Loss and Cash Flow dealt with by this Report are in agreement with the books of account;
 - d. In our opinion, the Balance Sheet, the Statements of Profit and Loss and Cash Flow dealt with by this report, comply with the Accounting Standards notified under the Companies Act, 1956 read with the General Circular 15/2013 dated September 13, 2013 of the Ministry of Corporate Affairs in respect of section 133 of the Companies Act, 2013;
 - e. On the basis of written representations received from the Directors as on March 31, 2014, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2014, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

BACKGROUND

HDFC Pension Management Company Limited (formerly known as HDFC Life Pension Fund Management Company Limited) is a wholly owned subsidiary of HDFC Standard Life Insurance Company Limited. The Company is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company was incorporated on June 20, 2011 with Registration Number U66020MH2011PLC218824 with the specific purpose of managing pension fund business. Pursuant to the approval received from the Registrar of Companies, Mumbai, the Company has changed its name from 'HDFC Life Pension Fund Management Company Limited' to 'HDFC Pension Management Company Limited' with effect from March 26, 2013. In January 2014, a Request for Proposal ("RFP") was floated by Pension Fund Regulatory and Development Authority (PFRDA) seeking fresh bids for selection of pension fund managers afresh to manage the pension funds. In accordance with this requirement, HDFC Standard Life Insurance Company Limited ("Sponsor") has submitted a technical and commercial bid to the PFRDA in February 2014. On April 16, 2014, PFRDA scheduled the opening of bids of all bidders, except that of the Sponsor. To protect its interest and to ensure that it is included in the bid evaluation process, the Sponsor filed a writ petition in the Hon'ble High Court of Delhi. On April 16, 2014, the Hon'ble High Court directed PFRDA to open the Sponsor's bid along with the bids of other bidders and evaluate the same in accordance with law. The management of the Sponsor expects to qualify the bid evaluation process. The existing license of the Company is in force and valid as at March 31, 2014.

1 Significant Accounting Policies

1.1 Basis of preparation of financial statements

The financial statements are prepared under the historical cost convention on accrual basis of accounting in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006, in terms of Section 211(3C) of the Companies Act 1956, to the extent applicable and in the manner so required. The accounting policies and practices which are material in determining the results of operations for the year are consistent with those adopted in the financial statements for the previous financial year.

1.2 Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles in India ('Indian GAAP') requires that the Company's management makes estimates and assumptions that affect the reported amounts of income and expenses for the year, reported

balances of assets and liabilities and disclosures relating to contingent liabilities as of Balance Sheet date. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances upto and as of the date of the financial statements. Actual results could differ from the estimates. Any revision to the accounting estimates is recognised prospectively.

1.3 Revenue recognition

Investment management fees

Investment management fees are recognised on an accrual basis in accordance with the terms of the "Investment Management Agreement"(IMA) entered into with the National Pension System (NPS) Trust. The investment management fees are presented net of service tax in the Statement of Profit and Loss.

Other income

Interest income on investments is recognised on an accrual basis. Amortisation of premium or accretion of discount on money market instruments and zero coupon bonds is amortised over the holding / maturity period on a straight line basis, subject to the change in value of investments due to market movements.

Dividend income is recognised on the "ex-dividend" date in case of listed equity shares and in case of unlisted equity shares when right to receive dividend is established.

Profit or loss on sale of debt investments is calculated as the difference between the net sale proceeds and the weighted average cost.

Profit or loss on sale of money market instruments is calculated as the difference between the net sale proceeds and weighted average amortised cost.

Profit or loss on sale of equity shares/mutual fund units is calculated as the difference between the net sale proceeds and weighted average cost.

1.4 Investments

Investments that are by nature readily realisable and intended to be held for not more than one year from the date on which such investments are made are classified as current investments. All other investments are classified as long term investments and disclosed as non-current investments. Current investments are valued at lower of cost or fair value, which valuation is calculated for each individual investment. Long term investments are valued at cost. However, provision for diminution in value is made to recognise a decline, other than temporary in the value of the investments.

Notes

1.5 Fixed assets and Depreciation / Amortisation

Fixed assets are stated at cost less accumulated depreciation. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets. Depreciation is charged on prorated basis from the month in which the asset is put to use and upto the previous month of sale. Fixed assets individually costing less than ₹ 5,000 are fully depreciated in the year of purchase.

Advances paid towards the acquisition of fixed assets as at the Balance Sheet date and cost of fixed assets not ready for its intended use as at such date is disclosed as capital work in progress.

Tangible assets

The Company has adopted the straight line method of depreciation so as to depreciate 100% of the cost of the following types of assets over the useful life of the assets at rates equal to or higher than those prescribed under Schedule XIV of the Companies Act, 1956 based on the management estimate of useful life of such assets:

Asset	Depreciation rate
Computer hardware	25%
Furniture and Fixtures	20%
Office Equipment	20%
Leasehold Improvements	20%

Intangible assets

Intangible assets comprising computer software are stated at cost of acquisition, including any cost attributable for bringing the same to its working condition, less accumulated amortisation and impairment. These are amortised over the useful life of the software subject to a maximum of four years. Any expenditure for support or maintenance of the software is charged to the Statement of Profit and Loss.

1.6 Impairment of assets

The Company's management periodically assesses, using internal and external sources, whether there is any indication that an asset may be impaired. If any such indication of impairment exists, the recoverable amount of such amount is estimated. An impairment loss is recognised in the Statement of Profit and Loss where the carrying value of an asset exceeds its recoverable amount. Impairment loss is determined as the excess of the asset's carrying value over the recoverable amount. The recoverable amount is

the higher of the asset's net selling price and value in use, which is the present value of future cash flows expected to arise from the continuing use of the asset and its ultimate disposal. When there is an indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.

1.7 Employee benefits

a) Short-term employee benefits:

All employee benefits payable within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries and bonuses, short term compensated absences and contribution towards Employee Deposit Linked Insurance are recognised in the period in which the employee renders the related service.

b) Post employment benefits

Defined contribution plan:

The Company's Provident Fund is a defined contribution plan. The contributions paid/payable towards the fund are charged to the Statement of Profit and Loss during the year in which the employee renders the related service.

Defined benefit plan:

The Company's Gratuity plan is a defined benefit plan. The present value of the obligation under such defined benefit plan is determined based on the actuarial valuation at the Balance Sheet date using the projected unit credit method. Provision for gratuity is accounted for taking into consideration the actuarial valuation of plan obligation as at the Balance Sheet date.

c) Other Long-term employee benefits

The obligation for long term employee benefits such as long term compensated absences, are accounted for based on actuarial valuation determined using the projected unit credit method.

Actuarial gains / losses, if any, due to change in actuarial valuation of all such employee benefit plans are recognised in the year of occurrence for all employee benefits.

1.8 Leases

Finance leases

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Such assets acquired are capitalised at fair value of the asset or present value of the minimum lease payments at the inception of the lease, whichever is lower.

Notes

forming part of the financial statements

Operating leases

Leases where lessor effectively retains substantially all the risk and the benefits of ownership over the leased term are classified as operating leases. Rental payments under operating leases including committed increase in rentals are recognised as an expense, on a straight line basis, over the non cancellable lease period.

1.9 Taxation

a) Direct tax

i) Provision for current tax

Provision for income tax is made in accordance with the provisions of the Income Tax Act, 1961 as applicable to the company carrying on pension business.

Where Company has provided for tax liability based on Minimum Alternate Tax (MAT) provisions, MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period.

ii) Deferred tax

In accordance with the provisions of Accounting Standard (AS) 22, "Accounting for Taxes on Income", issued by The Institute of Chartered Accountants of India, deferred tax asset is recognised only to the extent that there is reasonable certainty that sufficient taxable income will be available against which such deferred tax asset can be realised. With respect to carry forward of losses/unabsorbed depreciation under the Income Tax regulations, deferred tax asset is recognised only to the extent that there is a virtual certainty supported by convincing evidence that future taxable income will be available against which the deferred tax asset can be realised.

b) Indirect tax

The Company claims credit of service tax on input services, which is set off against service tax on output services. As a matter of prudence, unutilised credit towards service tax on input services is carried forward under 'Long-term loans and advances', wherever there is reasonable certainty of utilisation.

1.10 Provisions, contingent liabilities and contingent assets

Provisions are recognised in respect of present obligations that arise as a result of past event and it is

probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount of obligation can be made.

Contingent liabilities are disclosed in respect of ;

- a) possible obligations that arise from past events, the existence or otherwise of which will be confirmed by the occurrence or non-occurrence of one or more uncertain future events, not wholly within the control of the Company or
- b) present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither accounted for nor disclosed.

1.11 Earnings per equity share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.12 Cash flow statement

Cash flows are reported using the indirect method as explained in Accounting Standard (AS) 3, "Cash Flow Statements" issued by The Institute of Chartered Accountants of India, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are separately presented.

1.13 Cash and cash equivalents (for cash flow statement purposes)

Cash comprises cash, cheques in hand and bank balances and cash equivalents comprise of highly liquid mutual funds and highly liquid investments that are readily convertible into measurable amounts of cash and which are subject to insignificant risk of change in value.

20 Tax provision

a) Direct tax

i) Provision for current tax

The Company has made a provision for Minimum Alternate Tax (MAT) u/s 115JB of the Income Tax Act, 1961 of ₹ 77 thousands (Previous Year ₹ Nil) in the Statement of Profit and loss for the year ended March 31, 2014 in accordance with the Rules and Regulations there under, as applicable to the Company.

In the absence of convincing evidence with respect to its utilisation, MAT credit entitlement for the year has not been recognised.

ii) Deferred tax

With reference to the accounting policy on deferred tax, in view of lack of virtual certainty supported by convincing

evidence in the business, that future taxable income will be available against which the deferred tax asset can be realised, the Company has concluded that it would not be prudent to recognise deferred tax asset during the year.

21 Leases

In accordance with the Accounting Standard (AS) 19, "Leases", issued by The Institute of Chartered Accountants of India, the following disclosures are made in respect of operating leases:

The Company has taken motor vehicles on operating lease for a term of upto 5 years. In respect of the operating leases, the lease rentals debited to the Statement of Profit and Loss are ₹ 108 thousands (Previous Year ₹ Nil). The minimum future lease rentals payable for specified duration in respect of such leases, are as given below:
